The Sociology Of Spatial Inequality:

The Sociology of Spatial Inequality Linda M. Lobao, Gregory Hooks, Ann R. Tickamyer, 2012-02-01 2007 CHOICE Outstanding Academic Title Sociologists have too often discounted the role of space in inequality This book showcases a recent generation of inquiry that attends to poverty prosperity and power across a range of territories and their populations within the United States addressing spatial inequality as a thematically distinct body of work that spans sociological research traditions The contributors various perspectives offer an agenda for future action to bridge sociology s diverse and often narrowly focused spatial and inequality traditions

The Sociology of Development Handbook Gregory Hooks, 2016-09-06 This handbook brings together essays by leading contributors to development sociology by addressing intellectual challenges internal and international migration transformation of political regimes globalization changes in household and family formations gender dynamics technological change population and economic growth environmental sustainability peace and war and the production and reproduction of social and economic inequality The Sociology of Development Handbook includes essays that reflect the range of debates in development sociology and in the interdisciplinary study and practice of development Provided by publisher

Routledge International Handbook of Rural Studies Mark Shucksmith, David L. Brown, 2016-05-20 Rural societies around the world are changing in fundamental ways both at their own initiative and in response to external forces The Routledge International Handbook of Rural Studies examines the organisation and transformation of rural society in more developed regions of the world taking an interdisciplinary and problem focused approach Written by leading social scientists from many countries it addresses emerging issues and challenges in innovative and provocative ways to inform future policy This volume is organised around eight emerging social economic and environmental challenges Demographic change Economic transformations Food systems and land Environment and resources Changing configurations of gender and rural society Social and economic equality Social dynamics and institutional capacity Power and governance Cross cutting these challenges are the growing interdependence of rural and urban the rise in inequality within and between places the impact of fiscal crisis on rural societies neoliberalism power and agency and rural areas as potential sites of resistance The Routledge International Handbook of Rural Studies is required reading for anyone concerned with the future of rural areas

Fragments of Inequality Sanjoy Chakravorty, 2014-06-03 Fragments of Inequality merges sociological geospatial and economic explanations of global inequality into a grand synthesis of the subject that breaks new ground by stressing the phenomenon s spatial foundations Concentrating on inequality within and between regions the book demonstrates that spatial inequality has increased in recent years It employs modified evolutionary principles i e punctuated equilibrium not entirely smooth and linear in terms of chronological development rather than the more abstract ones of rationality and self interest that economists use and on a fragmented rather than abstract conception of space Global in its empirical coverage it also

addresses the current impact of economic globalization Bathroom Battlegrounds Alexander K. Davis, 2020-01-28 Today's debates about transgender inclusion and public restrooms may seem unmistakably contemporary but they have a surprisingly long and storied history in the United States one that concerns more than mere potty politics Alexander K Davis takes readers behind the scenes of two hundred years worth of conflicts over the existence separation and equity of gendered public restrooms documenting at each step how bathrooms have been entangled with bigger cultural matters the importance of the public good the reach of institutional inclusion the nature of gender difference and above all the myriad privileges of social status Chronicling the debut of nineteenth century comfort stations twentieth century mandates requiring equal but separate men's and women's rooms and twenty first century uproar over laws like North Carolina's bathroom bill Davis reveals how public restrooms are far from marginal or unimportant social spaces Instead they are and always have been consequential sites in which ideology institutions and inequality collide Cities, Change, and Conflict Nancy Kleniewski, Alexander R. Thomas, Gregory Fulkerson, 2024-06-28 Cities Change and Conflict was one of the first texts to embrace the perspective of political economy as its main explanatory framework and then complement it with the rich contributions of human ecology as well as perspectives derived from critical approaches to social theory Although its primary focus is on North American cities the book contains several chapters on cities in other parts of the world including the Global North and Global South It provides both historical and contemporary accounts of the impact of globalization on urban development and urban institutions This sixth edition features a new groundbreaking chapter on the relationship between the physical environment and human settlements including the urban rural nexus This edition also expands and updates coverage of recent trends such as the establishment and evolution of gay neighborhoods the suburbanization of immigrant groups the situation of the immigrant youth known as Dreamers the reverse migration of Blacks from the North to the South and the proliferation of exurban communities Beyond examining the dynamics that shape the form and functionality of cities the text surveys the experience of urban life among different social groups including a new perspective on intersectionality as it affects people's experiences in cities It illuminates the workings of the urban economy local and federal governments and the criminal justice system while addressing policy debates and decisions that affect almost every aspect of urbanization and urban life Rural and Small-Town America Tim Slack, Shannon M Monnat, 2024-08-06 Contemporary America is centered around urban society Most Americans reside in cities or their surrounding suburbs and both the media and modern American sociology focus disproportionately on urban life Rural and Small Town America looks at what we can learn from rural society and confronts common myths and misunderstandings about rural people and places Tim Slack and Shannon M Monnat examine social economic and demographic changes and how these changes pose both problems and opportunities for rural communities They assess changes in population size and composition economies and livelihoods ethnoracial diversity and inequities population health and health disparities and politics and policies The central focus of this book is that rural

America is no paragon of stability Social change abounds accompanied by new challenges Through analysis of empirical evidence demographic data and policy debates readers will glean insights about rural America and the United States as a whole

Rethinking Rural Studies David L. Brown, Mark Shucksmith, 2024-09-06 Rethinking Rural Studies presents an explicitly trans disciplinary perspective on rural social science David L Brown and Mark Shucksmith identify emerging issues and research avenues on the topic highlighting opportunities for rural studies to contribute towards greater collective wellbeing

Rethinking Taxation in Latin America Jorge Atria, Constantin Groll, Maria Fernanda Valdés, 2017-11-22 This study of taxation in Latin America takes a novel approach to the subject using a framework that posits three dimensions for studying taxes historical relational and transnational The book argues that first taxation should be understood as a relational concept and tax systems as a function of a strategic nexus between the state and society second that any analysis of tax systems across Latin America needs to take historical legacies of national tax systems into account and finally that transnational phenomena have significant implications for tax regime dynamics in Latin America The essays included provide diverse and representative insights for a new understanding of taxation in Latin America and highlight the bottlenecks to the development of sustainable tax systems in the region exploring new links between academic research and policy making

Rationalizing Rural Area Classifications for the Economic Research Service National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Committee on National Statistics, 2016-01-05 The U S Department of Agriculture Economic Research Service USDA ERS maintains four highly related but distinct geographic classification systems to designate areas by the degree to which they are rural The original urban rural code scheme was developed by the ERS in the 1970s Rural America today is very different from the rural America of 1970 described in the first rural classification report At that time migration to cities and poverty among the people left behind was a central concern The more rural a residence the more likely a person was to live in poverty and this relationship held true regardless of age or race Since the 1970s the interstate highway system was completed and broadband was developed Services have become more consolidated into larger centers Some of the traditional rural industries farming and mining have prospered and there has been rural amenity based in migration Many major structural and economic changes have occurred during this period These factors have resulted in a quite different rural economy and society since 1970 In April 2015 the Committee on National Statistics convened a workshop to explore the data estimation and policy issues for rationalizing the multiple classifications of rural areas currently in use by the Economic Research Service ERS Participants aimed to help ERS make decisions regarding the generation of a county rural urban scale for public use taking into consideration the changed social and economic environment This report summarizes the presentations and discussions from the workshop
