Why Do We Fight Conflict War And Peace:

Why Do We Fight?: Conflict, War and Peace Niki Walker, 2014-06-30 It's a big world out there but what's going on around the world can feel closer to us and more accessible than ever. Information about wars and conflicts on the other side of the world can be in our homes and on our tablets and smartphones instantly. Whether or not your country is directly involved in a conflict or war, nearly every disagreement, every standoff, every war affects our lives in some way. With so many conflicts happening around the world, it makes you wonder: Why Do We Fight? Why Do We Fight is an important topical book that helps readers aged 12 and up to understand that while conflict may be inevitable, war isn't. The reader is shown how small disagreements can escalate to become bigger and more serious ones by exposing the common elements of conflict such as prejudice, history, geography, and economics. The reader is encouraged to compare world conflicts with the ones in their own lives to better understand why we fight and most importantly, what we can do to avoid it. *Conflict, War, and Peace* Sara McLaughlin Mitchell, John A. Vasquez, 2013-08-13 Introducing students to the scientific study of peace and war, this exciting new reader provides an overview of important and current scholarship in this dynamic area of study. Focusing on the factors that shape relationships between countries and that make war or peace more likely, this collection of articles by top scholars explores such key topics as dangerous dyads, alliances, territorial disputes, rivalry, arms races, democratic peace, trade, international organizations, territorial peace, and nuclear weapons. Each article is followed by the editor's commentary. A Major Contributions section highlights the article's theoretical advances and relates each study to the broader literature, while a Methodological Notes section carefully walks students through the techniques used in the analysis. Methodological topics include research design, percentages, probabilities, odds ratios, statistical significance, levels of analysis, selection bias, logit, duration models, and game theory models. *Reading the World's Stories* Annette Y. Goldsmith, Theo Heras, Susan Corapi, 2016-08-11 *Reading the World's Stories* is volume 5 in the *Bridges to Understanding* series of annotated international youth literature bibliographies sponsored by the United States Board on Books for Young People (USBBY). USBBY is the United States chapter of the International Board on Books for Young People (IBBY), a Switzerland-based nonprofit whose mission is to bring books and children together. The series promotes sharing international children's books as a way to facilitate intercultural understanding and meet new literary voices. This volume follows *Children's Books from Other Countries* (1998), *The World through Children's Books* (2002), *Crossing Boundaries with Children's Books* (2006), and *Bridges to Understanding: Envisioning the World through Children's Books* (2011) and acts as a companion book to the earlier titles. Centered around the theme of the importance of stories, the guide is a resource for discovering more recent global books that fit many reading tastes and educational needs for readers aged 0-18 years. Essays by storyteller Anne Pellowski, author Beverley Naidoo, and academic Marianne Martens offer a variety of perspectives on international youth literature. This latest installment in the series covers books published from 2010-2014 and includes English language imports as well as translations of children's and young adult

literature first published outside of the United States These books are supplemented by a smaller number of culturally appropriate books from the US to help fill in gaps from underrepresented countries The organization of the guide is geographic by region and country All of the more than 800 entries are recommended and many of the books have won awards or achieved other recognition in their home countries Forty children's book experts wrote the annotations The entries are indexed by author translator illustrator title and subject Back matter also includes international book awards important organizations and research collections and a selected directory of publishers known for publishing books from other countries
