Chinese Herbal Formulas: Treatment Principles and Composition Strategies E-Book Yifan Yang, 2010-01-26

Traditionally the study of Chinese herbal formulas has involved memorizing hundreds of classic formulas and recognizing and summarizing the relevant treatment rules and formula making strategies in order to create appropriate formulas for treatment. This new book by Yifan Yang, author of *Chinese Herbal Medicines Comparisons and Characteristics* which pioneered the comparative method of single herb study, introduces a new approach to formula study. The reader is shown how to use the basic treatment rules and composition strategies abstracted from hundreds of formulas in order to create individual formulas for treating a variety of syndromes. The method is clear and easy to understand with a systematic approach and an emphasis on essential knowledge. Key features: 19 common syndromes and 60 sub syndromes are described and discussed in detail, illustrated with clear line drawings. Chinese diagnosis of syndromes are related to the Western disease names. Treatment principles and plans are given for each syndrome. Principles of herb selection are introduced with recommendations and explanations of specific herbs in relation to each syndrome. 166 classic formulas are given as examples. Treatment strategies in complicated syndromes, treatment sequences, cautionary advice for herbs and combinations with Western drugs, dosage management in a variety of conditions, and commonly used pairs of herbs are all discussed. Detailed indexes and contents lists facilitate quick reference and searching within the text. *Chinese Herbal Formulas: Treatment Principles and Composition Strategies* is written by an experienced practitioner and lecturer of Chinese herbal medicine. It is the ideal companion to *Chinese Herbal Medicines Comparisons and Characteristics* by the same author. Offers a method of learning formula composition clearly and concisely. Detailed syndrome differentiation and analysis help students to understand the syndromes and give clear orientation in their treatment plan. Includes clear and detailed information on selection of herbs. Abstracts from each chapter allow practitioners to quickly select herbs in the clinical practice. Also covers dosage management, special strategies for treated complicated cases, contraindications of using formulas, and treatment orders.

Essentials from the Golden Cabinet 金櫃要略, 2020 **Jīn Guì Yào Lǚ** Zhang Ji, 2022-07-26

The Jīn Guì Yào Lǚ Essential Prescriptions of the Golden Cabinet like its sister volume the Shēng Hǎn Lǚ On Cold Damage is a gem reconstituted from fragments of a lost text called the Shēng Hǎn Zǐ Bēng Lǚ On Cold Damage and Miscellaneous Diseases by indisputably the most brilliant medical mind that China ever produced the Hǎn Dynasty physician Zhāng Jī Zhāng Jī Exerting an influence on the development of Chinese medicine unmatched by any other medical scholar Zhāng integrated the then relatively new theories of systematic correspondence of the Nǐng and Nǐng with an already vast practical knowledge knowledge in the use of medicinals Such was his brilliance that it was not fully recognized by Chinese physicians until centuries later in the Sòng Dynasty when Zhāng's combination of theory and practice became the mainstream in Chinese medicine that survived centuries of scrutiny from successive generations of medical scholars and buttressed traditional medicine against the challenge of Western in the twentieth century Combining theoretic etiologies with detailed diagnosis and skillfully devised treatments Zhāng's work has left an indelible print on traditional medicine in China for nearly 2 000 years A third of the most commonly used formulas in Chinese medical practice today were devised by Zhāng Jī

The Jīn Guì Yào Lǚ covers diseases other than the external contractions dealt with in the Shēng Hǎn Lǚ and includes lung diseases water swelling dissipation thirst impediment b summerheat stroke mounting diseases and gynecological diseases to name just a few It is presented in 25 chapters most of which deal with two or three closely related diseases however the final three chapters cover miscellaneous formulas and foodstuffs Each chapter includes an introduction to the material followed by the original lines of the text which are rendered in simplified Chinese characters Pinyin and English translation This is followed by notes to elucidate obscure phrases in the original text a synopsis of the content of the line and detailed explanatory commentaries Textual History from the Introduction by Sabine Wilms

As its title suggests Zhāng Zhāng Jī's Shēng Hǎn Lǚ discusses the diagnosis and treatment of cold damage conditions which are conditions related to external contraction especially of wind and cold His Jīn Guì Yào Lǚ is thought to reflect that section of the original Shēng Hǎn Zǐ Bēng Lǚ that was called miscellaneous diseases zǐ bēng basically a catch all phrase for any conditions which could not be traced to externally contracted evils The full title of this present text is Jīn Guì Yào Lǚ Fēng Lǚ Essential Prescriptions and Discussions from the Golden Cabinet This title tells us several things about the book First it is an indication of the value that the author or more accurately the person who named the text as such placed on the book's content Golden Cabinet refers to a cabinet like storage box made of gold hence a place where a person of great wealth would store his or her most valuable items Second the text is characterized as containing both prescriptions and discussions or in other words clinical as well as theoretical information This combination positions it at an interesting fulcrum in the textual history of Chinese medicine

namely the intersection between theoretical classics like the *Huangdi Neijing* Yellow Emperor's Inner Canon and *Nanjing* Classic of Difficult Issues which were mostly concerned with the flow of qi and blood through the vessels and the correlation of the human body to the macrocosm and formulary collections like the *Qin Jiufeng* Thousand Gold Pieces Prescriptions by *Sun Simiao* which primarily matched lists of symptoms to specific formulas without providing any diagnostic or etiological explanation for the rationale behind a treatment. By contrast the *Jin Gui Yao Lue* includes detailed diagnostic guidelines and etiological reasoning in addition to instructions for treatment primarily with medicinal formulas and some references to acupuncture, moxibustion and other therapeutic modalities. *Zhang Zhongjing* thus created a medical classic with outstanding significance for both theory and practice centuries before other medical authors attempted to follow in his footsteps during the *Song* period. Due to the turbulence of its historical times it is impossible to reconstruct the exact format, content and organization of *Zhang Zhongjing*'s work today. Nevertheless its significance for the history of medicine and its applicability in modern clinical practice has inspired much research, especially in China, to approximate its original form as much as possible on the basis of later reprints, fragments that have been recovered in China and Japan in archaeological sites and quotations in received texts. By order of the *Song* Imperial court in the 11th century both the *Shanghan Lun* and the *Jin Gui Yao Lue* were included among a small selection of early Chinese medical classics to be collated, annotated and reissued in woodblock print. This monumental effort was completed by a large editorial team from the Office for the Correction of Medical Texts which had been established in 1057 CE. While these scholars had access to the ten scrolls of the *Shanghan Lun* which had been edited by *Wang Shenhong*, the part on miscellaneous diseases had not survived. Instead they painstakingly had to recreate the *Jin Gui Yao Lue* on the basis of quotations found in other medical classics like the *Miji* Pulse Canon, *Zhang Bingyu*'s *Hu Lu Benyuan* Origin and Indicators of Disease and *Qin Jiufeng* Thousand Gold Pieces Prescriptions, as well as a summary of *Zhang Zhongjing*'s work in three scrolls entitled *Jin Gui Yao Lue* Essential Prescriptions from the Golden Cabinet and Jade Sheath. These *Song* editors matched the prescriptions with the descriptions of symptoms, arranged the text by disease categories into 25 chapters in three parts and lastly added select outstanding prescriptions by other physicians of the times, all with the goal of making this text as clinically useful as possible. This *Song* revision has been the standard version of the text ever since and also the version on which subsequent editions such as this one are based. It is thus important for the discerning reader to keep in mind that we are looking at a *Han* dynasty text that was lost for several centuries and reconstructed, rearranged and supplemented by *Song* dynasty scholars approximately eight hundred years later. Praise for *Jin Gui Yao Lue* Essential Prescriptions from the Golden Cabinet. Wiseman and Wilms have exquisitely translated the *Jin Gui Yao Lue*. The English rendering is impeccable, precise and consistent. The detailed commentaries are systematic and comprehensive. Throughout my forty-six years as a clinician I have studied *Zhang Jing*'s writings and prescribed formulas from the *Shanghan Lun* and *Jin Gui Yao Lue*. I hope that this remarkable work in its English translation will help you to draw upon the genius of *Zhang Jing* and to
