George M. Eberhart

Tula Hatti The Last Great Elephant:

Tula Hatti Peter Byrne,1993-06 Tula Hatti the largest known Asian elephant alive today lives in the endangered habitat of southwestern Nepal In 1988 Peter Byrne a former big game hunter set out to film the huge elephant in his habitat in order to bring Tula Hatti to the attention of the world to make him a symbol of endangered wildlife everywhere 28 photographs 3 maps *The Sasquatch in Minnesota* Mike Quast,2021-11-19 This book tells the story of my own investigations in my home

state of Minnesota Every report that I am personally aware of at this time for Minnesota and the Dakotas is included here Many are of a more or less conventional nature man sees sasquatch sasquatch runs away while others are downright bizarre but all are true to the best of my knowledge and I believe they prove the existence of the beast I saw along that forest highway all those years ago *Gone Are the Days* Peter Byrne,2001-01-01 Peter Byrne has led the life most of us can only dream about After WW II he returned to Ireland but being restless he decided to find a job that would take him to exotic lands Using his family s connections he was hired as a manager on a huge Indian tea plantation in the Himalayan foothills a posh job that came with 17 servants and a mansion Almost immediately on arrival he was plunged into Indian jungle hunting his primary love when the local villagers turned to him with a plea to eliminate a rogue boar Read his exciting description of how he jumped from a tree and sliced the boar s skull in two while half the adult males of the village stayed in the trees to watch and cheer him on Share his many adventures in India with tiger elephant and leopard and see how a fortuitous championing of a member of the ruling elite of Nepal during a bar brawl prompted Peter to move to Nepal and become a professional hunter there Move with him to Nepal where he was for years the only authorized professional hunter to operate in that country In the unspoiled wilderness of the White Grass Plains area of Nepal where there were virtually no roads and the natives did not even know the name of the capital of the country he hunted tiger right up till the close of tiger hunting in 1969 Follow his exploits in the Terai forested southlands of Nepal where he encountered a man eater that was eventually killed by a train This is the true life story about a time that now is completely gone a time when virtually no cars were seen in the remote areas of India and Nepal a time when tiger gaur leopard sambar and many other jungle denizens were plentiful beyond description Those days are truly gone Foreword by Charlton Heston Mysterious Creatures George M.

Eberhart,2002-12-17 A comprehensive guide to cryptozoology the quest to identify animals that have not been officially catalogued by science and to place these unknown animals into their proper zoological categories In this fascinating two volume encyclopedia author George M Eberhart provides a comprehensive catalog of nearly 1 000 cryptids unknown animals usually reported through eyewitness accounts and not yet described by science Cryptids are the stuff of folklore hoaxes and genuine scientific breakthroughs There are 400 now classified cryptids once considered either extinct or pure fantasy The cryptozoologist s job is to strip away the myth misidentification and mystery and separate fact from fiction *Mysterious Creatures* covers everything from dinosaurs and the emala ntouka an elephant killing dinosaur like animal of central Africa to

searches for the Loch Ness monster Bigfoot and other cryptozoological hoaxes Entries about specific animals include the derivation or meaning of each cryptid's name its scientific name variant names a physical description behavior description of tracks habitat significant sightings present status and possible explanations Illustrations and photographs accompany many entries The book also includes resources and references for further information

Travelers' Tales Nepal Rajendra S. Khadka, 1997 Gathers stories by Peter Matthiessen Jimmy Carter Diane Summers Broghtonoburn Meg Lukens Noonan and Jan Morris describing their adventures in Nepal

Mammoth Hunt John Blashford-Snell, 1997

Encyclopedia of Cryptozoology Michael Newton, 2016-10-05 On every continent and in every nation animals unrecognized by modern science are reported on a daily basis People passionately pursue these creatures the name given to their field of study is cryptozoology Coined in the 1950s the term literally means the science of hidden animals When the International Society of Cryptozoology ISC was formed in 1982 the founders declared that the branch of science is also concerned with the possible existence of known animals in areas where they are not supposed to occur either now or in the past as well as the unknown persistence of presumed extinct animals to the present time or to the recent past what makes an animal of interest to cryptology is that it is unexpected This reference work presents a flesh and blood view of cryptozoology Here 2 744 entries are listed the majority of which each describe one specific creature or type of creature Other entries cover 742 places where unnamed cryptids are said to appear profiles of 77 groups and 112 individuals who have contributed to the field descriptions of objects and events important to the subject and essays on cryptotourism and hoaxes for example Appendices offer a timeline of zoological discoveries annotated lists of movies and television series with cryptozoological themes a list of crypto fiction titles and a list of Internet websites devoted to cryptozoology

Anatomy of a Beast Michael McLeod, 2009-06-02 Part history part road trip and part biography this is the true story of a remarkable group of men whose obsession with Bigfoot turned the giant hominid into an American icon Award winning journalist Michael McLeod tells of Bigfoot's rise to tabloid stardom in a fast paced account that begins with his own journey to investigate a famous 1967 film clip of a Bigfoot in a California forest McLeod proceeds to uncover a trail of clues reaching from the late nineteenth century when a few ambitious imaginative naturalists and explorers synthesized historical and indigenous folklore with Darwinian ideas and speculated that a proto hominid missing link might still be alive in remote areas That speculation would eventually inspire a colorful cast of loggers hunters con artists and businessmen in the twentieth century to create the modern myth of Bigfoot all of them angling for a piece of a monster that the media and the public still can't get enough of Told through vividly narrated interviews and anecdotes *Anatomy of a Beast* offers a unique perspective on the deep roots of counterfactual thinking and how obsession and myth are created out of it

Of Books and Beasts Matt Bille, 2021-12-02 In the controversial field of cryptozoology plagued by long lost accounts and internet fantasies the essential core of usable information is largely maintained in books Science writer and cryptozoology researcher Matt Bille offers 400 reviews of significant books in

cryptozoology supporting sciences like biology and cryptozoological fiction Matt's selections based on 45 years of reading and writing on zoology and cryptozoology favor reliable science and history providing an essential foundation for enthusiasts and skeptics alike The search for unknown animals starts here Looking for a concise but reliable survey of the most noteworthy cryptozoological books past and present Look no further here it is Dr Karl P N Shuker Zoologist Where Bigfoot Walks Robert Michael Pyle, 1995 Robert Michael Pyle trekked into the Dark Divide where he discovered a giant fossil footprint searched out Indians who told him of an outcast tribe that had not fully evolved into humans and attended the convocation in British Columbia called Sasquatch Daze where he realized that these guys don't want to find Bigfoot they want to be Bigfoot Ultimately Pyle discovers a few things about Bigfoot and a lot about the human need for something to believe in and the need for wilderness in our lives
