Amanze, 2012-06-28 This book introduces the study of Biblical studies theology religion and philosophy from an African perspective The book comprises twenty six chapters divided into four sections The first section deals with Biblical studies the second with theology the third with religion and the fourth with philosophy The contributions are from 20 eminent scholars from African and Caribbean universities **Hermeneutics as Epistemology** William C. Roach, 2015-07-24 Historic Protestantism and evangelicalism has always been committed to the authority of Scripture and interested in the proper interpretation of the Bible They uphold the motto As Scripture says God says and as God says Scripture says Many today claim this type of reasoning is faulty since individuals can no longer know the true meaning of Scripture because there are no stable metaphysical or epistemological frameworks Moreover they claim that approaches such as the one presented by Carl F H Henry no longer provide adequate grounds to address the pressing

hermeneutical issues This study responds to these types of claims showing each of these proposals is based upon faulty first principles or misrepresentations This book surveys hermeneutical innovations and Henry s epistemological hermeneutic to show that Henry s epistemology is foundational to his hermeneutic offering present day evangelicals an epistemologically justified approach to hermeneutics as epistemology and methodology The book will be of importance to those with interest in evangelical hermeneutics or philosophical hermeneutics in general It provides a clear assessment of the impact of Carl F H Henry s epistemology and hermeneutic and strives to respond to criticisms raised against his Augustinian Reformed revelational cognitive propositional hermeneutic

The Historical Problem with Creeds Kenneth Arndt,2017-11-08 This short book deals with the debate among Christians about the timing of the Second Coming of Jesus Christ There are several viewpoints on this topic each with its defenders Is Christ coming again in the future and in what sequence of events will that happen Or did the Second Coming of Christ happen in the past as some scripture seem to say when it describes the time as quickly The Creeds have not really dealt with this issue in any definitive statement other than to say he is coming again All Christians believe that there will be a final coming in judgment to sum up human history The authority for Christians on this issue is the Bible the Word of God The two viewpoints dealt with in this book are Preterist in the past and Futurist in the future While not an extended support of either position although the author is a preterist by conviction this book speaks out against the futurist writers identifying a preterist as a heretic Often relying on the Creeds there is a lack of historical scholarship on just how the Creeds were constructed In the view of the author a preterist even if mistaken does not hold to a belief or reading of the scripture that rises to the level of heresy The attacks against preterists are unwarranted unkind and unworthy of Christian scholarship

The Cartesian Innateness of all Ideas as the Source and Panacea of True Knowledge Evarist Okpala,2024-11-07 Academic Paper from the year 2024 in the subject Philosophy Theoretical Realisation Science Logic Language language English abstract The purpose of this work is to give credence to the admonition of St Augustine who admonished seekers of the truth to look inwards for that is where the truth lies This admonition was adhered to by Descartes when he decided to reject all prior submissions of philosophy as well as the sciences in order to proceed methodically towards arriving at the truth which will not be further doubted Thus the work aims at exposing how the pure intellect and the ideas innate in it can give us certitude in knowledge in the light of Descartes philosophy Descartes intervention is quite significant in exposing that prior to his search for a strong foundation for the establishment of philosophy all the claims that hitherto existed could not solve the problem of doubt Such that none of the submissions could claim to have satisfied man s natural craving for the truth and the truth cannot be two Thus this study is quite significant for it will try to assert once more that the truth is without doubt and it can be reached irrespective of whether Descartes did a good job or not in his quest for the indubitable truth And that as Descartes believes it can be arrived at more securely by looking inwards in the man s intellect which is the place not corrupted as the changing world of the senses It will also mean

that for the intellect to hold such truths which cannot change it follows that there exists a source which is greater than the human intellect from where comes the truths that exist in the human mind Descartes thoughts around these will be properly highlighted to show how relevant they are in today s world especially in the understanding of man as well as God the source of everything that exists alongside man

Ìwà: The Process-Relational Dimension to African Metaphysics Emmanuel Ofuasia, 2024-11-22 This book approaches the subject of African metaphysics historically as it connects Ancient Egypt to Yor b It provides a history of African metaphysics from ancient Egypt or Kemet down to John Boakye Danquah and Placide Tempels in the 20th century and then Innocent Asouzu Ada Agada and Aribiah David Attoe in the 21st century As it surpasses the deductions of these previous works it moves further to showcase African originality and approaches to studying reality whilst resisting the temptation to deduce conclusions from Western philosophy It is the first book in the history of African philosophy to use a process relational approach to interrogate African metaphysics It also serves to harmonize and engage prominent African scholars who have written on the subject of African metaphysics The general scope of this book centers on engaging the history of distortion and misunderstanding of African metaphysics by providing a relevant and reliable process relational background as well as an alternative trivalent logic system Unless African metaphysical theories are understood from this perspective they will remain powerless to overcome these misrepresentations It appeals to students and researchers internationally actively working in the fields of African philosophy Intercultural African studies as well as process studies

_____ This book is one of the valuable contributions to the emerging field of African philosophy after decades 1970s 1990s of rather fruitless debates on the status of the discipline Like many others the book side tracks the seemingly unending controversy of whether or not there is such a thing as African philosophy Godwin Sogolo Emerittus Professor of Philosophy National Open University of Nigeria NOUN In the opening lines of the introduction of this monumental book Dr Ofuasia announces As you read these lines the earth in which you live in as an ontological entity is spinning at an estimate estimated speed of 67 000 mph This indicates that the perspective that a thing is not in motion or is at rest is one of the fallacies ever fed to humanity Nothing rests I was awe struck by how this revelation from physics extends to metaphysics This book is a welcoming addition to African metaphysical scholarship as the process relational approach used to explore Egyptian and ancient Yor b thought system in this work creatively intersects emerging discourses on agency both at the animate and what humans call inanimate ontology plant sentience African medicine cosmogony the physical sciences neutral nihilism and other related metaphysical topics The eclectic interrogation of classical concepts of w and Nun from the Yoruba and Egyptian intellectual traditions respectively is a trail blazing contribution Congratulations on this feat Dr Ofuasia Ademola Kazeem Fayemi Queensland Bioethics Center Australian Catholic University Brisbane Dr Ofuasia s book marries aspects of Egyptian philosophy with ancient Yor b metaphysics and process metaphysics all under the framework of Ezumezu logic and it works What has emerged from this marriage is a new and contemporary theory in African metaphysics

w ontology which is strongly grounded on African thought This book is recommended for anyone interested in African metaphysics Aribiah David Attoe University of the Witwatersrand Emmanuel Ofuasia s text is engaged at times even rightfully angry This makes this a lively energetic contribution I appreciate that This passion is often missing in philosophy but it is much needed especially in this area of research Bjoerne Freter Hagerstown Community College Maryland In this timely work Emmanuel Ofuasia throws down a challenge to African philosophers with the claim that process thinking runs through African philosophy from the contested Egyptian past down to contemporary times His claim culminates in the articulation of w ontology which he presents as a contemporary philosophical expression of process metaphysics This is a bold insightful and impressive work that will brighten the ever expanding horizon of 21st century African philosophy Ada Agada Federal University Otuoke
