Understanding the Higher Education Market in Africa Emmanuel Mogaji, Felix Maringe, Robert Ebo

Hinson, 2020-03-06 This book offers theoretical and practical insights into the marketing of higher education in Africa. It explores the key players, challenges and policies affecting higher education across the continent, their marketing strategies and the students' selection process. While acknowledging the vast size of the continent, this book aims to provide an understanding of the dynamics of higher education in Africa. This book recognises the private and government involvement in higher education provision and students and staff as stakeholders in the marketisation process. Strategic efforts are directed by universities to attract prospective students. This book further addresses issues such as the responses of higher education sectors to the notion of markets and marketing, consumerism and competition in higher education in Africa, conceptions of the commodification of higher education in Africa and the dominance of Western epistemologies and their influence in transforming higher education sectors. Students as consumers in increasingly marketised higher education sectors in Africa are also discussed. Though primarily for marketing students and academic researchers, the book's feature of blended theoretical and practical knowledge means that it will also be of interest to marketing practitioners and university managers.

The Oxford Handbook of the Archaeology and Anthropology of Rock Art Bruno David, Ian J. McNiven, 2018 Rock art is one of the most visible and geographically widespread of cultural expressions and it spans much of the period of our species' existence. Rock art also provides rare and often unique insights into the minds and visually creative capacities of our ancestors and how selected rock outcrops with distinctive images were used to construct symbolic landscapes and shape worldviews. Equally important, rock art is often central to the expression of and engagement with spiritual entities and forces and in all these dimensions it signals the diversity of cultural practices across place and through time. Over the past 150 years, archaeologists have studied ancient arts on rock surfaces both out in the open and within caves and rock shelters and social anthropologists have revealed how people today use art in their daily lives. *The Oxford Handbook of the Archaeology and Anthropology of Rock Art* showcases examples of such research from around the world and across a broad range of cultural contexts, giving a sense of the art's regional variability, its antiquity and how it is meaningful to people in the recent past and today, including how we have ourselves tended to make sense of the art of others replete with our own preconceptions. It reviews past, present and emerging theoretical approaches to rock art investigation and presents new, cutting-edge methods of rock art analysis for the student and professional researcher alike.

Archives, Recordkeeping and Social Justice David A. Wallace,Wendy M. Duff,Renée Saucier,Andrew Flinn,2020-05-10

Archives Recordkeeping and Social Justice expands the burgeoning literature on archival social justice and impact. Illuminating how diverse factors shape the relationship between archives recordkeeping systems and recordkeepers, this book depicts struggles for different social justice objectives. Discussions and debates about social justice are playing out across many disciplines, fields of practice, societal sectors, and governments, and yet one dimension cross-cutting these actors and engagement spaces has remained unexplored: the role of recordkeeping and archiving. To clarify and elaborate this connection, this volume provides a rigorous account of the engagement of archives and records and their keepers in struggles for social justice. Drawing upon multidisciplinary praxis and scholarship, contributors to the volume examine social justice from historical and contemporary perspectives and promote impact methodologies that align with culturally responsive, democratic, Indigenous, and transformative assessment. Underscoring the multiplicity of transformative social justice impacts influenced by recordmaking, recordkeeping, and archiving, the book presents nine case studies from around the world that link the past to the present and offer pathways towards a more just future. Archives Recordkeeping and Social Justice will be an essential reading for researchers and students engaged in the study of archives, truth and reconciliation processes, social justice, and human rights. It should also be of great interest to archivists, records managers, and information professionals.
