focus on Elsa Morante's strategies to address her wide disinterest and contempt for the Italian intellectual status quo of her time regardless of its political side while showing at once her own kind of ideological commitment Further contributors tackle the ways in which Morante's writings shape classical oppositions such as engagement and enchantment with the world sin and repentance self reflection and corporality as well as how her engagement in the visual arts theatre and cinematic adaptations of her works garner further perspectives to her stories and characters Her works particularly the novels *Menzogna e sortilegio* *House of Liars* 1948 *La Storia* *Romanzo History A Novel* 1974 and more explicitly *Aracoeli* 1982 foreshadowed and advanced tenets and structures later affirmed by postmodernism namely the fragmentation of narrative cells rhizomatic narratives lack of a linear temporal consistency and meta and self reflective processes

Hermeneutics as a General Methodology of the Sciences of the Spirit Emilio Betti, 2021-03-30 With a Foreword by Lars Vinx this book is the first complete English translation of the Italian jurist Emilio Betti's classic work *Die Hermeneutik als allgemeine Methodik der Geisteswissenschaften* originally published in 1962 Betti's hermeneutical theory is presented here as a general methodology of the sciences of the spirit such as to allow the achievement of objectivity however relative it might be Its central focus is the tension between an object to be considered in its autonomy and the subjectivity of the interpreter who can understand the object only by means of his or her own categories historical cultural conditions and interests Set against the work of Bultmann and Gadamer Betti is concerned to limit the arbitrariness of subjectivity without diminishing the place of interpretation Detailing the principles that govern and therefore guide any interpretation Betti traces how interpretation in art and in literature as well as in the fields of science jurisprudence sociology and economy can be said to be objective albeit only ever in a relative sense This summa of Betti's key contribution to hermeneutic theory will be of interest across a range of disciplines including legal and literary theory philosophy as well as the history and sociology of law

The Social Sense of the Human Experience Roberta Iannone, 2016-08-17 Why should we wonder about man and the human sense What are the questions and answers we are seeking Why should we read the work of Werner Sombart Or rather why should we re read this Sombart This book tracks the human sense in order to rediscover this compass against the current crisis of the humanistic conception of society This crisis is manifest in a repositioning of society which is no longer human by definition in contrast to the past when the term human society was a tautology and redundant As such the human element of society must be rediscovered This book revitalizes the scientific sense of the human which is almost anesthetized often frustrated and belittled sometimes confused and mistaken with something else frequently misunderstood and made unrecognizable but precisely for this reason which is increasingly essential today

Friends and Foes Volume I Barbara Gabriella Renzi, Elisabetta Viggiani, 2009-01-14 The product of an international multi disciplinary conference at Queen's University Belfast the two volume *Friends and Foes* series offers an illuminating investigation of the relationship between friendship and conflict by established and emerging scholars In this first volume which collects together philosophical and

cultural essays on the topic the authors raise and tackle some of the most pertinent issues central to the understanding and making of friendship What constitutes friendship What challenges duties and pleasures does friendship entail The ambiguity of friendship is a recurring theme in the book and Mark Vernon's essay on the philosophical history of thinking about friendship's ambiguity provides the perfect point of entry for discussion of the compelling literary and theatrical representations which follow in the work of writers such as Maria Edgeworth Gregory Burke and Edgar Allan Poe

Faith Without Dogma Franco Ferrarotti, 1993-01-01 We live in a time of high Church membership but low Church attendance Franco Ferrarotti arguably the most important sociologist of religion alive captures the source of this paradox in the title of his new book *Faith without Dogma* For it is belief that propels membership while the absence of dogma results in a reticence to accept hierarchical direction from above or beyond Basing much of his analysis on the postwar struggles within Roman Catholicism Ferrarotti views the demand for religious renewal and revival as part and parcel of the emergence of broad social agendas agendas to which not even the Roman curia could remain impervious The former easy relationships between Church and State especially authoritarian states in Europe and Latin America gave way to a critical defense of individual rights within a context of a broadened vision of Christian doctrine In addition to issues involved in internal affairs of religion Ferrarotti explores a series of developments that have changed for all time the nature of Church survival The critical element one that goes beyond specific doctrinal accommodations is the new primary connection of Church to people rather than Church to State This came about through the widespread acceptance of science and technology as frames of intellectual reference the emergence of secularization as mediating religious claims and the creation from the Enlightenment to the Postmodern eras of civil religions The volume concludes with a set of chapters on the nature of sacred events and objects the emergence of new varieties of prayer and concludes with a chapter on the relationship of ideology to theology prepared especially for the English language edition of *Faith without Dogma* This is a book likely to attract a broad audience among religionists and culturologists as well as social scientists

Faith without Dogma Franco Ferrarotti, 2020-07-26 We live in a time of high Church membership but low Church attendance Franco Ferrarotti arguably the most important sociologist of religion alive captures the source of this paradox In the title of his new book *Faith without Dogma* For it is belief that propels membership while the absence of dogma results in a reticence to accept hierarchical direction from above or beyond Basing much of his analysis on the postwar struggles within Roman Catholicism Ferrarotti views the demand for religious renewal and revival as part and parcel of the emergence of broad social agendas agendas to which not even the Roman curia could remain impervious The former easy relationships between Church and State especially

authoritarian states in Europe and Latin America gave way to a critical defense of individual rights within a context of a broadened vision of Christian doctrine. In addition to issues involved in internal affairs of religion, Ferrarotti explores a series of developments that have changed for all time the nature of Church survival. The critical element one that goes beyond specific doctrinal accommodations is the new primary connection of Church to people rather than Church to State. This came about through the widespread acceptance of science and technology as frames of intellectual reference, the emergence of secularization as mediating religious claims and the creation from the Enlightenment to the Postmodern eras of civil religions. The volume concludes with a set of chapters on the nature of sacred events and objects, the emergence of new varieties of prayer and concludes with a chapter on the relationship of ideology to theology prepared especially for the English language edition of *Faith without Dogma*. This is a book likely to attract a broad audience among religionists and culturologists as well as social scientists.

Nietzsche Ernst Bertram, 2024-10-25T00:00:00+02:00 Il libro di Bertram su Nietzsche maturato in una cerchia intellettuale dominata da Stefan George e da Thomas Mann uscì nel 1918 e nel 1929 aveva già raggiunto la settima edizione. Riproporlo oggi significa riconoscere non solo la sua straordinaria importanza nella storia della ricezione letteraria dell'opera nietzscheana ma anche il suo valore di biografia simbolica di una generazione di scrittori. In questo Nietzsche raccontato per emblemi il lettore di oggi ritroverà con Thomas Mann il carattere profondamente musicale, la tecnica filologica vibrante di sentimento e di poesia, le ripetizioni delle citazioni come motivo strutturale e conduttore, lo sguardo d'insieme sull'opera di una vita esteriormente così dispersiva. Ma soprattutto potrà scoprirne una qualità trascurata dai suoi primi lettori: la modernità della tecnica letteraria non lontana da quella di Walter Benjamin che confessava l'ambizione di scrivere un libro fatto solo di citazioni.

Aforismi Friedrich Nietzsche, 2019-07-08T00:00:00+02:00 Questa collana dedicata ai migliori aforismi ospita quelli estrapolati dalle principali opere di Nietzsche. Considerato uno dei massimi scrittori di ogni tempo, la sua produzione spazia dalla filosofia alla letteratura, dalla poesia alla saggistica, dalla filologia fino addirittura alla musica. Sono piccole perle di sapere tratte dalle sue opere di maggior successo senza la pretesa di ricostruire una trattazione esaustiva del pensiero del grande autore ma col solo obiettivo di far immergere il lettore nella materia pulsante nel vivo del discorso senza intermediari critici.

Quel pazzo di Nietzsche Davide Orlandi, 2022-04-13 L'oggetto fondamentale del presente lavoro consiste nel tentativo di leggere la vita come volontà di potenza alla luce delle riflessioni nietzscheane in quest'ambito. Tuttavia se questo l'oggetto del lavoro legittimo, anche chiedersi a che scopo. In altri termini perché dovremmo cercare di vedere questa volontà di potenza nella vita? Che ci importa alla fin fine se la vita sia volontà di potenza o meno? Rispondere a questa domanda ci permetterà di capire perché facciamo quel che facciamo, che a sua volta è una risposta preliminare a una domanda sull'agire, ossia che cosa dovrei fare da domani mattina alla luce di tali nuove consapevolezza.

La stella ascetica Antonio Lucci, Agli ideali ascetici Friedrich Nietzsche ha notoriamente dedicato una durissima requisitoria nella terza dissertazione della sua *Genealogia della morale*. Eppure ad un'analisi più dettagliata non è possibile ritrovare in questo

testo neanche una singola occorrenza della parola ascesi davvero possibile che il filosofo e filologo classico di Rcken abbia ommesso casualmente una parola come askesis tanto centrale per il pensiero filosofico greco dal suo scritto polemico Oppure il concetto di ascesi va interpretato in maniera differente rispetto a quello di ideale ascetico andando cos a creare una costellazione teorica pi complessa rispetto a quella che sembra configurarsi in un primo momento Il presente lavoro si ripropone di effettuare una ricostruzione e discussione critica delle molte declinazioni dell'ascetismo presenti nel pensiero di Friedrich Nietzsche tanto nelle opere a stampa quanto nei frammenti postumi dall'ascesi greca di Pitagora e Orfeo passando per quella talvolta valorizzata talvolta criticata di Schopenhauer fino ad arrivare alla decostruzione dell'ideale ascetico nella Genealogia della morale verranno prese in considerazione quelle che andranno a configurarsi come le molte ascesi di Nietzsche
