The Subversive Stitch Rozsika Parker, 1996 Rozsika Parker's now classic re-evaluation of the reciprocal relationship between women and embroidery has brought stitchery out from the private world of female domesticity into the fine arts created a major breakthrough in art history and criticism and fostered the emergence of today's dynamic and expanding crafts movements *The Subversive Stitch* is now available again with a new Introduction that brings the book up to date with exploration of the stitched art of Louise Bourgeois and Tracey Emin as well as the work of new young female and male embroiderers Rozsika Parker uses household accounts women's magazines letters novels and the works of art themselves to trace through history how the separation of the craft of embroidery from the fine arts came to be a major force in the marginalisation of women's work Beautifully illustrated her book also discusses the contradictory nature of women's experience of embroidery how it has inculcated female subservience while providing an immensely pleasurable source of creativity forging links between women

The Subversive Stitch Rozsika Parker, 1994 *Queering the Subversive Stitch* Joseph McBrinn, 2021-04-08 The history of men's needlework has long been considered a taboo subject This is the first book ever published to document and critically interrogate a range of needlework made by men It reveals that since medieval times men have threaded their own needles stitched and knitted woven lace handmade clothes as well as other kinds of textiles and generally delighted in the pleasures and possibilities offered by all sorts of needlework Only since the dawn of the modern age in the eighteenth and the nineteenth centuries did needlework become closely aligned with new ideologies of the feminine Since then men's needlework has been read not just as feminising but as queer In this groundbreaking study Joseph McBrinn argues that needlework by male artists as well as anonymous tailors sailors soldiers convalescents paupers prisoners hobbyists and a multitude of other men and boys deserves to be looked at again Drawing on a wealth of examples of men's needlework as well as visual representations of the male needleworker in museum collections from artist's papers and archives in forgotten magazines and specialist publications popular novels and children's literature

and even in the history of photography film and television he surveys and analyses many of the instances in which needlemen have contested resisted and subverted the constrictive ideals of modern masculinity This audacious original carefully researched and often amusing study demonstrates the significance of needlework by men in understanding their feelings agency identity and history New Feminist Art Criticism Katy Deepwell,1995 This text reviews feminist art strategies as they emerged in the late 1980s and early 1990s in America and the UK It draws together the views of prominent practitioners critics academics and curators on a broad range of controversial issues The central focus of the book is feminism s engagement with psychoanalysis and post modernism and its aim of deconstructing the borders between art and craft and theory and practice Feminist politics in the art world are also investigated through discussion of the negotiations of feminist curators responses to feminist exhibitions issues surrounding pornography and the censorship of women s work and the role of feminist teaching on fine art and design degree courses The book covers a variety of art work including installation work painting textiles and photography *Needlework and Women's Identity in Colonial Australia* Lorinda Cramer,2019-09-05 In gold rush Australia social identity was in flux gold promised access to fashionable new clothes a grand home and the goods to furnish it but could not buy gentility Needlework and Women s Identity in Colonial Australia explores how the wives mothers sisters and daughters who migrated to the newly formed colony of Victoria used their needle skills as a powerful claim to social standing Focusing on one of women s most common daily tasks the book examines how needlework s practice and products were vital in the contest for social position in the turmoil of the first two decades of the Victorian rush from 1851 Placing women firmly at the center of colonial history it explores how the needle became a tool for stitching together identity From decorative needlework to household making and mending women s sewing was a vehicle for establishing asserting and maintaining social status Interdisciplinary in scope Needlework and Women s Identity in Colonial Australia draws on material culture written primary sources and pictorial evidence to create a rich portrait of the objects and manners that defined genteel goldfields living Giving voice to women s experiences and positioning them as key players in the fabric of gold rush society this volume offers a fresh critical perspective on gender and textile history The New Politics of the Handmade Anthea Black,Nicole Burisch,2020-12-10 Contemporary craft art and design are inseparable from the flows of production and consumption under global capitalism The New Politics of the Handmade features twenty three voices who critically rethink the handmade in this dramatically shifting economy The authors examine craft within the conditions of extreme material and economic disparity a renewed focus on labour and materiality in contemporary art and museums the political dimensions of craftivism neoliberalism and state power efforts toward urban renewal and sustainability the use of digital technologies and craft s connections to race cultural identity and sovereignty in texts that criss cross five continents They claim contemporary craft as a dynamic critical position for understanding the most immediate political and aesthetic issues of our time *Dress Culture in Late Victorian Women's Fiction* Christine Bayles Kortsch,2016-05-13 In her

immensely readable and richly documented book Christine Bayles Kortsch asks us to shift our understanding of late Victorian literary culture by examining its inextricable relationship with the material culture of dress and sewing Even as the Education Acts of 1870 1880 and 1891 extended the privilege of print literacy to greater numbers of the populace stitching samplers continued to be a way of acculturating girls in both print literacy and what Kortsch terms dress culture Kortsch explores nineteenth century women s education sewing and needlework mainstream fashion alternative dress movements working class labor in the textile industry and forms of social activism showing how dual literacy in dress and print cultures linked women writers with their readers Focusing on Victorian novels written between 1870 and 1900 Kortsch examines fiction by writers such as Olive Schreiner Ella Hepworth Dixon Margaret Oliphant Sarah Grand and Gertrude Dix with attention to influential predecessors like Elizabeth Gaskell Charlotte Bront and George Eliot Periodicals with their juxtaposition of journalism fiction and articles on dress and sewing are particularly fertile sites for exploring the close linkages between print and dress cultures Informed by her examinations of costume collections in British and American museums Kortsch s book broadens our view of New Woman fiction and its relationship both to dress culture and to contemporary women s fiction

Contemporary Art and Feminism Jacqueline Millner,Catriona Moore,2021-07-05 This important new book examines contemporary art while foregrounding the key role feminism has played in enabling current modes of artmaking spectatorship and theoretical discourse Contemporary Art and Feminism carefully outlines the links between feminist theory and practice of the past four decades of contemporary art and offers a radical re reading of the contemporary movement Rather than focus on filling in the gaps of accepted histories by adding the missing female queer First Nations and women artists of colour the authors seek to revise broader understandings of contemporary practice by providing case studies contextualised in a robust art historical and theoretical basis Readers are encouraged to see where art ideas come from and evaluate past and present art strategies What strategies materials or tropes are less relevant in today s networked event driven art economies What strategies and themes should we keep hold of or develop in new ways This is a significant and innovative intervention that is ideal for students in courses on contemporary art within fine arts visual studies history of art gender studies and queer studies

"Women and the Material Culture of Needlework and Textiles, 1750?950 " MaureenDaly Goggin,2017-07-05 Rejecting traditional notions of what constitutes art this book brings together essays on a variety of fiber arts to recoup women s artistic practices by redefining what counts as art Although scholars over the last twenty years have turned their attention to fiber arts redefining the conditions practices and products as art there is still much work to be done to deconstruct the stubborn patriarchal art craft binary With essays on a range of fiber art practices including embroidery knitting crocheting machine stitching rug making weaving and quilting this collection contributes to the ongoing scholarly redefinition of women s relationship to creative activity Focusing on women as producers of cultural products and creators of social value the contributors treat women as active subjects and problematize

their material practices and artifacts in the complex world of textiles Each essay also examines the ways in which needlework both performs gender and in turn constructs gender Moreover in concentrating on and theorizing material practices of textiles these essays reorient the study of fiber arts towards a focus on process the making of the object including the conditions under which it was made by whom and for what purpose as a way to rethink the fiber arts as social praxis
