Liabilities and Modern Artificial Intelligence Estelle Wallingford, 2025-09-09 This book addresses how private law liability should be assigned in contexts where modern forms of AI are deployed AI as a technology holds the potential to radically improve global society yet the pace of its advancement far outstrips the pace at which legal systems are responding This book explores legal approaches to AI how AI should be legally characterised and proposes an overarching theoretical liability framework termed the Tri Phase AI Liability Model This framework is flexible in nature and considers the type of AI the context in which it is deployed who has the most control over the AI system and the capacity of a deployed AI In response this book brings greatly needed clarity to the evolving landscape of AI governance aiding in resolving existing and emerging private law challenges This book is a timely response to the urgent need to resolve private law liabilities and will appeal to legal professionals policy makers and scholars looking to understand or contribute to the current and future governance of AI within private law

Football Trafficking Ini-Obong Nkang, 2024-12-31 This book provides a comprehensive analysis of the illicit practice of football trafficking focusing on the exploitation of underage African players being transferred to Europe It delves into the broader context of human trafficking examining relevant international laws and their application to football Through critical analysis of FIFA's regulatory framework the book questions the effectiveness of the organisation's current anti trafficking policies and proposes actionable solutions for reform By integrating theoretical insights with practical recommendations the book outlines strategies such as Sport for Development and Peace SDP programmes and child centred approaches to protect vulnerable young athletes and address some of the core factors that drive the occurrence of the crime This book is an essential resource for scholars policymakers legal professionals and stakeholders in the sports industry It offers valuable insights into the complex interplay between sports law and human rights making it particularly relevant for those interested in sports law international law and human trafficking prevention Readers will benefit from the book's in depth exploration of the regulatory challenges at play and the array of proposed remedies giving readers a deeper understanding of how to create a safer and more ethical environment for the at risk youths involved in football globally

Routledge Handbook of Policy Design Michael Howlett, Ishani Mukherjee, 2018-07-17 Uniting theoretical bases and advancements in practice the Routledge Handbook of Policy Design brings together leading experts in the academic field of policy design in a pioneering effort of scholarship Each chapter provides a multi topic overview of the state of knowledge on how why where or when policies are designed and how such designs can be improved These experts address how a new emphasis on effective policy design has re emerged in public policy studies in recent years and clarify the role of historical policy decisions policy capacities and government intentions in promoting a design orientation towards policy formulation

and policy making more generally They examine many previously unexplored aspects of policy designs and designing activities which focus upon analyzing and improving the sets of policy tools adopted by governments to correct policy problems Ranging from the fundamentals of policy design and its place in greater policy studies to new questions regarding policy design content and effectiveness to contemporary design trends such as the use of digital tools and big data the Routledge Handbook of Policy Design is a comprehensive reference for students and scholars of public policy public administration and public management government and business Corporate Governance in Africa Victor Edidiagbonya,2024-12-31 This book discusses the issue of limited stakeholder recognition and protection of stakeholder interests within the Anglo Saxon corporate governance model practised in many sub Saharan African countries The volume argues that the relative success of the Anglo Saxon model in developed economies is attributed to the presence of functional institutions such as effective legal systems active external markets for corporate control and organised civil societies among others Many African countries such as Nigeria and South Africa have adopted the UK corporate governance framework despite facing challenges occasioned by an inefficient legal system plagued by systemic corruption Given the challenging institutional contexts in African countries this book proposes an alternative corporate governance framework the functional stakeholder model FSM for the banking industry in countries facing similar institutional challenges the FSM aims to promote stakeholder recognition and the protection of stakeholders interests The book draws on stakeholder and institutional theories in designing an alternative corporate governance model the FSM for banks operating in challenging institutional contexts The book will interest regulators bankers auditors academia policymakers and researchers in comparative corporate governance and financial regulation especially banking regulation and stakeholders in developing and emerging markets
