Security in the Bubble Christine Hentschel, 2015-08-08 Focusing on the South African city of Durban Security in the Bubble looks at spatialized security practices engaging with strategies and dilemmas of urban security governance in cities around the world While apartheid was spatial governance at its most brutal postapartheid South African cities have tried to reinvent space using it as a positive technique of governance Christine Hentschel traces the contours of two emerging urban regimes of governing security in contemporary Durban handsome space and instant space Handsome space is about aesthetic and affective communication as means to making places safe Instant space on the other hand addresses the crime related personal navigation systems employed by urban residents whenever they circulate through the city While handsome space embraces the powers of attraction instant space operates through the powers of fleeing In both regimes security is conceived not as a public good but as a situational experience that can no longer be reduced to the after pains of racial apartheid this city's fragmentation is now better conceptualized according to Hentschel as a heterogeneous ensemble of bubbles of imagined safety *Auto e fisco* Albino Leonardi, Simone Dimitri, Clara Pollet, 2013 *Bibliographic Guide to Technology* New York Public Library. Research Libraries, 1978 **Russia Automobile Industry Directory - Strategic Information and Contacts** IBP, Inc., 2009-03-30 Russia Automobile Industry Directory **High Noon in the Automotive Industry** Helmut Becker, 2006-02-10 This book was born from curiosity To begin with it was the curiosity of an economist who studied in the 60s in an environment which has subsequently developed from national into global economics Who has to recognize that politicians scholars and large segments of society oblivious to supranational authorities and economic globalization forces continue to labour under the notion that they are still fully autonomous and sovereign when shaping national economic policy And pretend as though their own national state were still the master in its own house that despite unbridled market economics could continue to dictate to the economy and companies how to live and in which rooms All that has become fiction The laws of globalization diminish the manoeuvring space for shaping national economic policy Even if many folks today don't want to hear it The issue is no longer achieving what is socially politically desirable for the own society but rather the optimal adaptation of society and social benefits to the politically practicable American Book Publishing Record, 1997 Autocar, 2005 **Torque**, 2006-04 Singapore's best homegrown car magazine with an editorial dream team driving it We fuel the need for speed **Finweek**, 2006 **The British National Bibliography** Arthur James Wells, 1968 Advances in Affective and Pleasurable Design Yong Gu Ji, 2012-07-17 This volume discusses pleasurable design a part of the traditional usability design and evaluation methodologies The book emphasizes the importance of designing products and services to maximize user satisfaction By combining this with traditional usability methods it increases the appeal of products and use of services Nafta, 2004 *Toyota and the World*, 2008 *Advances in Human Factors and Ergonomics 2012-14 Volume Set* Gavriel Salvendy, Waldemar Karwowski, 2012-08-06 With contributions from an

Re-Modeling the Brand Purchase Funnel Alexander Dierks, 2017-04-05. Alexander Dierks conceptualizes and applies a more nuanced model of the brand purchase funnel. The reconceptualization builds on a holistic theory-based and practically applicable set of 10 propositions which capture dynamics of consumers' contemporary search and decision behavior and allow for a more differentiated assessment of brand performance across the buying cycle. The model's value add is investigated based on two survey-based studies from the automotive and the electricity industry. Using logistic regression analysis, the author uncovers insightful differences in the determinants of consumers' purchase decisions depending on the stage of consideration set formation. The findings support the employment of the more nuanced funnel in brand management.

Femina, 2007. Kontextabhängige Konzeptualisierung der Markenpersönlichkeit Markus Hattula, 2009-02-01. Marcus Hattula konkretisiert den Begriff der Markenpersönlichkeit. Er stellt den Wesenszugsbegriff als Analyseeinheit vor, erarbeitet Varianten der Markenpersönlichkeit und entwickelt eine umfassende Begriffsliste zur Operationalisierung. Aufbauend auf dem Ansatz des Kontextualismus leitet er Hypothesen zum Einfluss der betrachteten Marken und der urteilenden Konsumenten auf die Struktur der Markenpersönlichkeit ab und überprüft diese empirisch für den deutschen Automobilmarkt.

Buda's Wagon Mike Davis, 2017-01-17. On a September day in 1920, an angry Italian anarchist named Mario Buda exploded a horse-drawn wagon filled with dynamite and iron scrap near New York's Wall Street, killing 40 people. Since Buda's prototype, the car bomb has evolved into a poor man's air force, a generic weapon of mass destruction that now craters cities from Bombay to Oklahoma City. In this provocative history, Mike Davis traces the worldwide use and development in the process, exposing the role of state intelligence agencies, particularly those of the United States, Israel, India, and Pakistan, in globalizing urban terrorist techniques. Davis argues that it is the incessant impact of car bombs, rather than the more apocalyptic threats of nuclear or bio-terrorism, that is changing cities and urban lifestyles as privileged centers of power increasingly surround themselves with rings of steel against a weapon that nevertheless seems impossible to defeat.
