reach. Importantly, it is along this pathway to meaning where the healing process ultimately takes place and where wholeness in spirit, mind, and body can be found. Alex Pattakos, PhD, Co-Author of *Prisoners of Our Thoughts*, Viktor Frankl's *Principles for Discovering Meaning in Life and Work*, and *The OPA Way: Finding Joy*, the idea behind living a fulfilling and authentic life is paramount in the therapeutic community and addiction industry. The missing links are self-actualization, self-transcendence, and meaning in the everyday experience when talking about recovery and sobriety. Dr. Dezelic and Dr. Ghanoum provide a clear and concise trauma training platform for professionals across disciplines where meaning is woven throughout all of the interventions. Cali Estes, PhD, Author of *The Recovery Coach Workbook*: How do we heal from the pain of traumatic events? How do we survive in the face of unavoidable suffering and loss? Once again, Dezelic and Ghanoum have developed innovative, colorful, and informative Conceptual Pictographs to illustrate their model of recovery. TTFP is flexible enough to be appropriate for individual and group counseling as well as for self-exploration. This manual is an invaluable addition to the treatment plan for clinicians dedicated to helping trauma survivors heal from and discover meaning in the face of tragedy and sorrow. Ann Marie Neale, PhD, Diplomate in Logotherapy, Editor of *Meaning-Centered Therapy Manual*, LTEA Brief Therapy Protocol for Group, and *Meaning-Centered Therapy Workbook* Based on Viktor Frankl's Logotherapy Existential Analysis. *The Body Remembers Casebook* Babette Rothschild, 2014-08-18. This is the first book of its kind to advocate utilizing and combining an assortment of trauma treatment models. Based on ideas put forward in the bestselling *The Body Remembers*, Babette Rothschild emphasizes the importance of tailoring every trauma therapy to the particular needs of each individual client. A breath of fresh air in the competitive, mine-is-best atmosphere currently so divisive in the field of trauma therapy, each varied and complex case presented in a variety of writing styles: case reports, session-by-session narratives, single-session transcripts. It is approached with a combination of methods ranging from traditional psychodynamic and cognitive approaches and applications of attachment theory to innovative trauma methods including EMDR and Levine's SIBAM model. Read on its own or in conjunction with *The Body Remembers*; clinicians from all disciplines will discover new strategies and gain insight into how to combine various treatment models for increased success with traumatized clients.
