they fight the better they like it Whenever they discover another intelligent race they force them into combat whether they want it or not When humans are warned of an inevitable confrontation with the Tyrell they attempt to form a multi species Alliance but the challenges are great and they know it s only a matter of time before a Tyrell fleet of massive ships will arrive in Earth orbit Cate Harrow and Gort Eagleton are two Aerospace Force officers with the kind of strategic and tactical skills that the Alliance needs to win this war but before they can even begin to defeat the Tyrell they must survive the incompetent leadership that threatens complete disaster Defeating the Tyrell will be far more difficult than the Alliance initially believes unless they can discover their one weakness This action packed series has lots of space battles and political intrigues as well as personal triumphs and tragedies Excerpt Flight Ops to Skydiver You and your squadron have the green light Commander Good luck Thanks Ops Skydiver to Squadron We have a green light Sound off when you ve undocked in sequence order Here we go She turned and nodded to her co pilot who would maneuver the corvette out the half kilometer wide maw of the carrier Ranger while she monitored the rest of the squadron As Skydiver gently pulled away from the docking bay then past the baffles and moved towards the opening Harrow switched one of her displays to the rear external view using computer enhancement to compensate for the low level of light inside the main hangar space Each corvette in the squadron was undocking and maneuvering in a specified sequence in order to avoid collisions Skydiver is clear of Ranger said the co pilot As the ship began to accelerate Harrow watched the carrier start to recede into the distance Just as she began to shift her gaze she saw a streak of light hit Ranger from below penetrate up through the interior of the huge hangar and come out the top of the ship FLIGHT OPS WHAT THE HELL shouted Harrow BEEN HIT RANGER S BEEN HIT Harrow recognized the voice of the Flight Operations Duty Officer OH GOD BISMARCK REPORTS BEING HIT TOO Harrow thought fast The Tyrell had obviously detected the four carriers and were firing their long range faster than light kinetic energy projectiles from below The mission was clearly compromised and to her way of thinking getting the carriers to a safe distance was now not only their top priority it was their only priority SL to Flag said Harrow quickly We re kinda busy right now Commander Harrow didn t know who was replying but she did know it wasn t Vice Admiral LeClair and that s who she wanted to talk to You tell the Admiral that he needs to order his carriers to jump RIGHT NOW Goddamit We re sitting ducks here Without waiting for a reply she turned to the co pilot How many of our ships have cleared the Ranger They re all out Do we try to dock again God no No time for that We ll have to catch up with her at the rally point if our carriers bug out in time She looked at the display that was still showing a now much smaller Ranger Come on TFL Give the order Flight Ops to squadron Ranger is heading for the rally point now Meet us th The voice cut off at the same instant as the distant carrier vanished from view Ranger s jumped away yelled the co pilot Bismark Sea is gone too

Scimitar's Glory is the first book in a new fast paced action packed military SF series Swordships Odyssey The second book Excalibur's Quest is also now available

Excerpt With a long risky jump like this Dejanus would have expected Corregidor's astrogational AI to take at least ten minutes to aim the ship as precisely as possible to the distant star's center She was therefore surprised and somewhat alarmed when the flagship signaled to the rest of the fleet that they could start to match her trajectory after only half that time

Goddammit what's the rush she said to Koenig who was the only other human on the Bridge There's no possible way the Jab fleet can catch us before we jump even if we take another hour to do it Why not take a few extra minutes to get the most accurate trajectory possible When it became clear that Koenig had nothing to say she continued Astro I want you to check the flagship's alignment with Alpha9 while we match vectors Let me know if you think the flagship's vector could be better That extra task delayed Excalibur's alignment and therefore she became the last ship in the fleet to signal her readiness for the jump

Fleet Commander on Tac2 Commander said the com AI Dejanus switched channels to her Command Pod Excalibur Actual speaking said Dejanus in the formal form of address that ship COs normally didn't bother with What's taking your Astro so long to get aligned Commander Rostov didn't bother to hide his annoyance Just double checking the overall jump trajectory Admiral Dejanus thought she heard Rostov swear under his breath but it could have been her imagination You tell your Astro that if Excalibur isn't aligned in the next two minutes I'll order him replaced and transferred to a cargo hauler FC out

The astro AI managed to get the ship aligned within the deadline to no one's surprise With all ships in the fleet now aligned perfectly with the flagship and jump velocity attained the order was given to enter hyperspace It was 131.3 hours later when both Koenig and Dejanus were on the Bridge again watching the jump chronometer countdown to the second when the ship should drop back down into normal space Koenig watched the countdown clock hit zero and then start counting up again After ten more seconds Dejanus began shaking her head She had a horrified expression on her face We've

missed That bastard has killed us all **Excalibur's Quest** Dietmar Arthur Wehr,2018-04-30 In Scimitar's Glory the alien Tong won the Battle for Earth and took control of the orbital space around the planet Humanity is now at their mercy but not all Space Force warships have been defeated Wolfe Koenig's light cruiser Excalibur is on a mission to acquire technology that just might enable the ragged remnants of the Fleet to snatch victory from the jaws of defeat if he can find an alien race with that technology if he can convince them to trade for it and if the technology can be exploited fast enough Excalibur's Quest is the story of that mission and the challenges both alien and human that Koenig faces This is the second book in the action packed military SF Swordships Odyssey series Megabook of Military SF and Technothrillers Dietmar Arthur Wehr,2020-12-16 This megabook contains six complete novels where each one is the first novel in a series In addition there is also the first in a series of three linked short stories plus the first three chapters of six stand alone novels including two technothrillers Links to all series and stand alone books can be found via the link to the author's website which is included in the megabook All the material in the megabook has been written by Dietmar Arthur Wehr a USA Today bestselling author
