Accelerated women empowerment programs often fail to attain their targets as envisaged by the policymakers due to a variety of reasons with the most prominent being the deep rooted cultural norms ingrained within society. In the era of globalization, empowerment of women demands new approaches and strategies that encourage the mainstreaming of gender equality as a societal norm. The Handbook of Research on New Dimensions of Gender Mainstreaming and Women Empowerment is a critical scholarly publication that examines global gender issues and new strategies for the promotion of women empowerment and gender mainstreaming in various spheres of women's lives including education and ICT, economic participation, health and sexuality, mental health, aging, law and judiciary, leadership and decision making. It provides a comprehensive coverage of all major gender issues with novel ideas on gender mainstreaming being contributed by men and women authors from multidisciplinary backgrounds. Gender perspective and intersectional approach in the discourses make this handbook a unique contribution to the scholarship of social sciences and humanities. The book provides new theoretical inputs and practical directions to academicians, sociologists, social workers, psychologists, managers, lawyers, policy makers and government officials in their efforts at gender mainstreaming. With a wide range of conceptual richness, this handbook is an excellent reference guide to students and researchers in programs pertaining to gender, women's studies, cultural studies, economics, sociology, social work, medicine, law and management.
