The Transatlantic Century Europe And America 1890 2010 New Approaches To European History:

The Transatlantic Century Mary Nolan, 2012-10-11 This is a fascinating new overview of European American relations during the long twentieth century Ranging from economics culture and consumption to war politics and diplomacy Mary Nolan charts the rise of American influence in Eastern and Western Europe its mid twentieth century triumph and its gradual erosion since the 1970s She reconstructs the circuits of exchange along which ideas commodities economic models cultural products and people moved across the Atlantic capturing the differing versions of modernity that emerged on both sides of the Atlantic and examining how these alternately produced co operation conflict and ambivalence toward the other Attributing the rise and demise of American influence in Europe not only to economics but equally to wars the book locates the roots of many transatlantic disagreements in very different experiences and memories of war This is an unprecedented account of the American Century in Europe that recovers its full richness and complexity *The Unfinished History of European Integration* Koen Zon, Matthew Broad, Aleksandra Komornicka, Paul Reef, Alessandra Schimmel, 2025-10-01 The Unfinished History of European Integration is a companion to the history of the European Union From the aftermath of the First World War to the EU of 27 member states and Russia's invasion of Ukraine it guides the reader past the main events crucial sites and key actors that shaped the EU we know today How did it evolve from a market project to a geopolitical force what explains the expansion of its membership institutions policies and the resistance to this growth and why does it function as it does This book provides more than just a chronological account of over seventy years of European integration It also shows how observers past and present have made sense of the EU The Unfinished History of European Integration is therefore a unique introduction for readers with different disciplinary backgrounds to understanding the EU If over seventy years of European integration have taught us anything it is that fundamental crises as well as moments of rapid institutional change have been constants in its history **Theatre Across Oceans** Nic Leonhardt, 2021-09-15 Theatre Across Oceans Mediators Of Transatlantic Exchange allows the reader to enter and understand the infrastructural backstage area of global cultural mobility during the years between 1890 and 1925 Located within the research fields of global history and theory the geographical focus of the book is a transatlantic one based on the active exchange in this phase between North and South America and Europe Emanating from a rich body of archival material the study argues that this exchange was essentially facilitated and controlled by professional theatrical mediators agents brokers who have not been sufficiently researched within theatre or historical studies The low visibility of mediators in the scientific research is in diametrical contrast to the enormous power that they possessed in the period dealt with in this book **US American Expressions of Utopian and Dystopian Visions** Saskia Fürst, Yvonne Kaisinger, Ralph Poole, 2017 This collection takes stock of current discourses in American studies on the political valence of American utopias be they as religious diasporas or as socialist experiments fantastic or realist successful or failed The included essays take into account the spatiality of utopias especially in their

visionary scope analyze currents in literary utopias and look at dystopian visions in literature This volume strives to keep alive the long tradition of writers artists and scholars who warned against imminent disasters and envisioned ways to counter such ruinous bearings Series American Studies in Austria Vol 17 Subject Sociology Literary Studies **Design and Politics** Katarina Serulus,2018-10-08 The unique position of design in the political context of postwar Belgium In the postwar era design became important as a marker of modernity and progress at world fairs and international exhibitions and in the global markets The Belgian state took a special interest in this vanguard phenomenon of industrial design as a vital political and economic strategic tool in the context of the Cold War and the creation of the European community This book describes the unique position that design occupied in the political context of postwar Belgium as it analyses the public promotion of design between 1950 and 1986 It traces this process from the first government backed manifestations and institutions in the 1950s through the 1960s and 1970s until design lost its privileged position as a state backed institution a process which culminated in the closure of the Brussels Design Centre in 1986 in the midst of the Belgian federalisation process A key figure in this history is the policymaker Josine des Cressonni res who played a leading role in the national and international design community and succeeded in connecting very different political worlds through the medium of design *The Spread of the Modern Central Bank and Global Cooperation* Barry Eichengreen,Andreas Kakridis,2023-11-16 Central banks were not always as ubiquitous as they are today Their functions were circumscribed their mandates ambiguous and their allegiances once divided The inter war period saw the establishment of twenty eight new central banks most in what are now called emerging markets and developing economies The Emergence of the Modern Central Bank and Global Cooperation provides a new account of their experience explaining how these new institutions were established and how doctrinal knowledge was transferred Combining synthetic analysis with national case studies this book shows how institutional design and monetary practice were shaped by international organizations and leading central banks which attached conditions to stabilization loans and dispatched money doctors It highlights how many of these arrangements fell through when central bank independence and the gold standard collapsed **Pacific Automobilism** Gijs Mom,2022-09-13 The beginning of the 21st century has seen important shifts in mobility cultures around the world as the West s media driven car culture has contrasted with existing local mobilities from rickshaws in India and minibuses in Africa to cycling in China In this expansive volume historian Gijs Mom explores how contemporary mobility has been impacted by social political and economic forces on a global scale as in light of local mobility cultures the car as an adventure machine seems to lose cultural influence in favor of the car s status character **Transatlantic Radicalism** Frank Jacob,Mario Keßler,2021 Radical individuals like anarchists and socialists in the late 19th and early 20th centuries were quite active when it came to crossing borders creating radical networks especially across the Atlantic Ocean The creation the functioning and the impact of these networks will be analysed in detail in the present book **Yearbook of Transnational History** Thomas Adam,2022-05-05 The Yearbook of

Transnational History is dedicated to disseminating pioneering research in the field of transnational history. This fifth volume advances the frontier of transnational history into early modern times. The six chapters of this volume explore topics and themes from early modern times to the fall of Communism. This volume includes chapters about the Huguenots and Sephardi Jews as transnational nations in the seventeenth and eighteenth century, the construction of cannabis knowledge cultures in the transatlantic world of the nineteenth century, the role of the German pastor Martin Niemoeller in the construction of transnational religious identities in the aftermath of World War II, and the labor migration from Cuba to East Germany within the Socialist world in the 1970s and 1980s.

Europeans Are Lovin' It? Coca-Cola, McDonald's and Responses to American Global Businesses in Italy and France, 1886-2015 Giulia Crisanti, 2023-09-25

From the French origin of Coca Cola to McDonald's sponsorship of the 2015 Milan Expo, the book presents the first comparative history of these multinational corporations in two Western European countries, addressing some compelling questions: to what extent our increasingly globalized world is persistently shaped by forms of American hegemony, and what are some of the forces that have been most effective at challenging the relationship between Americanization and globalization? Through the local history of global companies, the book tells a new story about not only the influence of American businesses in Europe, but also the influence of European governments and societies on those American businesses and their adaptability.
