

Trumpet: Range Exercise

Gary Bridgewater

This musical score is a range exercise for trumpet, consisting of eight staves of music. Each staff begins with a measure number: 1, 5, 9, 13, 17, 21, 25, and 29. The exercise is written in treble clef and 2/4 time. The melody consists of quarter notes, with pairs of notes (measures 2-3, 4-5, 6-7, 8-9, 12-13, 14-15, 16-17, 20-21, 22-23, 24-25, 28-29) beamed together and marked with a slur. The notes ascend stepwise from the first staff to the eighth, covering a range of two octaves and a major third. The final measure of the eighth staff ends with a double bar line.

Trumpet Range, Endurance, and Flexibility Ralph P Davella, 2022-02-16 My name is Ralph Davella a lifetime Carmine Caruso student The foundation of this book is based on the years of lessons i had with the legendary brass teacher Carmine Caruso Carmine taught at his studio on West 64th Street in New York City After my lessons Carmine would allow me to sit and watch him teach An annual event in Manhattan was the international Brass conference Renowned brass players from all around the world would fly in for this event Many of these professional brass players would schedule a lesson with Carmine Caruso months ahead of time Some of these famous musicians were having trouble with their embouchure for various reasons Sometimes because of there demanding playing schedule and many because they were lead players and the demands of playing lead with all the upper register work would take its toll on the embouchure I watched him calmly have a conversation with these players Carmine would give them a simple exercise and explain to them how to do the exercise I would see these players come back and say they are playing as if they never had a problem with their embouchure to begin with Studies in this book such as the exercise called The Fourths Down and The Fourths up along with other studies should bring you similar positive results Everyone is different as far as the amount of time it takes to warm up The lessons in this book are designed to take you from the warm up and on through the lesson in a timely fashion This is why the subtitle for the book is called the 25 minute workout

The Physical Trumpet Pyramid Eddie Lewis, 2017-02-04 This is the perfect bound version of the Physical Trumpet Pyramid book The Physical Trumpet Pyramid is the text description with musical examples of a pyramidic organization of the physical aspects of trumpet performance It is the theory behind the method used for creating the Daily Routines and the Chops Express books by Eddie Lewis The Physical Trumpet Pyramid is often referred to as the Teacher s Manual by teachers who use the Daily Routines and Chops Express books with their students It explains the concepts in a way that gives teachers a greater understanding of how the method works For the autodidact or self taught student the Physical Trumpet Pyramid is an important part of using Mr Lewis other books

Maximizing Practice Volume 2 Mark Van Cleave, 1994-06-16 The physical demands for trumpet players have evolved so quickly in the last forty years that trumpet players have not been able to keep up The range and endurance required to perform today s music has turned playing the trumpet into an athletic event Trumpet players need to address these physical demands in the same systematic and focused approach as athletes Understanding the physical skills needed to play the trumpet correctly can be a frustrating search for answers In my own search for these answers I have studied with and picked the brains of some great trumpet teachers and players Some of these teachers are Jerry Franks Dominic Spera Bill Adam Claude Gordon Jerome Callet Don Jacoby and Max Greer My books Maximizing Practice Volume 1 A Daily Practice Routine for Developing Trumpet Skills and Maximizing Practice Volume 2 Developing Trumpet Range Power and Endurance are a combination of information on how the trumpet machine works and exercises that are focused on individual skills The exercises in these methods are designed to

change and improve your machine In order for your machine to improve it has to change The exercises are focused in order to maximize results There are many books with great exercises you can play but how you practice them will determine your improvement A great exercise practiced wrong will not help you These methods and way of thinking about trumpet practice have been of great help to me and to my students and I sincerely hope that you will benefit from the information in these books
