True Stories On Road Ghosts And Phantom Hitchhikers:

The Evidence for Phantom Hitch-Hikers Michael Goss,2015-04-01 All over the world motorists report giving lifts to hitch hikers who then vanish ghostlike into thin air Phantom Hitch Hikers as these insubstantial passengers are called have become classified as an urban legend and have been related to historical tales of supernatural traveling companions But is there more to such stories than picturesque folklore Are there genuine paranormal experiences behind the reports Goss explores the meaning and causes of this phenomenon In terms of purpose and behavior the Phantom Hitch Hiker of urban folklore is a thoroughly conventional ghost one who matches popular expectations of what a ghost is what it does and why He or she is the spirit of a deceased person the victim of a tragic accident which resulted in the premature termination of earthly existence It would appear that these ghosts are motivated by especially on the anniversaries of their unfortunate accidents a desire to complete their unfinished homeward journeys It would also appear that they do not know that they are dead This is the most comprehensive study of a peculiar phenomenon that has mystified students of the paranormal for centuries Goss study will entertain and inform anyone who enjoys a good ghost story and anyone who is interested in understanding the mysterious and unexplained

Contemporary Legend ,1999 **True Ghost Stories** Zachery Knowles,2018-10-24 Looking for a Scare Then Read These 19 Spine chilling Stories Are you ready for a different take on the true stories of hauntings across the world How about roads and highways that are haunted by spirits and ghosts some of which seem to have quite evil intentions Dangerous roads haunted by ghosts that seem determined to add to their number by causing car wrecks and a tunnel haunted by ancient warriors angry their graves were disturbed will be explored A clown that appears by the side of the road and disappears as

your car draws near or an auto accident that was witnessed months after it happened are some of the many hauntings to be discovered in this book. Animals that exhibit the symptoms of rabies the moment their feet touch the street or an aggressive ghoulie car responsible for the deaths of a group of teenagers almost 50 years ago. A woman still trying to get help for her newlywed husband trapped in their vehicle after an accident unaware it's too late for either of them and a police officer who relives his death every time he pulls over another speeding car are just a few of the true stories of haunted highways and roads you will find within the pages of this disturbing book. India, China, Wales, Scotland, England, Australia, and the United States all have roads, streets, interstates, routes, and highways that connect one end of a country to the other. There are hundreds of thousands of roads and streets that no one experiences anything mysterious upon. Then there is a handful of streets notorious for the abnormal, disturbing, paranormal things that occur on or near them on a regular basis. While some of these hauntings only began recently, others extend back hundreds of years when the roads were dirt trails. Some of these haunted avenues are infamous like those along Tuen Mun Road in Hong Kong, Archer Avenue in Chicago, or Mona Lisa Drive in New Orleans. Those more unknown are equally horrifying like along A541 in Pontblyddyn, Wales, and Route 2A in Maine. Regardless, you will agree this book comprises the scariest, most disturbing true tales of haunted roads and highways. One of the most unusual aspects of these stories when compared to most true horror stories is that just about every eyewitness encounter in the chapters of this book was experienced by someone who wasn't out looking to encounter the supernatural. These people were minding their own business when they were thrown first hand into experiences beyond the natural that would mark them for life, which means it could happen to you too. Are you ready to never feel quite as comfortable driving along the road in the dark? Then this book is exactly what you need. Ready to scare yourself senseless? Scroll to the top of the page and hit buy.

American Folktales Carl Lindahl, 2004. Publisher's description: This two volume collection of folktales represents some of the finest examples of American oral tradition. Drawn from the largest archive of American folk culture, The American Folklife Center at the Library of Congress, the first of its kind set includes magic tales, legends, jokes, tall tales, and personal narratives over 200 in all, many of which have never been previously transcribed or published. Eminent folklorist and award winning author Carl Lindahl selected and transcribed over 200 recording sessions, many from the 1920s and 1930s that span the twentieth century, including recent material drawn from the September 11th project. This varied collection is organized in chapters by storyteller, tale type, or region, representing diverse American cultures from Appalachia and the Midwest to Native American and Latino traditions. Each chapter begins by discussing the storytellers and their oral traditions and then introduces and presents each tale so that the collection is equally accessible to high school students, general readers, or scholars. Multiple indexes further aid in locating tales by motif and tale type, storyteller, and geographical
