Catholic Encyclopedia: New Mexico-Philip ,1911 **The Mediterranean and the Mediterranean World in the Age of Philip II** Fernand Braudel,2023-07-25 The focus of Fernand Braudel s great work is the Mediterranean world in the second half of the sixteenth century but Braudel ranges back in history to the world of Odysseus and forward to our time moving out from the Mediterranean area to the New World and other destinations of Mediterranean traders Braudel s scope embraces the natural world and material life economics demography politics and diplomacy Mind the Gap: Borders,

Limits and Frontiers Cahir Healy,2025-05-19 How do borders define political cultural and social realms influencing identity and community Mind the Gap Borders Limits and Frontiers explores such questions and comprises two parts the first section compiles interdisciplinary essays from leading scholars to critique borders in our global yet divided world Topics include national borders such as the Northern Irish border as well as conceptual and ontological borders more generally Border issues are similarly key to the second part of the book which publishes for the first time the imprisonment memoir of Irish politician Cahir Healy 1877 1970 who was a leading figure in the protest against the Partition of Ireland His memoir offers a first hand account of the conditions faced by Healy and other border objectors who were illegally imprisoned for two years on board the Argenta ship in Belfast Lough c 1922 1924 This book therefore goes beyond mapping border theory it addresses the real life impact of borders on those who confront them daily and is a vital read for those interested in border studies

Encyclopedia of Television Film Directors Jerry Roberts,2009-06-05 From live productions of the 1950s like Requiem for a Heavyweight to big budget mini series like Band of Brothers long form television programs have been helmed by some of the most creative and accomplished names in directing Encyclopedia of Television Film Directors brings attention to the directors of these productions citing every director of stand alone long form television programs made for TV movies movie length pilots mini series and feature length anthology programs as well as drama comedy and musical specials of more than 60 minutes Each of the nearly 2 000 entries provides a brief career sketch of the director his or her notable works awards and a filmography Many entries also provide brief discussions of key shows movies and other productions Appendixes include Emmy Awards DGA Awards and other accolades as well as a list of anthology programs A much needed reference that celebrates these often neglected artists Encyclopedia of Television Film Directors is an indispensable resource for anyone interested in the history of the medium **Bowed Some, Chanted a Little** Philip Whalen,2023-09-22 Philip Whalen 1923 2002 is a key figure in both the Beat and San Francisco Renaissance movements of the New American Poetry Whalen authored twenty collections of verse more than twenty broadsides two novels a huge assemblage of autobiographical literary

journals nine or ten experimental prose works and dozens of critical essays lectures commentaries introductions prefaces and interviews But he came to regard his literary journals as his most important prose legacy A professed Buddhist for most of his adult life Whalen was ordained a Zen Buddhist monk in 1972 in what is arguably still the most influential Zen Buddhist training temple complex in North America In some ways Whalen begs a comparison with Thomas Merton the twentieth century's most significant Christian monk poet But where Merton contained himself within the conservative guidelines of Trappist Christian orthodoxy Whalen was a closeted homosexual or bisexual who inscribed an insider's account of his monastic community with an acid tongue and a keen sense of humor His pen spared no one in the religious hierarchy he trained under Whalen's literary work represents a significant turn in American letters as he and his closest colleagues immersed themselves in East Asian literature and religion reinvigorating strikingly new linguistic and aesthetic paths for North American writers and artists However until now Whalen's forty plus years of journals sixty small eight by six inch notebooks have been largely inaccessible archived in the rare book and manuscript library at the University of California Berkeley undigitized and unavailable online Thus the publication of a critical scholarly edition of Whalen's journals and notebooks constitutes an important literary event and an invaluable resource for scholars teachers poets and lay readers who follow twentieth century North American poetry In his complex and idiosyncratic poetics Whalen adopts a unique mind and language centered approach to the creation of a poem Some of his finest works are live action scenes where he fuses moments of bald mental perception with the linguistic intricacies of his inner consciousness i.e. the words phrases and observations that his mind forms or that other people spill into his mind in the same block of time The significance of Whalen's journals is manifold Brian Unger argues and goes beyond their mere availability Unger argues that of all the San Francisco Renaissance and Beat poets of the postwar period Whalen's roots in modernism are among the strongest He was a voracious reader as his journals show and a keen student of earlier literatures Furthermore the journals conclusively overturn many misleading arguments about Whalen's personal life as related in the 2015 Whalen biography *Crowded by Beauty* by David Schneider The publication of the journals would provide for the first time and in Whalen's own words an objective and self substantiated account of his life with biographical information that has never before been generally available The Whalen journals make clear as never before the primary psychological forces driving his personal life his interior life as a poet and a religious monk and they shed important light on the intriguing complexity of his philosophical and phenomenological poetics

Hermeneutics of Education Andrzej Wiercinski, 2020-03-10 A hermeneutics of education pays special attention not to educational structures but the central role of conversation in the educational process The key issue is the formation of the person as a unique reality of being and acting while supporting intersubjective understanding The polyphony of understanding places the human search for meaning within the horizon of incompleteness and allows for both

spontaneity and rigor in order to reach an understanding of what is happening to us and in us when we understand
Reflection on education is always inseparable from educational practice Culture in the American Southwest Keith L.
Bryant, 2014-09-01 If the Southwest is known for its distinctive regional culture it is not only the indigenous influences that
make it so As Anglo Americans moved into the territories of the greater Southwest they brought with them a desire to
reestablish the highest culture of their former homes opera painting sculpture architecture and literature But their inherited
culture was altered challenged and reshaped by Native American and Hispanic peoples and a new vibrant cultural life
resulted From Houston to Los Angeles from Tulsa to Tucson Keith L Bryant traces the development of high culture in the
Southwest Humans create culture but in the Southwest Bryant argues the land itself has also influenced that creation
Incredible light natural grandeur and a geography at once beautiful and yet brutal molded societies that sprang from unique
cultural sources The peoples of the American Southwest share a regional consciousness an experience of place that has
helped to create a unified but not homogenized Southwestern culture Bryant also examines a paradox of Southwestern
cultural life Southwesterners take pride in their cultural distinctiveness yet they struggled to win recognition for their
achievements in high culture A dynamic tension between those seeking to re create a Western European culture and those
desiring one based on regional themes and resources continues to stimulate creativity Decade by decade and city by city
Bryant charts the growth of cultural institutions and patronage as he describes the contributions of artists and performers
and of the elites who support them Bryant focuses on the significant role women played as leaders in the formation of
cultural institutions and as writers artists and musicians The text is enhanced by more than fifty photographs depicting the
interplay between the people and the land and the culture that has resulted **General Catalogue of Printed Books**
