 viewing Fears over the effect of television on children have been around since it was invented The recent explosion in the
 number of channels and new multimedia entertainment lends a new urgency to the discussion This completely revised second
 edition of Children and Television brings the story of children and television right up to date In addition to presenting the
 latest research on all of the themes covered in the first edition it includes a discussion of the new entertainment media now
 available and a new chapter which examines the role of television in influencing children s health related attitudes behaviour

Barrie Gunter and Jill McAleer examine the research evidence in to the effects of television on children and their responses to it They conclude that children are sophisticated viewers and control television far more than it controls them
