Drawing the Past, Volume 2 Dorian L. Alexander, Michael Goodrum, Philip Smith, 2022-01-04 Contributions by Dorian L. Alexander Chris Bishop David Budgen Lewis Call Lillian C. Spedes Gonzalez Dominic Davies Sean Eedy Adam Fotos Michael Goodrum Simon Gough David Hitchcock Robert Hutton Iain A. MacInnes Ma gorzata Olsza Philip Smith Edward Still and Jing Zhang In Drawing the Past Volume 2 Comics and the Historical Imagination in the World contributors seek to examine the many ways in which history worldwide has been explored and re-represented through comics and how history is a complex construction of imagination reality and manipulation Through a close analysis of such works as V for Vendetta Maus and Persepolis this volume contends that comics

are a form of mediation between sources both primary and secondary and the reader Historical comics are not drawn from memory but offer a nonliteral interpretation of an object re constructed in the creator s mind Indeed when it comes to history stretching the limits of the imagination only serves to aid in our understanding of the past and through that understanding shape ourselves and our futures This volume the second in a two volume series is divided into three sections History and Form Historical Trauma and Mythic Histories The first section considers the relationship between history and the comic book form The second section engages academic scholarship on comics that has recurring interest in the representation of war and trauma The final section looks at mythic histories that consciously play with events that did not occur but nonetheless inflect our understanding of history Contributors to the volume also explore questions of diversity and relationality addressing differences between nations and the cultural historical and economic threads that bind them together however loosely and however much those bonds might chafe Together both volumes bring together a range of different approaches to diverse material and feature remarkable scholars from all over the world

Anti-Foreign Imagery in American Pulps and Comic Books, 1920-1960 Nathan Vernon Madison,2013-01-17 In this thorough history the author demonstrates via the popular literature primarily pulp magazines and comic books of the 1920s to about 1960 that the stories therein drew their definitions of heroism and villainy from an overarching nativist fear of outsiders that had existed before World War I but intensified afterwards These depictions were transferred to America s new enemies both following U S entry into the Second World War and during the early stages of the Cold War Anti foreign narratives showed a growing emphasis on ideological as opposed to racial or ethnic differences and early signs of the coming multiculturalism indicating that pure racism was not the sole reason for nativist rhetoric in popular literature The process of change in America s nativist sentiments so virulent after the First World War are revealed by the popular inexpensive escapism of the time pulp magazines and comic books
