Bullough Jr,2019-02-25 Challenges teacher educators face coupled with select aspects of teachers genuine experiences of teaching is an area that has been neglected and is often under appreciated Essays on Teaching Education and the Inner Drama of Teaching comprises 11 essays that address and illuminate the place where troubles and issues biography and history meet **Resources in Education** ,2001-10 **Why We Teach** Sonia Nieto,2005-06-25 In Memoriam for Julia Gardner **Understanding the Whole Student** Clifford Mayes,Ramona Maile Cutri,Neil Goslin,Fidel Montero,2016-03-03 Understanding the Whole Student presents a holistic approach to multicultural educational issues by viewing them in terms of the student as a physical psychosocial cognitive ethical and spiritual being Conversely these levels of a student s being cannot be seen apart from the student s cultural identities This unique book demonstrates that in a pluralistic democracy good teaching and deep learning must be multicultural and must look at the student as a whole being not just as a future worker in a transnational corporate economy as is currently the case with both neo liberal and neo conservative programs for reform The authors contend that good education is and must be multicultural in order to gain a deeper perspective on issues under analysis in the classroom through the sharing and negotiating of many different cultural perspectives **Exploring Learning, Identity and Power Through Life History and Narrative Research** Ann-Marie Bathmaker,Penelope Harnett,2010-02-25 The book brings together a collection of writing by different authors who use a narrative life history approach to explore the experiences of a wide range of people reflecting on learning and education at significant moments in their lives **Developing the Whole Student** Clifford Mayes,2019-12-31 This book proposes a new way of categorizing curricula in the holistic educational tradition This is an idea that goes back in the Western tradition at least as far as Plato and Lao Tzu in the Eastern tradition It is certainly present in Spinoza and Schopenhauer It is called a holarchy The idea of a holarchy gives rise to Integrative Curriculum Theory which with major modifications draws on Ken Wilber s in his evolutionary model of the development of consciousness at personal cultural and ontological realms Integrative Curriculum Theory will 1 Prove a useful addition to the holistic repertoire of systematic and above all humane terminologies and technologies for making and evaluating specific curricula as well as for theorizing the curriculum at a time when scientific technist and profit driven views of education have commandeered the podium policy and praxis and 2 address some areas of concern that with certain holistic models of education and 3 address some problems in Wilber s integral model of psychological cultural and spiritual evolution **Seven Curricular Landscapes** Clifford Mayes,2003 Seven Curricular Landscapes offers a holistic presentation and critique of what the author considers to be the seven major types of curricula This book which is suitable for both upper division and graduate education courses differs

from previous holistic approaches in that it closely considers the holistic implications of postmodernism adds new categories and terms to the holistic repertoire includes the latest developments in transpersonal theory examines the Existentialist curriculum as a spiritual phenomenon and discusses the curricular implications of both Eastern and Western spirituality

Archetype, Culture, and the Individual in Education Clifford Mayes, 2020-03-16 In *Archetype Culture and the Individual in Education* The Three Pedagogical Narratives Clifford Mayes presents a unique approach to understanding how Jungian principles can inform pedagogical theory and practice In a time when what the educational historian Lawrence Cremin called the military industrial educational complex and its standardized education are running roughshod over the psyche and spirit of students Mayes deploys depth psychology especially the work of Jung to advance an archetypal approach to teaching and learning Mayes demonstrates how catastrophic it is to students when the classroom is governed by forces that objectify the individual in a paralysing stranglehold He argues that one's life narrative is significantly impacted by one's narrative as a learner thus schooling that commodifies learning and turns the student into an object has neuroticizing effects that will spread throughout that student's entire life In Part I Mayes explores the interaction between archetypes and various types of time ultimately focusing on the individual but always mediated by the cultural unconscious In Parts II and III he brings together education with post Jungian and post Freudian psychology examining transference countertransference in the classroom the Jungian idea of the shadow applied to educational processes Jung's unique vision of the symbol and its importance for educational theory and Jung's transcendent function as a prime educational modality Mayes concludes by looking to the future of archetypal pedagogy This groundbreaking work in the emerging field of Jungian pedagogy is invaluable reading in Jungian Studies depth psychological theory educational theory and for teachers and psychotherapists
