SOURCES & CRITICISMS
OF MODERN NIHILISM

DONALD A. CROSBY

The Specter Of The Absurd The Specter Of The Absurd

Colin Cavendish-Jones

The Specter Of The Absurd The Specter Of The Absurd:

The Specter of the Absurd Donald A. Crosby, 2016-03-22 This book is our century's most comprehensive and wise treatment of nihilism in all of its guises comparing favorably with Rosen Cavell and indeed with Spengler Crosby argues that our culture is genuinely haunted by nihilism expressing itself in the fideism of fundamentalism as well as in the debilitating alienation from all orientation This results from a one sided development of Western culture Unlike most writers on this topic Crosby acknowledges many sources colluding to frame the culture of nihilism including the death of God the objectification of nature the meaninglessness of suffering in a mechanical universe the ephemerality of time in a world where value does not accumulate the arbitrariness of historicized reason the reduction of value to will and the alienation of the Cartesian ego These sources are reviewed in the first two parts of the book with the result that the phenomenon of nihilism becomes understandable In its third and fourth parts Crosby provides a critical analysis of the religious and philosophical forces leading to nihilism by discussing authors from the early modern period through Dostoyevsky Sartre Russell and Derrida He shows that these forces are skewed and impoverished and should not be allowed to determine our situation The comprehensive attention to detail and the multi perspectival interpretation demonstrates as well as asserts the richness of the culture that puts nihilism in its place Part Five finally rephrases the criticism of the sources of nihilism in positive ways Part Four in particular is a tour de force of philosophical argument Its richness of nuance plurality of views examined and adroitness of critical interpretation provide cumulatively a powerful non nihilistic reading of the philosophic tradition The force of the argument derives from its comprehensive cumulative character Crosby distinguishes and relates five areas of nihilism political moral epistemological cosmic and existential Throughout the book he illustrates and examines these as they are expressed in literature and art in daily life and practical affairs and in philosophy The book is richly erudite in its marshalling of consciousness from so many domains **Absurdity and Meaning in Contemporary Philosophy and Jewish Thought** Alan L. Mittleman, 2023-11-02 Explores the search for life's meaning in contemporary philosophy and in Jewish thought bringing the two into mutual respectful conversation **Oscar Wilde and Nihilism** Colin Cavendish-Jones, 2025-03-14 Oscar Wilde and Nihilism examines Wilde's major works in the context of nineteenth century philosophical nihilism and the Victorian religious unsettlement The book covers Wilde's plays the fairy tales The Picture of Dorian Gray the critical writings and De Profundis to show how Wilde's thinking about nihilism developed over the course of his career profoundly influencing the tone and message of his work Like Nietzsche Wilde came to regard art as the only effective counterforce to the problem of nihilism a uniquely consistent source of order and meaning in a godless universe The book is intended for the general reader with an interest in nihilism aesthetics or Wilde as well as for more specialist scholars The aim is to provide the reader with the answers of an exceptionally brilliant and original intellect to the most compelling problem in philosophy how to find meaning and purpose in life *Rethinking the Politics of Absurdity* Matthew H.

Bowker,2013-11-12 What does it mean to describe something or someone as absurd Why did absurd philosophy and literature become so popular amidst the violent conflicts and terrors of the mid to late twentieth century Is it possible to understand absurdity not as a feature of events but as a psychological posture or stance If so what are the objectives dynamics and repercussions of the absurd stance And in what ways has the absurd stance continued to shape postmodern thought and contemporary culture In *Rethinking the Politics of Absurdity* Matthew H Bowker offers a surprising account of absurdity as a widespread endeavor to make parts of our experience meaningless In the last century he argues fears about subjects destructive desires have combined with fears about rationality in a way that has made the absurd stance seem attractive Drawing upon diverse sources from philosophy literature politics psychoanalysis theology and contemporary culture Bowker identifies the absurd effort to make aspects of our histories our selves and our public projects meaningless with postmodern revolts against reason and subjectivity Weaving together analyses of the work of Albert Camus Georges Bataille Judith Butler Emmanuel Levinas and others with interview data and popular narratives of apocalypse and survival Bowker shows that the absurd stance and the postmodern revolt invite a kind of bargain in which meaning is sacrificed in exchange for the survival of innocence Bowker asks us to consider that the very premise of this bargain is false that ethical subjects and healthy communities cannot be created in absurdity Instead we must make meaningful even the most shocking losses terrors and destructive powers with which we live Bowker's book will be of interest to scholars and practitioners in the fields of political science philosophy literature psychoanalysis sociology and cultural studies

Analyzing Adventure Time

Paul A. Thomas,2023-07-06 In 2010 Cartoon Network debuted a new animated series called Adventure Time and within just a few short years the show became both a pop culture phenomenon and a critical darling But despite all the admiration not many works of scholarship have assessed the show through a critical lens This anthology is an attempt to fill this scholarly oversight and spark a wider conversation about the show's deeper themes Across 15 scholarly essays this book's contributors study Adventure Time from a variety of angles proving just how insightful the series really is From a consideration of BMO's queer identity to a psychoanalytic reading of Lemongrab and an examination of how anime has impacted the show the topics explored in this anthology are diverse and unique and are likely to appeal to scholars and fans alike

Is Human Life

Absurd? A Philosophical Inquiry into Finitude, Value, and Meaning Raymond Angelo Belliotti,2019-06-24 In this work Belliotti unravels the paradoxes of human existence The purpose of this philosophical journey is to reveal paths for forging meaningful significant valuable even important lives By examining notions of The Absurd expressed within Search for the Holy Grail The Seventh Seal and The Big Lebowski the author crafts a working definition of absurdity He then investigates the contributions of classical thinkers such as Shakespeare Schopenhauer Nietzsche Kierkegaard Tolstoy Sartre Camus as well as philosophers such as Nagel Feinberg and Taylor After arguing that human life is not inherently absurd Belliotti examines the implications of mortality for human existence the relationship between subjective and objective meaning and

the persuasiveness of several challenging contemporary renderings of meaningful human lives **Instrumental Data for Drug Analysis, Second Edition** Terry Mills, III, 1992-09-17 Compiled with the most sophisticated chromatographic and spectrometric instruments available this complete and self contained seven volume reference provides forensic toxicology and clinical laboratories with up to date information on 1 600 drugs and drug related compounds one of the largest collections of analytical data generated from a single source Instrumental Data for Drug Analysis contains timely quality data presented in a large easily usable format It is an essential reference in the libraries of all toxicology analytical chemistry and forensic specialists and laboratories **In the Shadow of the Holocaust & Other Essays** Constantin V. Ponomareff, 2023-12-14 The main thrust of this collection of essays excluding those on Russian literature is to visualize the European Holocaust from a number of different vantage points the historical and cultural the political and individual the psychological and social and the critical and literary This wider perspective especially as it relates to the range and extent of human suffering suggests that a redefinition of the twentieth century Holocaust is now timely **Schopenhauer and the Aesthetic Standpoint** Sophia Vasalou, 2013-07-18 With its pessimistic vision and bleak message of world denial it has often been difficult to know how to engage with Schopenhauer s philosophy Schopenhauer s arguments have seemed flawed and his doctrines marred by inconsistencies his very pessimism almost too flamboyant to be believable Yet a way of redrawing this engagement stands open Sophia Vasalou argues if we attend more closely to the visionary power of Schopenhauer s work The aim of this book is to place the aesthetic character of Schopenhauer s standpoint at the heart of the way we read his philosophy and the way we answer the question why read Schopenhauer and how Approaching his philosophy as an enactment of the sublime with a longer history in the ancient philosophical tradition Vasalou provides a fresh way of assessing Schopenhauer s relevance in critical terms This book will be valuable for students and scholars with an interest in post Kantian philosophy and ancient ethics **Screening Scripture** George Aichele, Richard G. Walsh, 2002-05-01 An intertextual examination of popular films and scripture
