and United Nations Peacekeeping Offensive Operations** Antonio Garcia, 2018-08-17 The creation of the Force
Intervention Brigade FIB as the sharp tactical edge of the United Nations Stabilisation Mission in the Democratic Republic of
the Congo MONUSCO tasked with the neutralising of armed groups was a watershed moment in the history of modern peace
missions What was more significant was that sub Saharan national leaders were instrumental in the creation of the FIB South
Africa Tanzania and Malawi but lacked the resources to deploy such a force and consequently the brigade was deployed
under the banner of the UN With the legacy of an African Renaissance and its role in the conception of the FIB South Africa
remains a critical player in international peace and security in sub Saharan Africa and therefore holds a key strategic role in
achieving the FIBs objectives This comes at a critical time where blue helmets are increasingly exposed to complex and
challenging security contexts The aim of this work is to provide a conceptual model for South African military future
operations and UN offensive peacekeeping operations In this undertaking a layer of military and Clausewitzian theory is
added to offensive peacekeeping operations Furthermore there are sections on operational constructs capstone and
operating concepts doctrine and structural elements as well a section on mine action This book contributes towards an
understanding of the nature of modern strategy through the lens of UN offensive peacekeeping operations and provides
insights into operational challenges **Manual of Military Aviation** Hollis LeRoy Muller, 1918 Monthly Catalog of
