Thomas Louis Schubeck

The Sources Of Christian Ethics The Sources Of Christian Ethics:

The Sources of Christian Ethics Servais Pinckaers, 1995 First published in 1985 as *Les sources de la morale chrétienne* by University Press Fribourg this work has been recognized by scholars worldwide as one of the most important books in the field of moral theology *Sources of Christian Ethics* Servais Pinckaers, OP, 1995-07-01 Now available for the first time in English this work is widely recognised as a classic in the field of moral theology *Christian Ethics; Sources of the Living Tradition* Waldo Beach, Helmut Richard Niebuhr, 1973 *Demanding Our Attention* Emily K. Arndt, 2011-03-09 What can we possibly learn about our relationships to others from reading the story of an ancient father who raised a knife to slaughter his beloved only son Contemporary Christian ethicists faced with such dilemmas are often tempted to treat the Hebrew Bible in a limited distanced and even dismissive way Yet Emily Arndt here argues that ancient scriptures can be a vital resource for Christian ethical studies today Focusing on a close analysis of the akedah the story of Abraham's near sacrifice of Isaac she demonstrates the power of even the most troubling and uncomfortable Old Testament narratives to teach valuable ethical lessons Placing ourselves in relationship to such complex perhaps unresolvable and always challenging sacred texts she says is in itself a practice that can help us learn to relate authentically and ethically to others This is a fully formed sophisticated and beautifully written book offering an important contribution to the field of theological ethics A fitting tribute to a scholarly career that was cut short all too soon Jean Porter from the foreword *Basic Christian Ethics* Paul Ramsey, 1950-01-01 This treatise on Christian ethics is one of the most thoughtful and comprehensive presentations of the subject we have had in many years It should be of inestimable value not only to the general reader but also to students and classes in our colleges and seminaries Reinhold Niebuhr Part of Westminster's Library of Theological Ethics series *Christian Ethics* D. Stephen Long, 2010-07-29 This Very Short Introduction to Christian ethics introduces the topic by examining its sources and historical basis D Stephen Long presents a discussion of the relationship between Christian ethics modern and postmodern ethics and explores practical issues including sex money and power Long recognises the inherent difficulties in bringing together Christian and ethics but argues that this is an important task for both the Christian faith and for ethics Arguing that Christian ethics are not a precise science but the cultivation of practical wisdom from a range of sources Long also discusses some of the failures of the Christian tradition including the crusades the conquest slavery inquisitions and the Galileo affair Placing them in the context of the theory and practice of ethics and their historical perspective he notes the challenges they raise for Christian ethics He concludes with a discussion of their implications in the modern era considering how this affects our lives in the present age ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **Liberation Ethics** Thomas Louis Schubeck, 1993-01-01 Thoroughly researched critically reasoned and

well written Schubeck's book is a model of caring and careful discernment Arthur McGovern University of Detroit T&T Clark *Handbook of Christian Ethics* Tobias Winright, 2020-12-10 The T T Clark Handbook of Christian Ethics provides an ecumenical introduction to Christian ethics its sources methods and applications With contributions by theological ethicists known for their excellence in scholarship and teaching the essays in this volume offer fresh purchase on and an agenda for the discipline of Christian ethics in the 21st century The essays are organized in three sections following an introduction that presents the four font approach and elucidates why it is critically employed through these subsequent sections The first section explores the sources of Christian ethics including each of the four fonts scripture tradition experience and reason The second section examines fundamental or basic elements of Christian ethics and covers different methods approaches and voices in doing Christian ethics such as natural law virtue ethics conscience responsibility narrative worship and engagement with other religions The third section addresses current moral issues in politics medicine economics ecology criminal justice and other related spheres from the perspective of Christian ethics including war genetics neuroethics end of life decisions marriage family work sexuality nonhuman animals migration aging policing incarceration capital punishment and more

Approaches to Theological Ethics Maureen Junker-Kenny, 2019-11-14 Maureen Junker Kenny offers a systematic overview of the discipline of theological ethics in the variety of its approaches which draw upon different philosophical traditions and theological visions in treating its sources Part One examines the four sources of theological ethics the Bible tradition philosophical accounts of the human and the individual human sciences Part Two compares five frameworks in English and German speaking theological ethics based on virtue worship natural law autonomy and feminist analyses Part Three compares three types of vision integralist praxis oriented and discourse focused and Junker Kenny concludes by situating the investigation of the discipline within contemporary philosophical and theological exchanges on religion in the public sphere The book provides a framework in which students can locate the specific use of core ethical concepts and argumentations comparing how each approach relates to the Bible to historical reason theological thought practical self understandings and interdisciplinary perspectives on ethics in a scientific and technological culture In an age of globalisation where different cultures religions lifestyles and values meet in the workplace in schools and in public spaces shaped by religious and cultural traditions it is necessary to foster the ability to create possibilities and venues for dialogue between different self understandings Analysing the variety of approaches to theological ethics helps articulate different visions of what constitutes a fulfilled life of how the moral vocation of each human being can be supported and of the role of the Christian faith for ethics
