The Transnational Capitalist Class:

The Transnational Capitalist Class Leslie Sklair, 2001 While most of the popular and academic debates explore ideas of globalization The Transnational Capitalist Class goes one step further and provides theoretically informed empirical research to explain and deconstruct the process of globalization as seen by the corporations themselves Using personal interviews with executives and managers from over eighty Fortune Global 500 corporations as well as already published sources Sklair demonstrates how globalization works from the perspective of those who control and oppose the major globalizing corporations and their allies in government and the media The book explores two major crises of globalization class polarization and ecological sustainability and shows how the transnational capitalist class attempts to resolve these crises and evaluates its own success and failure Sklair's unique approach brings a fresh perspective to what has become a key debate of our time

Global Capitalism and Transnational Class Formation Jason Struna, 2016-03-17 The global capitalism perspective is a unique research program focused on understanding relatively recent developments in worldwide social economic and political practices related to globalization At its core it seeks to contextualize the rearticulation of nation states and broad geographic regions into highly interdependent networks of production and distribution and in so doing explain consequent changes in social relations within and between countries in the contemporary era The present volume contributes to this effort by focusing on social class formation across borders via the processes and actors that make globalized capitalism possible The essays presented here offer a wide range of emphases in terms of the particular lenses and evidence they use They cover such topics as the emergence of a transnational capitalist class based fascist regime responding to the structural crises of global capitalism as well as the links between global class formation and the US racial project as it relates to electoral politics and demographic changes in the US South This book was published as a special issue of Globalizations

The Making of a Transnational Capitalist Class William K. Carroll, 2010-09-09 Throughout the world there has been a growing wave of interest in global corporate power and the rise of a transnational capitalist class triggered by economic and political transformations that have blurred national borders and disembedded corporate business from national domiciles Using social network analysis William Carroll maps the changing field of power generated by elite relations among the world's largest corporations and related political organizations Carroll provides an in depth analysis that spans the three decades of the late 20th and early 21st century when capitalist globalization attained unprecedented momentum propelled both by the transnationalization of accumulation and by the political paradigm of transnational neoliberalism This has been an era in which national governments have deregulated capital international institutions such as the World Trade Organization and the World Economic Forum have gained prominence and production and finance have become more fully transnational increasing the structural power of capital over communities and workers Within this context of transformation the book charts the making of a transnational capitalist class reaching beyond national forms of capitalist

class organization into a global field but facing spirited opposition from below in an ongoing struggle that is also a struggle over alternative global futures Globalizing the Caribbean Jeb Sprague, 2019 The most powerful forces in the Caribbean are not nations but transnational industries This work of political economy charts the recent history of the region to show how a global capitalist class stays a step ahead of the domestic and international structures that aspire to both attract and regulate them Reseña de "The Transnational Capitalist Class" de Leslie Sklair Ismael Plascencia López, 2002
