Linguistics and Language Behavior Abstracts, 2006-04 *How Early Childhood and K-12 Teachers Experience Transformational Learning in a Dynamic Urban Setting* Cecelia Marie Westby, 2007 Self, Sign, and Symbol Mark Neuman, Michael Payne, 1987 These essays wrestle with a number of postformalist questions and are ordered so as to present a new argument for the self sufficiency of the text Collectively they suggest that recovery of interest in the meaning of texts and the exchange between writer and reader may become the next new criticism *Reading Riddles* Brian Tucker, 2010-12-16 *Reading Riddles Rhetorics of Obscurity from Romanticism to Freud* explores how the riddle becomes a figure for reading and writing in early German Romanticism and how this model then enables Sigmund Freud's approach to the psyche It traces a migration of ideas from literature to psychoanalysis and argues that the relationship between them must be situated at the methodological level Through readings of texts by August Wilhelm Friedrich Schlegel G W F Hegel and Ludwig Tieck *Reading Riddles* documents how the Romantics expand the field of poetic signification to include obscure distorted signs and how they applied this rhetoric of obscurity to the self The book argues that this model of self and signification plays a central role in the formulation of Freud's psychoanalytic theory If the self is a riddle as many in the nineteenth century claim Freud takes the figure seriously and interprets the mind according to all the structures and techniques of that textual genre **Resources in Education**, 2000-04 **American Book Publishing Record**, 2001

researchers as well as those working in the special education field **Deafness, Development and Literacy** Alec Webster, 2017-11-28 Originally published in 1986 Deafness is not just a deprivation of sound but a barrier to normal social interaction and learning There are likely to be children with some degree of hearing loss in every primary classroom so it is important that teachers know how to help them This book gives a clear summary of the main causes of hearing loss mild or severe its identification diagnosis and treatment followed by an explanation of the impact it can have on a child's social and linguistic development Considering normal development of literacy the book then is concerned with the hearing impaired child's strategies for reading spelling and writing It explores how teachers can give the most effective help what the impact of a teaching programme is likely to be and how to evaluate what the child has learnt Specialist teachers of the deaf advisers and psychologists as well as class teachers and students of education will find this book very helpful **The Education of d/Deaf and Hard of Hearing Children** Peter V. Paul, 2020-02-12 A significant number of d/Deaf and hard of hearing d/Dhh children and adolescents experience challenges in acquiring a functional level of English language and literacy skills in the United States and elsewhere To provide an understanding of this issue this book explores the theoretical underpinnings and synthesizes major research findings It also covers critical controversial areas such as the use of assistive hearing devices language and literacy assessments and inclusion Although the targeted population is children and adolescents who are d/Dhh contributors found it necessary to apply our understanding of the development of English in other populations of struggling readers and writers such as children with language or literacy disabilities and those for whom English is not the home language Collectively this information should assist scholars in conducting further research and enable educators to develop general instructional guidelines and strategies to improve the language and literacy levels of d/Dhh students It is clear that there is not a one size fits all concept but rather research and instruction should be differentiated to meet the needs of d/Dhh students It is our hope that this book stimulates further theorizing and research and most importantly offers evidence and reason based practices for improving language and literacy abilities of d/Dhh students **Evidence-Based Practice for Nurses: Appraisal and Application of Research with Navigate Advantage Access** Nola A.
