The Sound I Saw Improvisation On A Jazz Theme

Roy Decarava

The Sound I Saw Improvisation On A Jazz Theme:

The Sound I Saw ,2003 The Sound I Saw Roy DeCarava,2001-09-13 This is the long awaited publication of a moving masterwork by one of the greatest photographers of our time Conceived designed written and made by hand as a prototype by master photographer Roy DeCarava b 1919 in the early 1960s yet unpublished for nearly half a century The Sound I Saw has largely existed as a legend among the cognoscenti of the photography world Presented as a stream of 196 soulful images interspersed with DeCarava s own evocative poetry the book is in its form and effect the printed equivalent of jazz This is a book about people about jazz and about things The work between its covers tries to present images for the head and for the heart and like its subject matter is particular subjective and individual writes the author DeCarava is a life long New Yorker who from his immediate world creates images that transcend the specific to depict universal themes of joy anticipation pain and survival Largely unpublished he was first recognized for his images of daily life in Harlem the subject of The Sweet Flypaper of Life his 1955 collaboration with Harlem Renaissance poet Langston Hughes and portraits of musicians like Duke Ellington and Billie Holiday It is these two themes Harlem and jazz interwoven and inseparable that are the ostensible subject of the book However the seemingly casual yet deeply felt compositions and the deep rich tones of DeCarava s photographs stir emotions that resonate far beyond one neighbourhood and one era The Hearing Eye Graham Lock,David Murray,2009-01-02 The widespread presence of jazz and blues in African American visual art has long been overlooked The Hearing Eye makes the case for recognizing the music s importance both as formal template and as explicit subject matter Moving on from the use of iconic musical figures and motifs in Harlem Renaissance art this groundbreaking collection explores the more allusive and elusive references to jazz and blues in a wide range of mostly contemporary visual artists There are scholarly essays on the painters Rose Piper Graham Lock Norman Lewis Sara Wood Bob Thompson Richard H King Romare Bearden Robert G O Meally Johannes V lz and Jean Michel Basquiat Robert Farris Thompson as well an account of early blues advertising art Paul Oliver and a discussion of the photographs of Roy DeCarava Richard Ings These essays are interspersed with a series of in depth interviews by Graham Lock who talks to quilter Michael Cummings and painters Sam Middleton Wadsworth Jarrell Joe Overstreet and Ellen Banks about their musical inspirations and also looks at art s reciprocal effect on music in conversation with saxophonists Marty Ehrlich and Jane Ira Bloom With numerous illustrations both in the book and on its companion website The Hearing Eye reaffirms the significance of a fascinating and dynamic aspect of African American visual art that has been too long neglected Jazz and American Culture Michael Borshuk,2023-11-30 This book explores jazz as a cultural lodestone and source of critical inquiry for over a century **The Jazz Image** K. Heather Pinson,2010-12-01 Typically a photograph of a jazz musician has several formal prerequisites black and white film an urban setting in the mid twentieth century and a black man standing playing or sitting next to his instrument That s the jazz archetype that photography created Author K Heather Pinson discovers how such a steadfast

script developed visually and what this convention meant for the music Album covers magazines books documentaries art photographs posters and various other visual extensions of popular culture formed the commonly held image of the jazz player Through assimilation there emerged a generalized composite of how mainstream jazz looked and sounded Pinson evaluates representations of jazz musicians from 1945 to 1959 concentrating on the seminal role played by Herman Leonard b 1923 Leonard s photographic depictions of African American jazz musicians in New York not only created a visual template of a black musician of the 1950s but also became the standard configuration of the music s neoclassical sound today To discover how the image of the musician affected mainstream jazz Pinson examines readings from critics musicians and educators as well as interviews musical scores recordings transcriptions liner notes and oral narratives John Coltrane and Black America's Quest for Freedom Leonard Brown,2010-09-09 Edited by prominent musician and scholar Leonard Brown John Coltrane and Black America s Quest for Freedom Spirituality and the Music is a timely exploration of Coltrane s sound and its spiritual qualities that are rooted in Black American music culture and aspirations for freedom A wide ranging collection of essays and interviews featuring many of the most eminent figures in Black American music and jazz studies and performance Tommy Lee Lott Anthony Brown Herman Gray Emmett G Price III Tammy Kernodle Salim Washington Eric Jackson TJ Anderson Yusef Lateef Billy Taylor Olly Wilson George Russell and a never before published interview with Elvin Jones the book examines the full spectrum of Coltrane s legacy Each work approaches this theme from a different angle in both historical and contemporary contexts focusing on how Coltrane became a quintessential example of the universal and enduring qualities of Black American culture **Creating Visual Narratives Through Photography** Mike

Davis,2022-12-26 This book provides photographers with the foundation to craft more compelling photos from concept all the way through to creation and distribution on the path to making a living Based on real life practice and experience former National Geographic and White House visual editor Mike Davis takes readers on a journey starting with addressing the motivation behind an image and how this determines the rest of the creative process He goes on to articulate best technical practices to create the narrative through photo composition and what to do with your work after the photos are completed Each section offers exercises for applied learning and a series of appendices cover assignments structures a compilation of critical words and concepts a comprehensive resource guide of organizations competitions grants collectives and agencies book publishers and printers and more This is an ideal resource for students and practitioners alike to gain a more informed understanding of photographic expression and learn how to effectively execute these visions The Racial Unfamiliar John Brooks,2022-08-30 The works of African American authors and artists are too often interpreted through the lens of authenticity They are scrutinized for positive or negative representations of Black people and Black culture or are assumed to communicate some truth about Black identity or the Black experience However many contemporary Black artists are creating works that cannot be slotted into such categories Their art resists interpretation in terms of conventional racial

discourse instead they embrace opacity uncertainty and illegibility John Brooks examines a range of abstractionist experimental and genre defying works by Black writers and artists that challenge how audiences perceive and imagine race He argues that literature and visual art that exceed the confines of familiar conceptions of Black identity can upend received ideas about race and difference Considering photography by Roy DeCarava installation art by Kara Walker novels by Percival Everett and Paul Beatty drama by Suzan Lori Parks and poetry by Robin Coste Lewis Brooks pinpoints a shared aesthetic sensibility In their works the devices that typically make race feel familiar are instead used to estrange cultural assumptions about race Brooks contends that when artists confound expectations about racial representation the resulting disorientation reveals the incoherence of racial ideologies By showing how contemporary literature and art ask audiences to question what they think they know about race *The Racial Unfamiliar* offers a new way to understand African American cultural production

Miles Davis Clarence Bernard Henry, 2017-08-15 This research and information guide provides a wide range of scholarship on the life career and musical legacy of Miles Davis and is compiled for an interdisciplinary audience of scholars in jazz and popular music musicology and cultural studies It serves as an excellent tool for librarians researchers and scholars sorting through the massive amount of material in the field **Urban Encounters** Helen Liggett, 2003 American intellectuals tend to envision the modern city as a dystopia their perception of urban life influenced by negative stereotypes and fictional depictions in popular culture the author challenges this fatalism by approaching the city as a vibrant lived space Combining a sophisticated critique of the urban with striking street level images the author reclaims the human experience of the city
