The Unknown Reality Volume Two Of A Seth Book:

The Unknown Reality, Vol 2 Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks In this second volume of The Unknown Reality Seth radically expands our conceptions of self by showing us that the human personality is literally infinite in its scope and potential He discloses precisely how probable realities combine to create our waking lives and how our higher selves make decisions regarding our everyday existence In a far reaching exploration of the dynamics of desire and free will he asserts that each atom molecule and cell has its own consciousness and powers of choice With humor and simple analogies Seth leads us beyond our ordinary level of awareness into a spectacular discovery of the multidimensional nature of the self including Consciousness units as the basis of our universe The relevance of extrasensory perception in understanding our world The worlds we visit in dreams and out of body states Dreaming as a science to create present and future realities Families of consciousness we choose to belong to Practical methods for exploring your own unknown reality There is an unknown reality I am part of it and so are you Each individual is a part of the unknown reality To explore the unknown reality you must venture within your own psyche travel inward through invisible roads as you journey outward on physical ones I hope that in this book the reader can see the greater dimensions that touch ordinary living and sense the psyche's greater magic Jane Roberts Speaking for Seth The "unknown" Reality", Volume Two ,1970 **The "unknown" Reality** Jane Roberts, 1979 **The Unknown Reality, Volume One** Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks and The Nature of Personal Reality In this mind stretching journey into the very frontiers of consciousness Seth reveals the multidimensional nature of the human soul In Seth Speaks Seth introduced the concept of probable realities in which our idle daydreams and unfulfilled impulses do take place in which all possible choices are fully experienced by other portions of the self Now in this first volume of The Unknown Reality Seth explains the dazzling labyrinths of unseen probabilities involved in any decision and how our awareness of these can enrich the waking life we know In a fascinating exploration of the cosmic web of our existence Seth reveals The purpose of dreams and how they are often fulfilled unconsciously Misconceptions about death and the afterlife How different probable realities intersect and influence one another The relationship between physical health and inner reality A series of exercises to help you discover the unknown portions of your greater identity The self is multidimensional when it is physically alive It is a triumph of spiritual and psychological identity ever choosing from a myriad of probable realities its own clear unassailable focus When you don't realize this then you project upon life after death all of the old misconceptions The fact is that in life you poise delicately and yet perfectly between realities and after death you do the same Jane Roberts Speaking for Seth **21st Century Practical Spiritual Metaphysic Guide Book for Atheist S and Agnostics** Joel Gonzalez, 2011-03-01 This is a guide book for the individual who has always shied away from all occult subjects such as religion magic astrology metaphysics spiritual anything and for the beginner into all of these subjects who wished to expedite his/her learning with

The Nature of Personal Reality (A Seth Book) Jane Roberts, 2011-10-01 In this perennial bestseller Seth challenges our assumptions about the nature of reality and shows us how we create our personal reality through our conscious beliefs about ourselves others and the world His message is clear we are not at the mercy of the subconscious or helpless before forces we cannot understand We are Gods couched in creaturehood Seth says We are given the ability to form our experience as our thoughts and feelings become actualized Seth was one of my first metaphysical teachers He remains a constant source of knowledge and inspiration in my life Marianne Williamson I would like to see the Seth books as required reading for anyone on their spiritual pathway The amazing in depth information in the Seth books is as relevant today as it was in the early 70s when Jane Roberts first channeled this material Louise Hay

Dreams, Evolution, and Value Fulfillment, Vol 1 Jane Roberts, 2011-07-08 From the Bestselling Author of *Seth Speaks* and *The Nature of Personal Reality* In this first volume of *Dreams Evolution and Value Fulfillment* Seth takes us on an odyssey to identify the origins of our universe and our species He asserts that consciousness units form the basis of all energy and matter and charts a conscious self aware universe that is constantly recreated by our own thoughts dreams and desires Illuminating the part that humans play in the greater scheme of things he suggests that we are alive not only for the continuation of the species but to add to the very quality of life itself Other fascinating topics include The role dreams play in the creation of language and technology The relationship between genetic heritage and reincarnation How creativity provides a link with the source of all existence The true power of the imagination and the importance of broadening its scope A discussion of value fulfillment or the yearning to enhance the quality of life as a fundamental desire in all life forms Stimulating and provocative this long awaited book answers crucial questions about the entire significance of Seth's system of thought When I speak of the dream world I am not referring to some imaginary realm but to the kind of world of ideas of thoughts of mental actions out of which all form as you think of it emerges In actuality this is an inner universe rather than an inner world Your physical reality is but one materialization of that inner organization Jane Roberts Speaking for Seth

The Individual and the Nature of Mass Events Jane Roberts, 2011-07-08 From the Bestselling Author of *Seth Speaks* Speaking exclusively through Jane Roberts Seth has repeatedly stressed the concept that we create our own reality according to our individual beliefs But how do our realities merge and combine to form mass reactions such as the overthrow of governments the birth of a new religion wars epidemics earthquakes and new periods of art architecture and technology In this pioneering work Seth explores the connection

between personal beliefs and world events He pinpoints the unconscious and often negative beliefs pervading science and religion medicine and mythology and offers thought provoking reflections on Darwinism Freudianism religions cults and medical beliefs With fascinating and inspiring implications Seth asserts that the personal impulses we are often taught to see as dangerous chaotic or contradictory are instead crucial to the best interests of the species and the natural world for they lead us to live not only as loving caretakers but as partners with other species Only people who trust their spontaneous impulses can be consciously wise enough to choose from a myriad of probable futures the most promising events Jane Roberts Speaking for Seth

Conversations With Seth: Book Two Susan M. Watkins, 2025-09-12 In 1963 Jane Roberts met a spiritual entity named Seth He spoke through her and the lessons he taught proved timeless and crucial Roberts went on to write much about her channeling experiences with Seth and her books have sold 2.5 million copies Her Seth material is consistently one of the top two most visited collections at the Yale University Archives From 1968 to 1975 Roberts held an ESP class in her home during which she channeled Seth Sue Watkins was a member of that class The knowledge she gained from the Seth sessions changed Watkins's life In fact it changed the lives of all the class participants In Volume II of the Seth series Watkins shares the insights she discovered while participating in Roberts's groundbreaking classes The personal social and political issues addressed in *Conversations with Seth* are as relevant today as ever and include health sexual identity wealth and poverty the military draft relationships dreams ESP reincarnation and more Seth expands on many of the topics raised in book 1 and also explores provocative new material the correlation between our beliefs dreams and daily experience the concept of probabilities counterparts and individual identity the very real difficulties of applying the you create your own reality concept to daily life Also included is a fascinating discussion of Christ And as in the first book Seth addresses the personal ongoing issues that class members experienced over the years troubled marriages illness financial hardships and more

Seth Speaks (A Seth Book) Jane Roberts, 2012-04-01 One of the most powerful of the Seth Books this essential guide to conscious living clearly and powerfully articulates the furthest reaches of human potential and the concept that we all create our own reality according to our individual beliefs Having withstood the test of time it is still considered one of the most dynamic and brilliant maps of inner reality available today The Seth books present an alternate map of reality with a new diagram of the psyche useful to all explorers of consciousness Deepak Chopra Seth was one of my first metaphysical teachers He remains a constant source of knowledge and inspiration in my life Marianne Williamson I would like to see the Seth books as required reading for anyone on their spiritual pathway The amazing in depth information in the Seth books is as relevant today as it was in the early 70s when Jane Roberts first channeled this material Louise Hay
