Illustrated with Several Views, Etc, 1849 *Talking Book Topics*, 2004 Includes audio versions and annual title author index **The English Garden Abroad** Charles Quest-Ritson, 1992 Recreates the world of forgotten gardens and their valiant if often eccentric owners The reader is brought right up to date with the explosion of gardening among English people now living in southern Europe and such contemporary gardens such as the Caetani Howard paradise at Ninfa *Of Books and Botany in Early Modern England* Leah Knight, 2016-12-05 Contemplating the textual gardens poetic garlands and epigrammatic groves which dot the landscape of early modern English print Leah Knight exposes and analyzes the close configuration of plants and writing in the period She argues that the early modern cultures and cultivation of plants and books depended on each other in historically specific and novel ways that yielded a profusion of linguistic conceptual metaphorical and material intersections Examining both poetic and botanical texts as well as the poetics of botanical texts this study focuses on the two outstanding English botanical writers of the sixteenth century William Turner and John Gerard to suggest the unexpected historical relationship between literature and science in the early modern genre of the herbal In depth readings of their work are situated amid chapters that establish the broader context for the interpenetration of plants and writing in the period s cultural practices in order to illuminate a complex interplay between materials and discourses rarely considered in tandem today *The English Garden*, 1979 *Gardeners' Chronicle and Agricultural Gazette*, 1867 *Tercentenary Handlist of English & Welsh Newspapers, Magazines & Reviews ...* Roland Austin, 1920 Touring and Publicizing England's Country Houses in the Long Eighteenth Century Jocelyn Anderson, 2018-02-22 Over the course of the long 18th century many of England s grandest country houses became known for displaying noteworthy architecture and design large collections of sculptures and paintings and expansive landscape gardens and parks Although these houses continued to function as residences and spaces of elite retreat they had powerful public identities increasingly accessible to tourists and extensively described by travel writers they began to be celebrated as sites of great importance to national culture This book examines how these identities emerged repositioning the importance of country houses in 18th century Britain and exploring what it took to turn them into tourist attractions Drawing on travel books guidebooks and dozens of tourists diaries and letters it explores what it meant to tour country houses such as Blenheim Palace Chatsworth Wilton Kedleston and Burghley in the tumultuous 1700s It also questions the legacies of these early tourists both as a critical cultural practice in the 18th century and an extraordinary and controversial influence in British culture today country house tourism is a phenomenon that demands investigation **Gardeners' Chronicle**, 1867 **The Flowering of the Landscape Garden** Mark Laird, 1999-03-23 Mark Laird offers a wealth of visual and literary materials to revolutionize our understanding of the English landscape garden as a powerful cultural expression *New Directions in Garden Tourism* Richard W. Benfield, 2020-12-08
