Zendoodle Basics Felipe Hopkins, 2016-02-10 Art and drawing is a very suggestive thing When taking up art many people feel that they have to make it look like a specific thing For example if you like landscapes you need to make a tree

look like a tree or a rock look like a rock Others tend to drift towards more abstract art forms that make the person viewing the piece of art come up with their own conclusions This is where Zendoodle comes in If you are not an artist or even want to be but you like to doodle and pass the time with simple drawings then this is the perfect art form you can play with In this book we will explore the world of zendoodling and show you that using basic shapes like lines circles curves and more can result in amazing pieces of art I will give you several doodles that you can practice and build upon We will then talk about shapes and other items that you can use for inspiration for creating your own zendoodle work of art So if you have never doodled or drawn before but are interested in making some piece of art or just looking for something to relax from a long day at the office then the world of zendoodle is for you No Rules No Restrictions and Absolute Enjoyment Download your copy of Zendoodled today and see what is taking the art world by storm Getting Your FREE Bonus Read this book to the end and see BONUS Your FREE Gift chapter after the introduction and conclusion
