Samsung galaxy s25 for beginners & seniors Veyra Kynn, 2025-09-10 Just got your Samsung Galaxy S25 S25 or S25 Ultra Or maybe you're still deciding if it's the right upgrade for you Either way one thing is clear the Galaxy S25 series is packed with cutting edge features stunning performance and powerful tools that can completely change the way you connect create and communicate But here's the catch with all that tech getting started can feel overwhelming That's where this book comes in Samsung Galaxy S25 For Beginners Seniors by Veyra Kynn is your personal guide to mastering your new smartphone without stress or confusion Whether you're brand new to smartphones stepping up from an older model or

simply not tech savvy this guide walks you through every essential feature in a way that's easy to understand and apply From setting up your phone and customizing your home screen to taking brilliant photos managing apps exploring advanced features like the S Pen and Bixby and extending your battery life this book shows you exactly how to get the most out of your device without needing a computer science degree The instructions are clear the tone is friendly and the advice is tailored specifically for everyday users who want real results not tech jargon You'll also learn how to troubleshoot common problems on your own discover hidden tips and tricks that make your phone work smarter and explore the most useful apps and accessories that can enhance your Galaxy experience even further And if you're still using the Galaxy S24 this guide gives you a clear look at what's new what's better and whether the S25 is worth the leap This isn't just a manual it's your gateway to independence confidence and full control of the most advanced Galaxy smartphone ever made No more asking for help every time something changes No more guessing No more frustration Just clarity simplicity and total command over your device If you've ever felt left behind by modern technology this book will help you catch up and even get ahead Don't let your S25's best features go to waste Start using your phone the way it was meant to be used Buy Samsung Galaxy S25 For Beginners Seniors today and take the first step toward mastering your phone with ease confidence and excitement Translator

Jaxon Marais PUBLISHER TEKTIME Mobile and Ubiquitous Systems: Computing, Networking and Services Arkady Zaslavsky,Zhaolong Ning,Vana Kalogeraki,Dimitrios Georgakopoulos,Panos K. Chrysanthis,2024-07-18 These two volume proceedings constitute the refereed post conference proceedings of the 20th EAI International Conference on Mobile and Ubiquitous Systems Computing Networking and Services MobiQuitous 2023 held in Melbourne Australia during November 14-17 2023 The 65 papers presented in these proceedings were carefully reviewed and selected from 161 submissions The conference papers are organized in topical sections on Part I Tracking and Detection IoT Federated learning Networks Activity recognition Security Management Urban Mobile Crowdsensing Part II Urban Mobile Crowdsensing Edge computing Crowdsourcing Platforms and localization Activity recognition and prediction AI and machine learning Mobile edge and fog computing Mobile augmented reality and applications for mobile computing interaction technologies AutoQuitous workshop

Artificial Intelligence for Edge Computing Mudhakar Srivatsa,Tarek Abdelzaher,Ting He,2023-12-21 It is undeniable that the recent revival of artificial intelligence AI has significantly changed the landscape of science in many application domains ranging from health to defense and from conversational interfaces to autonomous cars With terms such as Google Home Alexa and ChatGPT becoming household names the pervasive societal impact of AI is clear Advances in AI promise a revolution in our interaction with the physical world a domain where computational intelligence has always been envisioned as a transformative force toward a better tomorrow Depending on the application family this domain is often referred to as Ubiquitous Computing Cyber Physical Computing or the Internet of Things The underlying vision is driven by the proliferation of cheap embedded computing hardware that can be integrated easily into myriads of everyday devices from

consumer electronics such as personal wearables and smart household appliances to city infrastructure and industrial process control systems One common trait across these applications is that the data that the application operates on come directly typically via sensors from the physical world Thus from the perspective of communication network infrastructure the data originate at the network edge From a performance standpoint there is an argument to be made that such data should be processed at the point of collection Hence a need arises for Edge AI a genre of AI where the inference and sometimes even the training are performed at the point of need meaning at the edge where the data originate The book is broken down into three parts core problems distributed problems and other cross cutting issues It explores the challenges arising in Edge AI contexts Some of these challenges such as neural network model reduction to fit resource constrained hardware are unique to the edge environment They need a novel category of solutions that do not parallel more typical concerns in mainstream AI Others are adaptations of mainstream AI challenges to the edge space An example is overcoming the cost of data labeling The labeling problem is pervasive but its solution in the IoT application context is different from other contexts This book is not a survey of the state of the art With thousands of publications appearing in AI every year such a survey is doomed to be incomplete on arrival It is also not a comprehensive coverage of all the problems in the space of Edge AI Different applications pose different challenges and a more comprehensive coverage should be more application specific Instead this book covers some of the more endemic challenges across the range of IoT CPS applications To offer coverage in some depth we opt to cover mainly one or a few representative solutions for each of these endemic challenges in sufficient detail rather than broadly touching on all relevant prior work The underlying philosophy is one of illustrating by example The solutions are curated to offer insight into a way of thinking that characterizes Edge AI research and distinguishes its solutions from their more mainstream counterparts

Mobile Security Products for Android Philipp Kratzer, Christoph Gruber, Andreas Clementi, David Lahee, Philippe Rödlach, Peter Stelzhammer, 2014-10-14 We have once again tested security products for smartphones running Google's Android operating system Our report covers details of the products made by leading manufacturers Smartphones represent the future of modern communications In 2013 more than 1 billion smartphones were sold a further milestone in the advance of these devices¹ A study published by Facebook emphasises the importance of smartphones in our lives about 80% of users make use of their smartphone within 15 minutes of waking up each day At the same time the traditional function of a telephone is becoming less and less important The high quality of integrated cameras means that the smartphone is increasingly used for photography As well as with photos users trust their devices with their most personal communications such as Facebook WhatsApp and email This brings some risks with it as such usage makes the smartphone interesting for criminals who attempt to infect the device with malware or steal personal data There is also the danger brought by phishing attacks These days the use of security software on a PC or laptop is seen as essential However many smartphone users do not yet have the same sense of responsibility even though their devices store personal data

private photos Internet banking information or even company data As modern smartphones are often expensive to buy they are also an attractive target for thieves Top quality smartphones cost several hundred Euros As it is not possible to physically prevent them from being stolen they must be made less attractive to thieves Consequently many of today s security products contain not only malware protection but also highly developed theft protection functions which make the device less attractive to thieves e g by locking the device and help the owner to find it again

ICIIS 2019 JM Muslimin, Kusmana Kusmana, Yusuf Durachman, Husni Teja Sukmana, Dewi Khairani, 2020-05-04 The event to provide a scientific forum that will appeal to them individual scholars practitioners policy makers especially post graduate students to present their experiences research findings sharing ideas and experiences For the nature of the object being discussed is interdisciplinary the Post Graduate School SPS of Syarif Hidayatullah State Islamic University Jakarta is called to organize International Colloquium on Interdisciplinary Studies 2019 ICIIS 2019 with the theme Moslem Societies and Social Transformation In 2019 this event has been held in 7 9 November 2019 in the Post Graduate School of Syarif Hidayattullah State Islamic University Jakarta It is the conjunction with the 3rd International Conference on Quran and Hadith Studies ICONQUHAS2019 The event is jointly organized and hosted by Postgraduate School Faculty of Theology Ushuluddin of Syarif Hidayattullah State Islamic University Jakarta Paramadina University and Islamic University of Jakarta The conference papers from any kind of stakeholders and interdisciplinary studies related with Religion and Social Related Studies Each contributed paper was refereed before being accepted for publication The double blind peer reviewed was used in the paper selection

Smart Organizations and Smart Artifacts Leonardo Caporarello, Beniamino Di Martino, Marcello Martinez, 2014-05-15 This book offers a multidisciplinary strategy for finding new and more effective human computer interaction approaches in particular from a socio technical perspective that facilitate the exploration and exploitation of benefits that information technologies IT offer organizations Though the relationship between IT and organizations is certainly very strong it is also one of the greatest obstacles to securing benefits from their interaction The participation of organizational users in the planning and design stages of IT interfaces is the main area of human computer interaction where a wealth of contributions are positively enriching both the academic and management discussions Thus a new approach for managing this relationship is needed one in which the different stakeholders are suitably taken into account Moreover the outstanding success of the 2 0 phenomenon offers an example of a relevant platform where human computer interaction has been widely developed and exploited Consequently this will influence and already is influencing the way IT and users interact with each other The book is based on a selection of the best papers original double blind peer reviewed contributions from the annual conference of the Italian chapter of the AIS held in Milan Italy in December 2013

Advanced Multimedia and Ubiquitous Engineering James J. Park, Vincenzo Loia, Yi Pan, Yunsick Sung, 2020-12-16 This book comprises selected papers from the 14th International Conference on Multimedia and Ubiquitous Engineering MUE 2020 and the 14th International Conference on Future

Information Technology Future Tech 2020 And this book presents the latest developments in the field of ubiquitous computing technologies It also discusses the state of the art in the development of computational methods involving theory algorithms numerical simulation error and uncertainty analysis and novel applications of new processing techniques in engineering science and other disciplines related to ubiquitous computing This book is a great resource for students researchers and professors working in the field of ubiquitous computing *EcoDesign and Sustainability I* Yusuke Kishita,Mitsutaka Matsumoto,Masato Inoue,Shinichi Fukushige,2020-11-02 This book highlights cutting edge ecodesign research covering product and service design smart manufacturing and social perspectives in ecodesign Featuring selected papers presented at EcoDesign 2019 11th International Symposium on Environmentally Conscious Design and Inverse Manufacturing it also includes diverse interdisciplinary approaches to foster ecodesign research and activities In the context of Sustainable Development Goals SDGs it addresses the need for the manufacturing industry to design innovations for sustainable value creation taking into account technological developments legislation and consumer lifestyles Further the book discusses the concept of circular economy which originated in Europe and aims to increase resource efficiency by shifting away from the linear economy Focusing on product life cycle design and management smart manufacturing circular economy and business strategies and providing useful approaches and solutions to these emerging concepts this book is intended for both researchers and practitioners working in the broad field of ecodesign and sustainability
