Uncertainties Of Knowledge Politics History And Social Chan:

The Uncertainties of Knowledge Immanuel Maurice Wallerstein, 2004 The *Uncertainties of Knowledge* extends Immanuel Wallerstein's decade long work of elucidating the crisis of knowledge in current intellectual thought He argues that the disciplinary divisions of academia have trapped us in a paradigm that assumes knowledge is a certainty and that it can help us explain the social world This is wrong he suggests Instead Wallerstein offers a new conception of the social sciences one whose methodology allows for uncertainties Author note Immanuel Wallerstein is Director of the Fernand Braudel Center Binghamton University and Senior Research Scholar at Yale University

The Uncertainties of Knowledge Immanuel Maurice Wallerstein, 2004 In *The Uncertainties of Knowledge* Immanuel Wallerstein extends his work over the last decade of elucidating the crisis of knowledge in current intellectual thought Arguing that the current disciplinary divisions of academia divisions produced by a previous crisis of knowledge has left us trapped in a paradigm that assumes knowledge is a certainty that can help us explain the social world Wallerstein offers us a new way of imagining the social sciences one which allows for uncertainties and for methods of studying our world and its historical place

Navigating Technomedia Sam Han, 2008 This is an introductory survey of what the author calls the technomedia the generation of communication technologies after television cell phones and the first wave of the Internet Beginning with a history of media the book explores the nature and effects of technomedia like the blogosphere Blackberries and related technologies Because they are transforming the relations of their users to the social environment the topic is fast becoming an important focus of modern social theory

The Book Review Digest, 2005

The Undevelopment of Capitalism Rebecca Jean Emigh, 2009 In *The Undevelopment of Capitalism* Emigh argues that the expansion of the Florentine economic market in the fifteenth century helped to undo the development of markets of other economies especially the rural economy of Tuscany As this highly developed urban market penetrated rural regions it actually erased rural market institutions that rural inhabitants had used to organize agricultural production and family life

Thus an advanced economy at the time of the late Middle Ages and early Renaissance undeveloped over time The economic development of this region in Italy was delayed as it failed to keep pace with the rest of Europe Using a negative case methodology to show how urban and rural markets change Emigh employs methods of historical sociology and sectoral theories to examine how markets can prosper and suffer at the same time She shows how sectoral relations are crucial to transitions to capitalism and how capitalist development can also contract markets *Decision-Making under Ambiguity and Time Constraints* Reimut Zohlnhöfer, Friedbert W Rüb, 2016-02-24 Policy issues have grown ever more complex and politically more contestable So governments in advanced democracies often do not understand the problems they have to deal with and do not know how to solve them Thus rational problem solving models are highly unconvincing Conversely the Multiple Streams Framework starts out from these conditions which has led to increasing interest in it Nevertheless there has not yet been a systematic attempt to assess the potential of such scholarship This volume is the first attempt to fill that gap by bringing together a group of international scholars to assess the strengths and weaknesses of the Framework from different angles Chapters explore systematically and empirically the Framework's potential in different national contexts and in policy areas from climate change and foreign policy to healthcare and the welfare state **Four Germanys** Donald S. Pitkin, 2016-10-04 In this last book by the late Donald Pitkin author of *The House that Giacomo Built* comes a story of the Schorcht family through whose fortunes and struggles one can see the transformations of Germany through the long twentieth century Each chapter of *Four Germanys* is reflective of generational rather than historical time In 1922 Edwin Schorcht inherited his family farm and in Part One Pitkin traces the derivation of this farmstead Part Two focuses on Schorcht's children who came of age in Hitler's Germany Part Three has the Schorchts growing up in the Ulbricht years 1950-73 of the German Democratic Republic The book concludes with the great granddaughter Maria looking back to the past in relation to the new Germany that history had bequeathed her Ultimately *Four Germanys* reflects the impact of critical historical events on ordinary East Germans while it also reveals how one particular family managed its own historical adaptation to these events Revolutionary Passage Marc Garcelon, 2005-06-09 *Revolutionary Passage* is a cultural social and political history of Russia during its critical period of transformation at the end of the twentieth century Marc Garcelon traces the history of perestroika and the rise of Vladimir Putin arguing that the pressure Mikhail Gorbachev's reforms put on the Soviet system gave birth to movements for democratic change He also shows that the very political arrangements that prompted the fall of Communism also killed hopes for subsequent reform At the turning point of this political revolution stood Democratic Russia or DemRossiia the principal organization of the Russian democratic movement that helped to dismantle the Soviet system and force the Soviet leadership to change course However as post Soviet Russia committed itself to globalization and U S style economic reforms the country directed itself away from the Democratic reforms called for by organizations like DemRossiia and such groups collapsed *Revolutionary Passage* provides a close examination of the

DemRossiia Garcelon deftly illuminates the rise and decline of this organization and how the processes of revolutionary change impacted both Russia and the world

The Holocaust and Memory in the Global Age Daniel Levy,Natan Sznaider,2006 Daniel Levy and Natan Sznaider examine the forms that collective memory take in the age of globalisation They explore how the Holocaust has been remembered in Germany Israel and the US over the past 50 years and demonstrate how this event has become detached from its precise context

From Black Power to Hip Hop Patricia Hill Collins,2006-01-19 A provocative analysis of the new contours of black nationalism and feminism in America

Conflicts in the Knowledge Society Sebastian Haunss,2013-04-11 In Conflicts in the Knowledge Society Sebastian Haunss demonstrates how conflicts relating to the international system of intellectual property have resulted in new cleavages in the knowledge society Furthermore he argues that new collective actors have emerged from these conflicts with the ability to contest the existing dominant order With a focus on political opportunity structures collective action networks and framing strategies he combines a theoretical discussion of social change in the knowledge society with empirical analyses of four recent developments software patents in Europe access to medicines Creative Commons licensing and Pirate Parties

Seeking Mandela Heribert Adam,Kogila Moodley,2005 The ongoing violence despair and paralysis among Israelis and Palestinians resemble the gloomy period in South Africa during the late 1980s

The Philosophical Review Jacob Gould Schurman,James Edwin Creighton, Frank Thilly,Gustavus Watts Cunningham,2004

Unchopping a Tree Ernesto Verdeja, Political violence does not end with the last death A common feature of mass murder has been the attempt at destroying any memory of victims with the aim of eliminating them from history Perpetrators seek not only to eliminate a perceived threat but also to eradicate any possibility of alternate competing social and national histories In his timely and important book *Unchopping a Tree* Ernesto Verdeja develops a critical justification for why transitional justice works He asks What is the balance between punishment and forgiveness And What are the stakes in reconciling Employing a normative theory of reconciliation that differs from prevailing approaches Verdeja outlines a concept that emphasizes the importance of shared notions of moral respect and tolerance among adversaries in transitional societies Drawing heavily from cases such as reconciliation efforts in Latin America and Africa and interviews with people involved in such efforts Verdeja debates how best to envision reconciliation while remaining realistic about the very significant practical obstacles such efforts face *Unchopping a Tree* addresses the core concept of respect across four different social levels political institutional civil society and interpersonal to explain the promise and challenges to securing reconciliation and broader social regeneration

Nearest East Hans-Lukas Kieser,2012-06-15 Long before oil interests shaped American interaction with the Middle East the U S had a strong influence on the late Ottoman and post Ottoman region Covering the period from approximately 1800 to the 1970s Hans Lukas Kieser s compelling *Nearest East* tells the story of this intimate identity building relationship between the U S and the Near East Kieser chronicles how American missionaries worked to implement their belief in Biblical

millennialism enlightened modernity and a modern Zion Israel Millennialism was part of an American identity that constituted itself religiously in the interaction with and the representation of the cradle of Zion As such going Near East was at least to American evangelical Protestants in some ways more important than colonizing the American West However many Ottoman Muslims felt threatened by the American missionaries perceiving their successful institutions as an estranging challenge from the outside Measuring the long twisted road from the missionary Zion builders of the early 19th century to the privileged US Israeli partnership in the late 20th century Nearest East looks carefully on both sides of the relationship Kieser uses a wide range of Ottoman Turkish French German and other sources unfamiliar to most Anglophone readers to tell this story that will appeal to historians of all stripes **American Book Publishing Record** ,2003 Multilevel Governance of Global Environmental Change Gerd Winter,2006-03-30 Originally published in 2006 this collection is the outcome of an interdisciplinary research project involving scholars in the fields of international and comparative environmental law the sociology and politics of global governance and the scientific study of global climate change Earth system analysis as developed by the natural sciences is transferred to the analysis of institutions of global environmental change Rather than one overarching supranational organisation a system of multilevel institutions is advocated The book examines the proper role of industrial self regulation of horizontal transfer of national policies of regional integration and of improved coordination between international environmental organisations as well as basic principles for sustainable use of resources Addressing both academics and politicians this book will stimulate the debate about the means of improving global governance **Rethinking the Knowledge Controversy in Organization Studies** Walter R. Nord,Ann F. Connell,2012-03-29 Recently the field of organization studies has been plagued by intense disruptive controversy about what counts as knowledge This book written by the major researchers and voices in the field of organization studies attempts to respond to this controversy by offering the topic of generative uncertainty as the primary vehicle for rethinking about this issue The authors prefer admitting uncertainty to making unwarranted assumptions The ideas about questioning the possibility of knowledge that is certain goes back to before the time of Socrates This unique historical look at the study of organization studies will be of interest to all students and scholars of this field
