struggling to develop concrete instructional practices that meet the learning needs of the lowest achieving readers

Alternatives to Privatizing Public Education and Curriculum Daniel Ness, Stephen J. Farenga, 2017-03-16 Through conversations in honor of Dale D Johnson this book takes a critical view of the monoculture in curriculum and policy that has developed in education with the increase of federal funding and privatization of services for public education and examines the shift from public interest and control to private and corporate shareholder hegemony Most states educational responsibilities assessment of constituents curriculum development and instructional protocols are increasingly being outsourced to private enterprises in an effort to reduce state budgets These enterprises have been given wide access to state resources such as public data from state sanctioned testing results field testing rights to public schools and financial assistance Chapter authors challenge this paradigm as well as the model that has set growing premiums on accountability and performance measures Connecting common impact between the standards movement and the privatization of education this book lays bare the repercussions of high stakes accountability coupled with increasing privatization Winner of The Society of Professors of Education Book Award 2018

The Routledge International Handbook of English, Language and Literacy Teaching Dominic Wyse, Richard Andrews, James Hoffman, 2010-02-25 Edited by three authorities in the field this Handbook presents contributions from experts across the world who report the cutting edge of international research It is ground breaking in its holistic evidence informed account that aims to synthesize key messages for policy and practice in English language and literacy teaching A comprehensive collection the Handbook focuses on the three key areas of reading writing and language and issues that cut across them The international emphasis of all the chapters is extended by a final section that looks directly at different countries and continents The authors address many key issues including why pupil motivation is so important the evidence for what works in teaching and learning the place of Information Technology in the twenty first century the status of English and other languages globalisation and political control of education This definitive guide concludes by discussing the need for better policy cycles that genuinely build on research evidence and teachers working knowledge in order to engage young people and transform their life chances A powerful account that will be of interest to students researchers and academics involved with education
