Whitewashing Britain Race And Citizenship In The Postwar Era:

Whitewashing Britain Kathleen Paul, 2018-09-05 Kathleen Paul challenges the usual explanation for the racism of post war British policy According to standard historiography British public opinion forced the Conservative government to introduce legislation stemming the flow of dark skinned immigrants and thereby altering an expansive nationality policy that had previously allowed all British subjects free entry into the United Kingdom Paul s extensive archival research shows however that the racism of ministers and senior functionaries led rather than followed public opinion In the late 1940s the Labour government faced a birthrate perceived to be in decline massive economic dislocations caused by the war a huge national debt severe labor shortages and the prospective loss of international preeminence Simultaneously it subsidized the emigration of Britons to Australia Canada and other parts of the Empire recruited Irish citizens and European refugees to work in Britain and used regulatory changes to dissuade British subjects of color from coming to the United Kingdom Paul contends post war concepts of citizenship were based on a contradiction between the formal definition of who had the right to enter Britain and the informal notion of who was or could become really British Whitewashing Britain extends this analysis to contemporary issues such as the fierce engagement in the Falklands War and the curtailment of citizenship options for residents of Hong Kong Paul finds the politics of citizenship in contemporary Britain still haunted by a mixture of imperial economic and demographic imperatives Deprivation, State Interventions and Urban Communities in Britain, 1968-79

Deprivation, State Interventions and Urban Communities in Britain, 1968-79 Peter Shapely, 2017-08-16 Focusing on a series of policy initiatives from the late 1960s through to the end of the 1970s this book looks at how successive governments tried to address growing concerns about urban deprivation across Britain It provides unique insights into policy and governance and into the socio economic and cultural causes and consequences of poverty Starting with the impact of redevelopment policies immigration and the rise of the inner city this book examines the pressures and challenges that explain the development of policy by successive Labour and Conservative governments It looks at the effectiveness and limits of different community development approaches and at the inadequacies of policy in tackling urban deprivation In doing so the book highlights the restricted impact of pilot projects and reform of public services in resolving deprivation as well as the broader limits of social planning and state welfare Crucially it also plots the shift in policy from an emphasis on achieving statutory service efficiencies and rolling out social development programmes towards an ever greater stress on regeneration and support for private capital as the solution to transforming the inner city **Imperial**

Citizenship Daniel Gorman, 2006 This is the first book length study of the ideological foundations of British imperialism in the early twentieth century By focusing on the concept of imperial citizenship the book illustrates how the political cultural and intellectual underpinnings of Empire were constructed and challenged by forces in both Britain and the Britons overseas in the settlement colonies of Canada South Africa New Zealand and Australia Debates about imperial citizenship reveal how Britons conceived the Empire was it an extension of the nation state a collection of separate and distinct communities or a

type of world state These debates also discussed the place of Empire in British society its importance to the national identity and the degree to which imperial subjects were or were not seen as fellow Britons This public discourse was at its most fervent from the South African War 1899 1902 to the early 1920s when Britain emerged victorious shocked and exhausted from the Great War Book jacket **British Decolonisation and the Female Middlebrow Novel** Anne

Wetherilt,2025-09-01 British Decolonisation and the Female Middlebrow Novel offers the first detailed discussion of middlebrow fiction by women writers who personally witnessed the dismantling of the British Empire the intensification of the Cold War and the domestic tensions following the arrival of thousands of migrants from Britain s former colonies Studying selected novels by Cecilie Leslie Elspeth Huxley Mary McMinnies Han Suyin and Kamala Markandaya this study demonstrates that women s middlebrow writing reveals a much deeper engagement with the politics and economics of decolonisation than is usually ascribed to the genre As Anne Wetherilt argues by transcending the politics of domesticity the female middlebrow registers a critique of both Britain s colonial history and mainstream conceptions of decolonisation as a well managed transition from empire to commonwealth As such the middlebrow novel of the immediate post war decades takes us back to a place where the end of empire was imagined rather than denied and the ambiguities of British colonial politics exposed rather than repressed **Global Labor Migration** Eileen Boris,Heidi Gottfried,Julie Greene,Joo-Cheong

Tham,2022-12-27 Around the world hundreds of millions of labor migrants endure exploitation lack of basic rights and institutionalized discrimination and marginalization What dynamics and drivers have created a world in which such a huge and rapidly growing group toils as marginalized men and women existing as a lower caste institutionally and juridically In what ways did labor migrants shape their living and working conditions in the past and what opportunities exist for them today Global Labor Migration presents new multidisciplinary transregional perspectives on issues surrounding global labor migration The essays go beyond disciplinary boundaries with sociologists ethnographers legal scholars and historians contributing research that extends comparison among and within world regions Looking at migrant workers from the late nineteenth century to the present day the contributors illustrate the need for broader perspectives that study labor migration over longer timeframes and from wider geographic areas The result is a unique much needed collection that delves into one of the world s most pressing issues generates scholarly dialogue and proposes cutting edge research agendas and methods Contributors Bridget Anderson Rutvica Andrijasevic Katie Bales Jenny Chan Penelope Ciancanelli Felipe Barradas Correia Castro Bastos Eileen Boris Charlie Fanning Judy Fudge Jorge L Giovannetti Torres Heidi Gottfried Julie Greene Justin Jackson Radhika Natarajan Pun Ngai Bastiaan Nugteren Nicola Piper Jessica R Pliley Devi Sacchetto Helen Sampson Yael Schacher Joo Cheong Tham and Matt Withers *The Schematic State* Debra Thompson,2016-10-20 Invitation Orientation

Trafford,2020-12-20 Modern Britain is forged through the redeployment of structures that facilitated and legitimized slavery exploitation and extermination This is the empire at home and it is inseparable from the strategies of neo colonial extraction and oppression of subjects abroad Here James Trafford develops the notion of internal colonies arguing that methods and structures used in colonial rule are re deployed internally in contemporary Britain in order to recreate and solidify imperial power relations Using examples including housing segregation targeted surveillance and counter insurgency techniques used in the fight against terrorism Trafford reveals Britain s internal colonialism to be a reactive mechanism to retain British sovereignty As politics appears limited by nationalism and protectionism The Empire at Home issues a powerful challenge to contemporary politics demanding that Britain as an imperial structure must end **Epidemics and the Law from Plague**

to the Present Emily Gordon,Charles Mitchell,Ian Williams,2025-09-18 This collection of essays presents a socio legal history of epidemics from the medieval period to the present day Building on previous studies of infectious diseases undertaken by social historians of medicine this collection explores the histories of epidemics and disease by looking at the legal measures deployed against them Whilst previous works have considered the mechanisms by which legal change occurs the social and political assumptions on which new laws and new legal structures are premised and the social changes which follow this book focuses on the way in which historical actors understood law to be a complex means of responding to disease and the way in which that law shaped and limited the responses which could be made to disease Taking an interdisciplinary approach it features contributions from scholars across a range of academic disciplines who consider the wider implications of epidemics and disease beyond the obvious health effects The collection focuses first on regulatory responses such as the quarantine laws and border policies in the eighteenth century the framing of disease in the Colonial Immigration Acts in the nineteenth century and the ethics of public health in the twentieth century in Great Britain It then goes on to consider developments in broader legal doctrine which themselves resulted from social and or legal responses to disease including the centralisation of labour regulation in the wake of the black death property disputes about leper houses pest houses and fever hospitals and the prosecution of medical professionals for disease transmission in 19th century England Methodologically all the chapters are historical but a range of approaches has been taken from quite traditional doctrinal legal history through socio legal history to traditional political and social history to bring the history of epidemics and the legal measures deployed against them in to sharp focus Multiculturalism in the British Commonwealth Richard T. Ashcroft,Mark Bevir,2019-07-12

A free open access ebook is available upon publication Learn more at www.luminosoa.org Multiculturalism as a distinct form of liberal democratic governance gained widespread acceptance after World War II but in recent years this consensus has been fractured Multiculturalism in the British Commonwealth examines cultural diversity across the postwar Commonwealth situating modern multiculturalism in its national international and historical contexts Bringing together practitioners from across the humanities and social sciences to explore the legal political and philosophical issues involved these essays address

common questions What is postwar multiculturalism Why did it come about How have social actors responded to it In addition to chapters on Australia Britain Canada and New Zealand this volume also covers India Malaysia Nigeria Singapore and Trinidad tracing the historical roots of contemporary dilemmas back to the intertwined legacies of imperialism and liberalism In so doing it demonstrates that multiculturalism has implications that stretch far beyond its current formulations in public and academic discourse

Race, Gender and Violence on the Transatlantic Extreme Right, 1969-2009

Simon A. Purdue, 2022-10-20 This book explores the central role that gender has historically played in violent far right movements and groups in a time of increasing political polarisation and rising extremism The author examines the way neo Nazis and white supremacists have constructed gender and how this has impacted on the practical role of men and women on the global extreme right between 1969 and 2009 giving valuable insight into the inner workings of the extremist fringe today In the context of rising violent ultra nationalism in the UK Eastern Europe the USA India and Russia this transnational history of racist extremist movements offers a very necessary glimpse into the intimate personal politics of organised hate and into the ideological and organisational roots of our current moment In order to fully understand the extreme right it is essential to develop an awareness of the deep social foundations that underlie it By exposing the gendered basis of racist extremism in the USA and UK this book makes a necessary intervention in the field of far right studies shedding new light on the shadowy corners of the political spectrum and ultimately opening new avenues for countering hate on the personal political and academic level The book seeks to explain the intricate relationship between organised racist extremism and ideological misogyny and explores the fundamental contradictions and inconsistencies that underlie women's far right activism Offering historical context to the current social and political moment in which white supremacist and far right terror presents an immediate threat to security and stability in both the USA and the UK this book provides useful insights for those researching the history of fascism and the far right violent social movements and political activism as well as women's history and gender studies
