

Improving the quality of education and training in Morocco is a major task, and one of a series of educational commitments with international institutions. The quality of education is critical to help the country's economic transition and development, including the completion of basic education, and reducing teacher training, students' entry into school, teachers' career flow, entry into the workforce and high schools, and increasing entry to the field of university education. It is also critical to support students' learning and transfer of skills, and to ensure the quality of the education system. The book is a guide to the use of ICT in education, and a guide to the use of ICT in education.
