The Waffen Ss Hitlers Elite Guard At War 1939 45:

The Waffen SS George H. Stein, 1966 This landmark study first published by Cornell University Press in 1966 shows how Hitler's elite army grew from a praetorian guard of barely 28 000 men at the beginning of the Second World War to a combat hardened army of more than 500 000 in 1945 George H Stein examines in detail the structure and organization of the Waffen SS and describes the rigid personnel selection and intensive physical military and ideological training that helped to create the tough and dedicated cadre around which the larger force of the later war years was built

The Waffen SS. Rich, 1973 Dealing with the military phase of Hitler's expansion Rich tells an absorbing story of Germany's relentless drive in every direction and provides a vivid account of the relations between Hitler and his newly acquired subjects and satellites

Hans W Gatzke Political Science Quarterly **Germany and the Second World War** Ralf Blank, Jörg Echternkamp, Karola Fings, Jürgen Förster, Winfried Heinemann, Tobias Jersak, Armin Nolzen, Christoph Rass, 2008-07-03 The Second World War affected the lives and shaped the experience of millions of individuals in Germany soldiers at the front women children and the elderly sheltering in cellars slave labourers toiling in factories and concentration camp prisoners and POWs clearing rubble in the Reich's devastated cities Taking a history from below approach the volume examines how the minds and

behaviour of individuals were moulded by the Party as the Reich took the road to Total War The ever increasing numbers of German workers conscripted into the Wehrmacht were replaced with forced foreign workers and slave labourers and concentration camp prisoners The interaction in everyday life between German civilian society and these coerced groups is explored as is that society's relationship to the Holocaust From early 1943 the war on the home front was increasingly dominated by attack from the air The role of the Party administration police and courts in providing for the vast numbers of those rendered homeless in bolstering civilian morale with miracle revenge weapons propaganda and in maintaining order in a society in disintegration is reviewed in detail For society in uniform the war in the east was one of ideology and annihilation with intensified indoctrination of the troops after Stalingrad The social profile of this army is analysed through study of a typical infantry division The volume concludes with an account of the various forms of resistance to Hitler's regime in society and the military culminating in the failed attempt on his life in July 1944

Fegelein's Horsemen and Genocidal Warfare H. Pieper, 2014-10-20 The SS Cavalry Brigade was a unit of the Waffen SS that differed from other German military formations as it developed a dual role SS cavalrymen both helped to initiate the Holocaust in the Soviet Union and experienced combat at the front

Grand Strategies in War

and Peace Paul M. Kennedy, 1991-01-01 Examines how the US the Soviet Union and various European powers have developed their grand Strategies how they have integrated their political economic and military goals in order to preserve their long term interests in times of war and peace

A European Anabasis Kenneth Estes, 2015-01-19 Kenneth Estes studies the 100 000 West Europeans who fought against Russia as volunteers for the Wehrmacht and Waffen SS A retired Marine Corps lieutenant colonel Estes shows tremendous knowledge of combat and writes gripping battlefield prose Two thirds of the West European volunteers came from Spain and the Netherlands yet Estes demonstrates wide range and covers Flemish Walloon French Danish and Norwegian combat units Avoiding over generalization the author distinguishes carefully among the Danes and Flemings who fought competently with the SS Wiking Division and later with Nordland the courageous but poorly armed Spanish the ill trained Dutch and French in Landstorm Nederland and SS Charlemagne and the Norwegians who after a first wave of enthusiasm held back altogether Estes pulverizes the Nazi propaganda notion of a multinational European army defending Western civilization against Bolshevism He shows that West Europeans mainly of the urban working classes volunteered from a mix of motives adventure seeking ideology hopes of personal advantage or material gain a desire for better food or a wish to escape a criminal record at home He demonstrates that the best performing foreign legions were trained and led by German officers and formed parts of larger SS units and also that the Wehrmacht placed little value on foreign formations until its other manpower reserves ran out in 1944 45 This is a landmark work on a subject which has been much written about but rarely understood or described as perceptively as in the pages of this book

Makers of Modern Strategy from Machiavelli to the Nuclear Age Peter Paret, Gordon A. Craig, Felix Gilbert, 1986-10-30 War cannot be controlled in future without an understanding of its past These essays analyse war its strategic characteristics and its political and social functions over the past five centuries

Understanding Nazi Ideology Carl Müller Frøland, 2020-03-06 Nazism was deeply rooted in German culture From the fertile soil of German Romanticism sprang ideas of great significance for the genesis of the Third Reich ideology notions of the individual as a mere part of the national collective and of life as a ceaseless struggle between opposing forces This book traces the origins of the political religion of Nazism Ultra nationalism and totalitarianism racial theory and anti Semitism nature mysticism and occultism eugenics and social Darwinism adoration of the Fuhrer and glorification of violence all are explored The book also depicts the dramatic development of the Nazi movement and the explosive impact of its political faith racing from its bloody birth in the trenches of World War I to its cataclysmic climax in the Holocaust and World War II

Islam and Nazi Germany's War David Motadel, 2014-11-30 With troops fighting in regions populated by Muslims from the Sahara to the Caucasus Nazi officials saw Islam as a powerful force with the same enemies as Germany the British Empire the Soviet Union and the Jews David Motadel provides the first comprehensive account of Berlin s ambitious attempts to build an alliance with the Islamic world

Beyond Totalitarianism Michael Geyer, Sheila Fitzpatrick, 2009 These essays rethink the nature of Stalinism and

Nazism and establish a new methodology for viewing their histories that goes well beyond outdated twentieth century models of totalitarianism ideology and personality They offer a new understanding of the intertwined trajectories of socialism and nationalism in European and global history **Building a Nazi Europe** Martin R. Gutmann, 2018-12-20 A compelling account of the men who worked and fought for Nazi terror organization the SS during the Second World War **Foreign Affairs Bibliography** , 1962 Doctors Under Hitler Michael H. Kater, 2005-10-12 A brilliant attempt to explain the profound historical crisis into which medicine had plummeted during the Nazi period with the tried methods of social history Historische Zeitschrift The author has drawn from an extraordinary range of sources and the weight of evidence he compiles will certainly give pause to anyone who still wants to believe that professionals kept their hands clean in this era of great and methodical crimes Journal of Modern History Kater's important book deserves close attention from historians of medicine and German historians alike Isis In this history of medicine and the medical profession in the Third Reich Michael Kater examines the career patterns educational training professional organization and political socialization of German physicians under Hitler His discussion ranges widely from doctors who participated in Nazi atrocities to those who actively resisted the regime's perversion of healing to the vast majority whose ideology and behavior fell somewhere between the two extremes He also takes a chilling look at the post Hitler medical establishment's problematic relationship to the Nazi past **Toward a Brotherhood of Arms** Mark Philip Gingerich, 1991 The Battle for Moscow David Stahel, 2015-01-22 In November 1941 Hitler ordered German forces to complete the final drive on the Soviet capital now less than 100 kilometres away Army Group Centre was pressed into the attack for one last attempt to break Soviet resistance before the onset of winter From the German perspective the final drive on Moscow had all the ingredients of a dramatic final battle in the east which according to previous accounts only failed at the gates of Moscow David Stahel challenges this well established narrative by demonstrating that the last German offensive of 1941 was a forlorn effort undermined by operational weakness and poor logistics and driven forward by what he identifies as National Socialist military thinking With unparalleled research from previously undocumented army files and soldiers letters Stahel takes a fresh look at the battle for Moscow which even before the Soviet winter offensive threatened disaster for Germany's war in the east
