Muessig,2020-02-06 Francis of Assisi's reported reception of the stigmata on Mount La Verna in 1224 is almost universally considered to be the first documented account of an individual miraculously and physically receiving the five wounds of Christ. The early thirteenth century appearance of this miracle however is not as unexpected as it first seems. Interpretations of Galatians 6:17 "I bear the marks of the Lord Jesus Christ in my body" had been circulating since the early Middle Ages in biblical commentaries. These works perceived those with the stigmata as metaphorical representations of martyrs bearing the marks of persecution in order to spread the teaching of Christ in the face of resistance. By the seventh century the meaning of Galatians 6:17 had been appropriated by bishops and priests as a sign or mark of Christ that they received invisibly at their ordination. Priests and bishops came to be compared to soldiers of Christ who bore the brand stigmata of God on their bodies just like Roman soldiers who were branded with the name of their emperor. By the early twelfth century crusaders were said to bear the actual marks of the passion in death and even sometimes as they entered into battle.

The Stigmata in Late Medieval and Early Modern Europe traces the birth and evolution of religious stigmata and particularly of stigmatic theology as understood through the ensemble of theological discussions and devotional practices. Carolyn Muessig assesses the role stigmatics played in medieval and early modern religious culture and the way their contemporaries reacted to them. The period studied covers the dominant discourse of stigmatic theology that is from Peter Damian's eleventh century theological writings to 1630 when the papacy officially recognised the authenticity of Catherine of Siena's stigmata.

The Mystery of the Sacred Stigmata Michael Freze,2016-03-14 FROM A BESTSELLING AUTHOR The Sacred Shroud of Turin compared with those stigmatists who bore the wounds of Christ and who exhibit the stigmata of the Passion and Crucifixion. Evidence from science and medicine. Photos of the Holy Shroud and stigmatics such as Padre Pio, Therese Neumann, Myrna Nazzour, Mary Rose Ferron, Gemma Galgani, Discussions of Anne Catherine Emmerich, Francis of Assisi, Louise Latteau, Berthe Petit more. No other author has ever published a book showing how the shroud and the stigmata completely agree with each other scientifically and according to the Gospel accounts. Scientific evidence about the burial cloth of our Lord Jesus Christ. A recent endorsement I have to say that of the many books I have read having multiple degrees in theology including my Doctorate from Columbia University your **They Bore the Wounds of Christ: The Mystery of the Sacred Stigmata** is one of my all time favorites. In fact not only do I continue to refer to it but there are certain passages that you explain that could only be attributable to infused divine inspiration. Please continue to write. The Stigmata Peter Tradowsky,2010 Thus from time to time such events the stigmatization occur that strike one as miraculous and that can be understood only through knowledge of the world of spirit. Because they seem so hard to explain they preoccupy everyone and remind people again of the reality of the spirit. Ita Wegman **Stigmata** the spontaneous appearance of bodily marks in locations corresponding to the crucifixion wounds of Jesus Christ have long been a controversial phenomenon.
