The Tokyo International Military Tribunal:

Documents on the Tokyo International Military Tribunal Neil Boister, Robert Cryer, 2008-09-25 Despite the recent growth of interest in international criminal law in research and practice the Tokyo International Military Tribunal remains largely neglected One of the reasons for this is the absence of any readily available version of the judgments that emanated from the Tribunal This absence has prevented informed debate about a hugely important part of the development of international criminal law These volumes fill the gap in the literature by reproducing the full text of the judgment the separate and dissenting opinions and a selection of accompanying documents including the charter indictment and rules of procedure All the documents are indexed and referenced to the original pagination of the Tribunal transcript In addition an introductory essay by the editors explains the nature of the tribunal and the law it applied and outlines its impact on contemporary international criminal law

The Tokyo International Military Tribunal Neil Boister, Robert Cryer, 2008 The Tokyo International Military Tribunal IMT is not frequently discussed in the literature on international criminal law and it is often thought that it was little more and possibly less than a footnote to the Nuremberg proceedings This work seeks to dispel this widely held belief by showing the way in which the Tokyo IMT was both similar and different to its Nuremberg counterpart the extent to which the critiques of the Tokyo IMT have purchase and the Tribunal's contemporary relevance The book also shows how the IMT needs to be treated not just as one overarching entity but also as being made up of different sets of people who made up the prosecution the defence and the judges These disagreed with each other and at times internally over the way in which the trial should proceed and the book shows how each had an impact on the proceedings The book is a comprehensive legal analysis of the Tokyo IMT covering its law theory practice and the lessons it may teach to those prosecuting and defending international crimes today It also places the trial in its political and historical context The work is based in part of extensive archival research undertaken by the authors which has unearthed large quantities of documents that have previously been ignored by those who have studied the Tribunal

war crimes and crimes against humanity The judgment was not unanimous with one majority judgment two concurring opinions and three dissenting opinions The trial and the outcome were the subject of significant controversy and the Tribunal's files were subsequently shelved in the archives While its counterpart in Europe the International Military Tribunal IMT at Nuremberg has been at the centre of public and scholarly interest the Tokyo Tribunal has more recently gained international scholarly attention This volume combines perspectives from law history and the social sciences to discuss the legal historical political and cultural significance of the Tokyo Tribunal The collection is based on an international conference marking the 70th anniversary of the judgment of the IMT/FE which was held in Nuremberg in 2018 The volume features reflections by eminent scholars and experts on the establishment and functioning of the Tribunal procedural and substantive issues as well as receptions and repercussions of the trial

Transcultural Justice at the Tokyo Tribunal, 2018-03-06 While the International Military Tribunal at Nuremberg has been at the centre of scholarly attention the Tokyo Tribunal has for decades been largely neglected This is surprising insofar as this tribunal was a well organized Allied endeavour and prefigured the international courts and tribunals of our day Eleven national teams were sent to Tokyo between 1946 and 1948 to bring about justice in the aftermath of the Pacific War This volume offers an innovative approach to the Tokyo Tribunal as an arena of transcultural engagement It contextualizes legal agents as products of transnational forces constituted through dialogues about legal concepts and processes of faction making The endeavour was challenged by different national policies divergent legal traditions and varying cultural perceptions of the task ahead Contributors are Milinda Banerjee Anja Bihler Neil Boister David M Crowe Kerstin von Lingen Narrelle Morris Hitoshi Nagai Valentyna Polunina Ann Sophie Schoepfel Lisette Schouten James Burnham Sedgwick Yuki Takatori and Urs Matthias Zachmann
