MODEL "ROYAL 1000"

ALL TRANSISTOR TRANSOCEANIC

PORTABLE RECEIVER

CHASSIS 9CT40Z2

To the Serviceman

The transistor portable chassis is a conventional super-heterodyne receiver using an individual mixer and oscillator to produce the 455 Kc. intermediate frequency. The intermediate frequency amplifiers are conventional. It is necessary to use neutralization in the I.F. amplifier stages as is done when using a triode tube. The 10B-22 diode is used as a detector and AVC voltage source. This diode is part of I.F. Transformer T4. This is then followed by a first audio amplifier and a driver stage for the class B push pull output. The 121-47 output transistors are a matched pair and will be coded with paint dots, red, white, yellow and green. Should one transistor fail it must be replaced with another 121-47 transistor with corresponding color. Do not use 121-47 transistors in pairs unless their color codes are identical.

The iron core stage of the R.F. mixer and oscillator coils have bushings through their centers. This will enable the technician to raise the top slug then drop alignment screw No. 68-12 down through the slug to adjust the slug in the lower coil.

Power Supply — Eight Zenith Z201, 1½ volt or Standard Flashlight Batteries used 12 volts D.C. Approximate battery life 300 hours. One Zenith Z201, 1½ volt or Standard Flashlight Battery for the dial light.

Frequency Range:	
540 to 1600 Kc	11.4 to 12.5 Mc
2 to 4 Mc	14.6 to 15.8 Mc
4 to 9 Mc	17.1 to 18.5 Mc
9.4 to 10.1 Mc	20.7 to 22.0 Mc

Intermediate Frequency:	455 Kc
Power Output Unmodulated:	500 milliwatts
Speakers:	4 inch P.M.
Audios V. Voice Coil Impedance —	3.2 ohms @ 1000 cycles
Accessory Earphone 30-22 Impedance	15 ohms @ 1000 cycles

NECESSARY TEST ASSUMPTIONS

When making resistance measurements in the circuit, it is most important to remove the transistors in the circuit under test otherwise readings obtained will be incorrect. This is the direct result of a transistor acting as a diode.

When making measurements across an electrolytic capacitor, be certain the ohm meter leads are correctly polarized. Also be certain the battery voltage of the meter does not exceed the working voltage of the capacitor. Otherwise damage to the capacitor may result.

VOLTAGE READINGS

It is suggested that a VTVM with an excellent low range scale be used to measure all circuit voltages. All voltages indicated on the accompanying diagrams have been measured under no signal conditions and a custom battery supply voltage of 12.0 volts. Under these no signal conditions, a check can be made of the batteries. With carbon batteries, the total voltage should be 12.0 volts.

COMPONENT REPLACEMENT

When soldering components at the base of the transistor socket, it is suggested that the transistor be removed to avoid any possibility of excessive heat being transferred through the socket to the transistor. When soldering the low voltage electrolytic and germanium diodes, it is suggested that the wire be held with a pair of long nose pliers while soldering. The long nose pliers will act as a heat sink.

TRANSISTORS

At the present time we do not have of any satisfactory commercially available transistor tester.

just of a family but of an entire society a society morally and spiritually vitiated by four decades of totalitarian rule In this his masterful novel *Ant nio Lobo Antunes* one of the most skillful psychological portraitists writing anywhere renders the turpitude of an entire society through an impasto of intensely individual voices The New Yorker The protagonist and anti hero Senhor Francisco a powerful state minister and personal friend of Salazar expects to be named prime minister when Salazar is incapacitated by a stroke in 1968 Outraged that the President Admiral Am rico Tom s appoints not him but Marcelo Caetano to the post Senhor Francisco retreats to his farm in Set bal where he vaguely plots a coup with other ex ministers and aged army officers who feel they ve been snubbed or forgotten But it s younger army officers who in 1974 pull off a coup the Revolution of the Flowers so called since no shots were fired carnations sticking out of the butts of the insurgents rifles ending 42 years of dictatorship Senhor Francisco more paranoid than ever accuses all the workers at his farm of being communists and sends them away with a brandished shotgun remaining all alone a large but empty shadow of his once seeming omnipotence to defend a decrepit farm from the figments of his imagination When the novel opens Senhor Francisco is no longer at the farm but in a nursing home in Lisbon with a bedpan between his legs having suffered a stroke that left him largely paralyzed No longer able to speak he mentally reviews his life and loves His loves In fact the only woman he really loved was his wife Isabel who left him early on when their son Jo o was just a tiny boy Francisco takes up with assorted women and takes sexual advantage of the young maids on the farm the steward s teenage daughter and his secretaries at the Ministry but he can never get over the humiliation of Isabel having jilted him for another man Many years later he spots a commonplace shop girl named Mil who resembles his ex wife He sets the girl and her mother up in a fancy apartment makes her wear Isabel s old clothes and introduces her to Salazar and other government officials as his wife and everyone goes along with the ludicrous sham because everything about Salazar s Estado Novo New State was sham from the rickety colonial empire in Africa to the emasculate political leaders in the home country themselves monitored and controlled by the secret police Once the system of shams tumbles like a castle of cards Francisco s cuckoldry glares at him with even greater scorn than before and all around him lie casualties Mil and her mother return to their grubby notions shop more hopeless than ever because the mother is dying and Mil is suddenly a spinster without prospects The steward with no more farm to manage moves his family into a squalid apartment and gets a job at a squalid factory The minister s son raised by the housekeeper grows up to be good hearted but totally inept so that his ruthless in laws easily defraud him of his father s farm which they turn into a tourist resort The minister s daughter Paula whom he had by the cook and who was raised by a childless widow in another town is ostracized after the Revolution because of who her father was even though she hardly ever knew him Isabel the ex wife also ends up all alone in a crummy kitchenette in Lisbon but she isn t a casualty of Senhor Francisco or of society or of a political regime but of love of its near impossibility Disillusioned by all the relationships she had with men she stoutly resists Francisco s ardent attempts to win her back preferring solitude instead We have to go to the

housekeeper Titina this novel's most compelling character to find hope of salvation however unlikely a source she seems Unattractive and uneducated Titina never had a romantic love relationship though she secretly loved her boss who never suspected She ends up like him in an old folks home and like him she spends her days looking back and dreaming of returning to the farm in its heyday Old age is a great equalizer And yet the two characters are not equal Titina retains her innocence But it's not the innocence of helpless inability the case of Jo o Francisco's son nor is it the pathetic innocence of Romeu the emotionally and mentally undeveloped co worker by whom Paula has a son Titina isn't helpless or ingenuous and she isn't immune to the less than flattering human feelings of jealousy impatience and anger But she never succumbs to baser instincts She knows her worth and cultivates it She is a proud woman but proud only of what she really is and what she has really accomplished in life At one level and it operates at many The Inquisitorsssss Manual is an inquiry into the difficult coexistence of self affirmation and tenderness toward others Their correct balance which equals human dignity occurs in the housekeeper
