Relationships Sarah Lewis,2016-04-20 The relationship between offender and criminal justice practitioner has shifted throughout rehabilitative history whether situated within psychological interventions prison or probation This relationship has evolved and adapted over time but interpersonal processes remain central to offender work However little work has critically focused upon the challenging task of developing and sustaining positive relationships with offenders This book addresses this gap providing an in depth exploration of the processes which underpin correctional relationships within probation Through an innovative methodology it examines how practitioners can enhance their practice by understanding how relationships form deepen and end effectively For the first time it draws on the experiences of offenders and practitioners to uncover the darker side to relationships identifying how they can rupture and break down From this exploration it presents alternative ways in which relationships can be repaired and safeguarded within correctional practice

In essence this book assists practitioners in becoming successful supporters of change In an increasingly competitive and politicised climate this book outlines how political and organisational tensions can impact upon the flow of relationships across the criminal justice system Uniquely this book examines how these tensions can be overcome to produce transformative changes Lewis suggests that therapeutic correctional relationships can thrive within a number of correctional settings and presents the core principles of relational practice and dynamic model of therapeutic correctional relationships to assist in achieving quality and sustainable practice This book will appeal to criminological and psychological scholars as well as students studying probation and prison practice offender rehabilitation and desistance

Principles of Counseling and Psychotherapy Paul R. Peluso, 2022-09-23 Principles of Counseling and Psychotherapy 3rd edition helps students in introductory counseling courses prepare for practice with real clients by learning to think in a new way rather than simply learning and using a set of steps Chapters are infused with real world clinical case examples and opportunities for readers to apply the material to the cases being presented New sections focused on the use of mental models theory of mind and concrete strategies for intervention are specifically designed to engage the reader's natural non linear thinking and transcript material both from cases and from master therapists themselves are interwoven throughout the text

Psychiatric Interviewing and Assessment Rob Poole, Robert Higgs, 2017-08-07 Interviewing and assessment are integral to the practice of psychiatry and this book helps psychiatrists and other mental health professionals develop the skills needed to gain the right information to make diagnostic formulations and build therapeutic relationships with their patients The text examines common dilemmas and problems in an engaging and accessible way and the use of case studies relates the principles discussed to identifiable psychiatric settings This new edition has been revised and expanded to reflect changes in clinical practice in recent years New chapters have been added covering the assessment of neurodevelopmental disorders fragmented interviews and impossible clinical situations such as the assessment of intoxicated patients and rhetorical interviews Essential reading for all mental health professionals the practical grounding in real world clinical experience will benefit trainee psychiatrists experienced clinicians nurses social workers and physician associates

Principles of Counseling and Psychotherapy Gerald J. Mozdzierz, Paul R. Peluso, Joseph Lisiecki, 2009-03-24 This text presents a novel approach to teaching and learning the fundamental skills and techniques of counseling and psychotherapy based on a non linear process of thinking that more accurately reflects the reality of mental health practice At the core of this text lies the idea that to best prepare students for practice with real clients they have to learn how to think in a new way the way that research has shown the most effective practitioners think The result is a paradigm shift in how to teach and learn basic counseling skills which separates this text from the competition and brings training up to speed with current practice
