What Works For The Poorest Poverty Reduction Programmes For The Worlds Ultra Poor:

What Works for the Poorest? David Lawson, 2010 This book is the first attempt to examine what works for the poorest and analyses innovative ultra poor programmes from around the world and explores the lessons that emerge from this important body of knowledge It should be read by staff of donor agencies and NGOs students of development studies who are concerned about chronic poverty

Betrayed S. Kaplan, 2013-11-26 Betrayed takes a new approach to the subject of global poverty one that doesn't blame the West but also doesn't rely on the West for solutions Betrayed puts the poor themselves at center stage and shows how their entrepreneurial energies are shackled by political and social discrimination When these shackles are removed as is happening in places such as China and Vietnam the poor are able to seize opportunities and drive wealth creation Combining the latest research into poverty and state building with the author's personal observations drawn from years running businesses in the developing world Betrayed explains how leaders in the developing world can build more inclusive societies and more equitable governments thereby creating dynamic national economies and giving the poor the opportunity to accumulate the means and skills to control their own destinies This refreshing new approach will appeal to business people who are fed up with reading critiques of global poverty that see capitalism as the problem not the solution people in both the global North and South who want to see attention focused not on Western aid but on what developing countries and their citizens can do to help themselves scholars and practitioners in the development field who are looking for new practicable ideas and general readers who want accessible and engaging accounts of ordinary people struggling to overcome poverty

International Aid and Private Schools for the Poor Pauline Dixon, 2013-01-01 Pauline Dixon has intellectual rigour and an openness to new ideas together with compassion and practicality A great and unusual combination which I admire enormously Dame Sally Morgan Adviser to the Board Absolute Return for Kids and former chief advisor to Tony Blair UK This fine book has a powerful message for policymakers and donors the quality of schools matters even in poor countries hence the poor are abandoning failed state schools and enrolling their kids in low cost private schools Instead of trying to close them down the state and donors would do well to invest in children through vouchers and cash transfers and give parents a choice rather than create more atrocious monopolistic state schools where teachers are absent and unaccountable Gurcharan Das commentator and author India Unbound and former CEO of Proctor and Gamble Asia This is a must read book for anyone interested in the plight of poor children particularly for those readers concerned with learning about culturally sensitive and proven ways to reach out and help less fortunate children in developing countries I was fascinated and outraged by the compelling stories and actual data that Dixon shares in this gem of an exposé Most readers will similarly be shaken and incensed by the failure of billions of dollars spent on state schooling in Africa and India Dixon makes a compelling case for the value and contributions of low cost private schools in slums and low income areas in developing countries After reading this book I am now a believer Steven I Pfeiffer Professor Florida State University US This fascinating

volume challenges the widely held belief that the state should supply finance and regulate schooling in developing countries Using India as an example Dr Pauline Dixon examines the ways in which private for profit schools might serve as a successful alternative to state run systems of education in impoverished communities around the world The book begins with a through history of India s government run schools based on the traditional British model which are currently characterized by high levels of waste inefficiency and subpar student performance The author goes on to present comprehensive survey and census data along with analyses of different school management types and their effect on student achievement teacher attendance and quality of facilities The book also tackles the problem of inefficient allocation and use of international aid and offers recommendations on the development of new mechanisms for utilizing aid resources in support of low cost private schools This meticulously researched volume will appeal to students and professors of development studies political economy and international studies Policymakers and other officials with an interest in educational innovation will also find much of interest in this book

What Works for the Poorest?,2010 This book is the first attempt to examine what works for the poorest and analyses innovative ultra poor programmes from around the world and explores the lessons that emerge from this important body of knowledge It should be read by staff of donor agencies and NGOs students of development studies who are concerned about chronic poverty

Why Don't the Poor Rise Up? Ajamu Nangwaya,Michael Truscello,2017-07-17 Each of these essays is a sharpened weapon for the battles looming large on the horizon George Ciccariello Maher author of Building the Commune Combining the most creative thought from the global North and South Why Don t the Poor Rise Up promises to be an indispensable resource for understanding why the new revolutionary movement of the 21st century will emerge from the ranks of the most marginalized by capitalism and colonialism Ajamu Baraka editor of Black Agenda Report Even mainstream media like the New York Times and The Economist have recently posed the question Why don t the poor rise up uneasily amazed that capitalism hasn t met with greater resistance In the context of unparalleled global wealth disparity ecological catastrophe and myriad forms of structural oppression this vibrant collection offers a reassessment of contemporary obstacles to mass mobilization as well as examples from around the world of poor people overcoming those obstacles in inspiring and instructive new ways With contributions from Idle No More cofounder Alex Wilson noted Italian theorist Franco Bifo Berardi and nineteen other scholars and activists from around the world Why Don t the Poor Rise Up presents a truly global range of perspectives that explore the question of revolution its objective and subjective prerequisites and its increasing likelihood in our time Ajamu Nangwaya Ph D is an educator at Seneca College with over twenty five years of experience in community organizing and advocacy Michael Truscello Ph D is an educator at Mount Royal University and author of the forthcoming book The Infrastructure Society

Poverty Reduction in a Changing Climate Hari Bansha Dulal,2013-02-14 Poverty reduction challenges in the twenty first century are not the same as those from the previous century The shift is due in no small part to climate change and climate related weather disasters such as extreme flood and

drought The magnitude and frequency of such events are only expected to increase in the coming decades affecting more and more impoverished people across the globe Poverty Reduction in a Changing Climate edited by Hari Bansha Dulal is a work which discusses the new innovations and funding mechanisms which have emerged in response to the rise of climate related challenges in the twenty first century Dulal and the text s contributors explore the synergies and implications of those innovations with respect to poverty alleviation goals This collection brings together a range of scholars from different backgrounds ranging from political science economics public policy and environmental science all analyzing poverty reduction challenges and opportunities from different forward thinking perspectives **Poverty Reduction that Works**

Paul Steele,Neil Fernando,Maneka Weddikkara,2012-05-04 Pt 1 Employment generation and participatory pt 2 Local economic development pt 3 Agriculture and rural development for poverty reduction pt 4 Localization of millennium development goals and monitoring pt 5 Social safety nets and microfinance pt 6 Community mobilization and advocacy for the millennium development goals **Cash Transfers for Poverty Reduction** Francisco V. Ayala,David Lawson,2023-12-06

Over the past 20 years more than 100 countries have implemented social safety nets targeted at the poorest and most vulnerable Impact evaluations have shown the effectiveness of these programmes and policymakers have explored different methods of delivery including cash transfers Cash Transfers for Poverty Reduction offers the first systematic discussion of the design and implementation of poverty reduction schemes and cash transfer programmes in particular The authors also draw on their own practical experienceand present global case studies to show the effects that these decisions have on operations and outcomes Featuring end of chapter questions and answers to help test your knowledge this book offers an operational guide for key stakeholders officials and students in understanding the design implementation and monitoring and evaluation of cash transfer programmes Reaching the Marginalized ,2010-01-01

Children at risk of marginalization in education are found in all societies At first glance The lives of these children may appear poles apart The daily experiences of slum dwellers in Kenya ethnic minority children in Viet Nam and a Roma child in Hungary are very different What they have in common are missed opportunities to develop their potential realize their hopes and build a better future through education A decade has passed since world leaders adopted the Education for All goals While progress has been made millions of children are still missing out on their right to education Reaching the marginalized identifies some of the root causes of disadvantage both within education and beyond and provides examples of targeted policies and practices that successfully combat exclusion Set against the backdrop of the global economic crisis The Report calls for a renewed financing commitment by aid donors and recipient governments alike to meet the Education for All goals by 2015 This is the eighth edition of the annual EFA Global Monitoring Report The Report includes statistical indicators on all levels of education in more than 200 countries and territories The Oxford Handbook of Civil Society Michael Edwards,2011-09-05

In the past two decades civil society has become a central organizing concept in the social sciences Occupying the middle ground

between the state and private life the civil sphere encompasses everything from associations to protests to church groups to nongovernmental organizations Interest in the topic exploded with the decline of statism in the 1980s and 1990s and many of our current debates about politics and social policy are informed by the renewed focus on civil society Michael Edwards author of the most authoritative single authored book on civil society serves as the editor for The Oxford Handbook of Civil Society Broadly speaking the book views the topic through three prisms as a part of society voluntary associations as a kind of society marked out by certain social norms and as a space for citizen action and engagement the public square or sphere It does not focus solely on the West a failing of much of the literature to date but looks at civil society in both the developed and developing worlds Throughout it merges theory practice and empirical research In sum The Oxford Handbook on Civil Society will be the definitive work on the topic
