Narcissistic Parenting in an Insecure World Harry Hendrick,2016-07-06 In this provocative history of parenting Harry Hendrick analyses the social and economic reasons behind parenting trends He shows how broader social changes including neoliberalism feminism the collapse of the social democratic ideal and the new behaviourism have led to the rise of the anxious and narcissistic parent The book charts the shift from the liberal and progressive parenting styles of the 1940s 70s to the more behavioural punitive and managerial methods of childrearing today made popular by experts such as Gina Ford and Supernanny Jo Frost and by New Labour s parent education programmes This trend Hendrick argues is symptomatic of the sour mean spirited and vindictive social norms found throughout society today It undermines the better instincts of parents and therefore damages parent child relations Instead he proposes parents should focus on understanding and helping their children as they work at growing up **Playing and Reality** Donald Woods Winnicott,1991 Winnicott is concerned with the springs of imaginative living and of cultural experience in every sense with whatever determines an

Rudnytsky, 2013-05-13 Object relations which emphasizes the importance of the preoedipal period and the infant mother relationship is considered by many analysts to be the major development in psychoanalytic theory since Freud In this reinterpretation of its history Peter L. Rudnytsky focuses on two pivotal figures Otto Rank one of Freud's original and most brilliant disciples who later broke away from psychoanalysis and D.W. Winnicott the leading representative of the Independent tradition in British psychoanalysis Rudnytsky begins with an overview arguing that object relations theory can synthesize the scientific and hermeneutic dimensions of psychoanalysis He then uses the ideas of Rank and Winnicott to uncover the preoedipal aspects of Sophocles' *Oedipus the King* After an appraisal of the relationship between Rank and Freud he turns to Rank's neglected writings between 1924 and 1927 and shows how they anticipate contemporary object relations theory Rudnytsky critically measures Winnicott's achievement against those of Heinz Kohut and Jacques Lacan the founders of two competing schools of psychoanalysis and compares Winnicott's life and work with Freud's Next using both published and unpublished accounts by the psychotherapist Harry Guntrip of his analyses with W.R.D. Fairbairn and Winnicott he probes the personal and intellectual interactions among these three British clinicians Rudnytsky concludes by advancing a psychoanalytic theory of the self as a rejoinder to the postmodernism that is the

dominant ideology in literary studies today In two appendices he makes available for the first time an English translation of Rank's *Genesis of the Object Relation* and a 1983 interview with Clare Winnicott
