Witch Comic:

Comic Books and American Cultural History Matthew Pustz, 2012-02-23 *Comic Books and American Cultural History* is an anthology that examines the ways in which comic books can be used to understand the history of the United States. Over the last twenty years there has been a proliferation of book length works focusing on the history of comic books but few have investigated how comics can be used as sources for doing American cultural history. These original essays illustrate ways in which comic books can be used as resources for scholars and teachers. Part 1 of the book examines comics and graphic novels that demonstrate the techniques of cultural history; the essays in Part 2 use comics and graphic novels as cultural artifacts; the third part of the book studies the concept of historical identity through the 20th century and the final section focuses on different treatments of contemporary American history. Discussing topics that range from romance comics and Superman to American Flagg and *Ex Machina*, this is a vivid collection that will be useful to anyone studying comic books or teaching American history.

Asian Popular Culture Anthony Y.H. Fung, 2013-05-29 This book examines different aspects of Asian popular culture including films, TV, music, comedy, folklore, cultural icons, the Internet, and theme parks. It raises important questions such as: What are the implications of the popularity of Asian popular culture for globalization? Do regional forces impede the globalizing of cultures? Or does the Asian popular culture flow act as a catalyst or conveying channel for cultural globalization? Does the globalization of culture pose a threat to local culture? It addresses two seemingly contradictory and yet parallel processes in the circulation of Asian popular culture: the interconnectedness between Asian popular culture and western culture in an era of cultural globalization that turns subjects such as Pok mon, Hip Hop, or Cosmopolitan into truly global phenomena; and the local derivatives and versions of global culture that are necessarily disconnected from their origins in order to cater for the local market. It thereby presents a collective argument that whilst local social formations and patterns of consumption and participation in Asia are still very much dependent on global cultural developments and the phenomena of modernity, yet such dependence is often concretized, reshaped, and distorted by the local media to cater for the local market.
