Using Trauma Focused Therapy Stories Interventions For Therapists Children And Their Caregivers:

Using Trauma-Focused Therapy Stories Pat Pernicano, 2014-02-03 Using Trauma Focused Therapy Stories is a groundbreaking treatment resource for trauma informed therapists who work with abused and neglected children ages nine years and older as well as their caregivers. The therapy stories are perfect accompaniments to evidence based treatment approaches and provide the foundation for psychoeducation and intervention with the older elementary aged child or early pre teen. Therapists will also benefit from the inclusion of thorough guides for children and caregivers which illustrate trauma and developmental concepts in easy to understand terms. The psychoeducational material in the guides written at a third to fourth grade reading level may be used within any trauma informed therapy model in the therapy office or sent home for follow up. Each therapy story illustrates trauma concepts, guides trauma narrative and cognitive restructuring work and illuminates caregiver blind spots. The caregiver stories target issues that often become barriers to family trauma recovery. No therapist who works with young trauma survivors will want to be without this book and school based professionals, social workers, psychologists and others committed to working with traumatized children will find the book chock full of game changing ideas for their practice.
