Bhāv, A Mughal version of a Sanskrit story Anjali Duhan-Gulia, 2025-10-27 The Mughal emperor Akbar had a Sanskrit book called the Dvādas Bhāv translated to Farsi Dismembered pages or painted folios from this manuscript were dispersed in auctions This is the first time this book has been put back together and translated into English The study reveals how the thirteen paintings that interspersed this text were intrinsic to communicating its meaning This was not the first or last Sanskrit work to be translated to Farsi or be illustrated for a Muslim monarch in Hindustan The Mughals and some of the Sultans before them recognized the significance of Indian knowledge traditions This book however provides insight into what went into such translations Who decided which text should be translated and what governed the decisions **Historical**

Shrines and Transnational Maritime Networks across India and Southeast Asia Himanshu Prabha Ray, 2020-07-26 This book breaks new ground by examining trans-oceanic connectivity through the perspective of coastal shrines and maritime cultural landscapes across the Bay of Bengal and the South China Sea It covers a period of expanding networks and cross-cultural encounters from the 3rd century BCE to the 13th century CE The book examines the distinctiveness of these shrines and highlights their interconnections and their role in social integration in South and Southeast Asia By drawing on data from

shipwreck sites the author elaborates on the material and religious intersections and transmissions between cultures across the seas Many of these coastal shrines survived into the colonial period when they came to be admired for their aesthetic value as monuments As nation states of the region became independent these shrines were often inscribed on UNESCO s World Heritage List on account of their Outstanding Universal Values The book argues that in the 21st century there is a need to promote the cultural connectivity of the past as transnational heritage on UNESCO s global platform to preserve and protect our shared heritage The volume will be essential reading for academics and researchers of archaeology anthropology museum and heritage studies history of South and Southeast Asia religious studies cultural studies and Asian studies

Brahmins and Kings John Nemec, 2025-02-14 Brahmins and Kings examines some of the most well known and widely circulated narratives in the history of Sanskrit literature including the Mahabharata the Ramayana Visnusarman s famed animal stories the Panchatantra Somadeva s labyrinthine Ocean of Rivers of Stories the Kathasaritsagara Kalhana s Chronicle of the Kings of Kashmir the Rajatarangini and two of the most famous plays in the history of Sanskrit literature Kalidasa s Abhijnanasakuntala and Harsa s Ratnavali Offering a sustained close intertextual reading John Nemec argues that these texts all share a common frame they feature stories of the mutual relations of ksatriya kings with Brahmins and they all depict Brahmins advising political figures More than this they not only narrate instances of royal counsel but also are composed in a manner that renders the stories themselves as instances of counsel Based in the technical literatures on Hindu Law and on statecraft the Dharmasastras and the Arthashastra and related works the counsel in question elaborates a model of action that synthesizes views found in both recommending a kind of virtue ethic that suggests one may do well in the world by being good Doing well involves succeeding in both worldly and otherworldly affairs being good involves following Brahminical teachings and upholding the dharmic norms they regularly articulate in text This ethic encompasses all human action and practice defines the counsel offered by these texts and seeks with it to engage the king hisprinces and queens across the spectrum of their subjective experience intellectually emotionally and humorously Ultimately this book argues that just as the rulers in these narratives receive moral instruction their audiences do as well By putting metaphorical flesh on the proverbial bare bones of doctrinal ideals and ideas these texts seek to shape not just their readers thoughts but also their emotions and cultivated instincts intending to transform their very way of engaging the world by immersing them in the dreamworld of stories

The Novel: An Alternative History Steven Moore, 2013-09-17 Encyclopedic in scope and heroically audacious The Novel An Alternative History is the first attempt in over a century to tell the complete story of our most popular literary form Contrary to conventional wisdom the novel did not originate in 18th century England nor even with Don Quixote but is coeval with civilization itself After a pugnacious introduction in which Moore defends innovative demanding novelists against their conservative critics the book relaxes into a world tour of the pre modern novel beginning in ancient Egypt and ending in 16th century China with many exotic ports of call Greek romances Roman satires medieval Sanskrit

novels narrated by parrots Byzantine erotic thrillers 5000 page Arabian adventure novels Icelandic sagas delicate Persian novels in verse Japanese war stories even Mayan graphic novels Throughout Moore celebrates the innovators in fiction tracing a continuum between these pre modern experimentalists and their postmodern progeny Irreverent iconoclastic informative entertaining The Novel An Alternative History is a landmark in literary criticism that will encourage readers to rethink the novel

Extreme Poetry Yigal Bronner, 2010-03-30 Beginning in the sixth century C E and continuing for more than a thousand years an extraordinary poetic practice was the trademark of a major literary movement in South Asia Authors invented a special language to depict both the apparent and hidden sides of disguised or dual characters and then used it to narrate India's major epics the Ramayana and the Mahabharata simultaneously Originally produced in Sanskrit these dual narratives eventually worked their way into regional languages especially Telugu and Tamil and other artistic media such as sculpture Scholars have long dismissed simultaneous narration as a mere curiosity if not a sign of cultural decline in medieval India Yet Yigal Bronner's Extreme Poetry effectively negates this position proving that far from being a meaningless pastime this intricate bitextual technique both transcended and reinvented Sanskrit literary expression The poems of simultaneous narration teased and estranged existing convention and showcased the interrelations between the tradition's foundational texts By focusing on these achievements and their reverberations through time Bronner rewrites the history of Sanskrit literature and its aesthetic goals He also expands on contemporary theories of intertextuality which have been largely confined to Western texts and practices

Hardships and Downfall of Buddhism in India Giovanni Verardi, 2024-01-01 Buddhism originated as an antinomial system facing the opposition of both vaidika and theistic Brahmins who socially identified themselves with the agrarian world The two models of society generated in early historical India never merged and Buddhism was gradually and often violently reduced to impotence It was Gupta rule that first checkmated the antinomial model of the Buddhists Whereas in the open society traders landowners and tribals coexisted from Gupta times onwards pressure on kings and direct Brahmanical

rule led to the requisition of land and the imposition of a varna state society Doctrinal debates which soon turned into ordeals were instrumental in the suppression of the Buddhist elite mainly formed by intellectuals of Brahmanical descent this being proof of a dramatic rift in the brahmanavarna The Vajrayana which was the Buddhist response to this state of affairs originated and grew under Pala rule and expansionism and was characterized by a decisive opening towards the outcast and the theorization of violence This set off a conflict whose scope and significance are still poorly understood It was eventually the compromise between the orthodox powers and the Muslims that caused the final downfall of Buddhism The former were obliged to transfer political power to the latter but had a free hand in social repression The book draws mainly on Brahmanical sources both literary and iconographic which are abundant and insufficiently exploited as well as on archaeological evidence hardly every resorted to

A Lasting Vision Yigal Bronner, 2023 *A Lasting Vision* is dedicated to the *Mirror of Literature* a Sanskrit treatise on poetics composed by Dandin in south India c 700 CE and to its remarkable transcontinental career The *Mirror* was adapted and translated into many Asian languages and became a classical text and a source of constant engagement and innovation often well into the modern era
