Trauma and Resilience in Contemporary Australian Policing Andrew Paterson, 2021-08-18 This book examines how fifty police officers in South Australia keep well and bounce back from duty related traumatic experience in the absence of practical accessible and timely organisational support It investigates mechanisms police officers presently use to normalise their duty related traumatic experiences to preserve the delicate professional balance between coping and psychic numbing and avoid the much publicised perils of a PTSD diagnosis while being appropriately responsive to colleagues victims and survivors in their daily work environment By revealing how police officers manage trauma outside of the expectations of mental health professionals union representatives and police leadership innovative approaches and recommendations are offered to support first responders in moving from assumptions of post traumatic stress and through post traumatic growth The book considers recent advances in post traumatic growth and resilience theory and reinterprets exposure in a positive context as well as preventative experiences in Australia and internationally Traumatic Stress in Police Officers Douglas Paton, 2009 The objective of this book is to demonstrate how adopting a career perspective can provide a more comprehensive conceptualization of traumatic stress processes as they apply to police officers and agencies and provide a framework that can be used to guide research and intervention agenda in ways that reflect the changes that can occur over

the course of a police career that can span decades The book examines the nature and effectiveness of the police role in dealing with adverse events as they unfold within a career perspective It begins with pre employment experiences and their implications for operational well being and concludes with a discussion of the implications of a police career for disengagement or retirement from this role It draws upon empirical research to provide an evidence based approach to traumatic stress risk management and well being in contemporary policing Based on state of the art research the book provides a framework that police agencies can use to develop their officers and their organizations in ways that enhance their capability to confront an increasingly uncertain future in ways that maximize the interests of front line policing Areas of discussion include incorporation of police trauma into a life career course perspective changing context and nature of police work recruitment selection and socialization in the context of critical incident and terrorist work changing gender balance training in uncertain times managing risk and vulnerability organizational context family dynamics inter and intraorganizational teams health and mental health consequences of long term exposure to hazards and disengagement and retirement The text will be of significant interest to police organizations and agencies whose officers face a high risk of experiencing disaster and traumatic stress law enforcement managerial and supervisory personnel human resource and health and safety professionals and mental health professionals and consultants The text will also be relevant to those researching traumatic stress disaster stress and emergency management as well as other protective services

THE CONSEQUENCES OF DISASTERS Helen James, Douglas Paton, 2015-12-22 The Consequences of Disasters Demographic Planning and Policy Implications presents innovative multi disciplinary perspectives on how people and societies respond to and recover from sudden unexpected crisis events like natural disasters which impact tragically on the established patterns and structures of their lives Through detailed empirical analysis which employs both qualitative and quantitative research methodologies the twenty two chapters in this fine volume explore these critical issues Chapters have a wide global range across both democratic and transforming governance systems which spotlight the many different ways in which different political jurisdictions respond to the demographic planning and policy implications of the natural disasters affecting their citizens The authors collectively provide insights into varying socio cultural and political disaster frameworks from China Japan the USA New Zealand Myanmar Indonesia Taiwan Iran The Philippines and Pakistan Taking the conceptual and analytical lens of social capital family formation and migration patterns the authors employ comparative demographic anthropological and sociological approaches to present the human security contexts of natural disasters when they unexpectedly wreak havoc on human societies and the coping and response behaviors they adopt develop and use as survivors as they set about re building their lives over periods that can extend over several years This book provides many innovative insights which will be of value to disaster policy experts practitioners in the humanitarian field civil society and government sectors and researchers engaged in disaster recovery and reconstruction practice and research

Essentials

of Global Mental Health Samuel O. Okpaku, 2014-02-27 Mental illness accounts directly for 14% of the global burden of disease and significantly more indirectly and recent reports recognise the need to expand and improve mental health delivery on a global basis especially in low and middle income countries This text defines an approach to mental healthcare focused on the provision of evidence based cost effective treatments founded on the principles of sharing the best information about common problems and achieving international equity in coverage options and outcomes The coverage spans a diverse range of topics and defines five priority areas for the field These embrace the domains of global advocacy systems of development research progress capacity building and monitoring The book concludes by defining the steps to achieving equality of care globally This is essential reading for policy makers administrators economists and mental health care professionals and those from the allied professions of sociology anthropology international politics and foreign policy *Under the Blue Shadow* John M. Violanti, Stephanie Samuels, 2007 Police work involves the difficult task of preventing community dysfunction and preserving law and order within the community Officers who deal with human misery on a daily basis work under a hidden danger not visible on the street that of psychological harm UNDER THE BLUE SHADOW was written to provide clinical cases and research in one volume in order to help provide a well rounded view of police officers who work under these conditions It will be a valuable resource for helping officers to survive this psychologically dangerous occupation The authors of this book have both had experience *Behind the Badge* Sharon M. Freeman Clevenger, Laurence Miller, Bret A. Moore, Arthur Freeman, 2014-11-13 This volume is the logical follow up to the military treatment handbook Living and Surviving in Harm's Way Sharon Freeman Clevenger Laurence Miller Bret Moore and Arthur Freeman return with this dynamic handbook ideal for law enforcement agencies interested in the psychological health of their officers Contributors include law enforcement officers with diverse experiences making this handbook accessible to readers from law enforcement backgrounds This authoritative comprehensive and critical volume on the psychological aspects of police work is a must for anyone affiliated with law enforcement The Distributed Functions of Emergency Management and Homeland Security David A. McEntire, 2023-07-19 The Distributed Functions of Emergency Management and Homeland Security outlines the roles and responsibilities of various individuals and agencies involved in homeland security and all aspects of emergency management Each chapter focuses on the practical and applied aspects of a range of public servants in various departments and the organizations that they represent Rather than presenting a theoretical exploration alone the book examines the practical knowledge and hands on skills related to various functions and how their decisions and actions play into the larger framework of safety and security in the public private and nonprofit sectors Every professional has a unique and integral part to play in fulfilling their roles and obligations whether it be in relation to prevention mitigation preparedness response or recovery operations Personnel that frequently come to mind in such scenarios include emergency managers geographers and land use planners EMTs and paramedics fire fighters police officers public health officials nurses public administrators and

public information officers And while these individuals are integral to homeland security and emergency management there are other professionals that also perform essential duties that while they aren't first to mind are vital to efforts relating to terrorism and disasters this includes pilots in the aviation sector the military attorneys psychologists and forensic professionals serving in pathology DNA and dentistry roles Chapters provide a holistic rendering of the homeland security and emergency management landscape to present all these various professional capabilities and contributions This includes how current functions are coordinated as well as how future efforts might change relative to a more proactive all hazards and holistic approach As such the book will be a useful resource for students and practitioners to understand the dynamic professions and various disciplines and fields that impact disaster and terrorism preparedness and response capabilities

Enduring Military Boredom B. Maeland, P. Brunstad, Bård Maeland, 2009-08-13 It is often said that war is 5% horror and 95% boredom In this sense military boredom is historically enduring as well as personally enduring for the soldiers who have to endure it This book contributes to a deeper understanding historically empirically and theoretically of the complex phenomenon of boredom in a military context
