Political Violence and Kurds in Turkey Mehmet Orhan, 2015-10-16 The Kurdish conflict is an acknowledged long standing issue in the Middle East and the emergence of radical Kurdish nationalist movements in the 20th century played a decisive role in the evolution of political violence Political Violence and Kurds in Turkey examines how this political violence impacts Kurds in contemporary Turkey and explores the circumstances that move human beings to violent acts It looks at the forms political violence takes and in which times and spaces it occurs as well as the roles played by micro and macro factors It takes a theoretical approach to violence as both producer and product of interrelations between many actors and contextualises this with studies of violence in Kurdish villages and towns The book evaluates the three levels

at which political violence operates between the state and Kurdish movements among Kurdish groups and between Kurdish political organizations and Kurdish society and divides it into its different aspects and processes fragmentation segmentation signifying intra ethnic struggles between Kurdish actors mobilization the course leading the Kurdish movement to armed conflict participation the use of violence by individuals and repertoires the forms taken by political violence Offering an in depth analysis of the dynamics behind political violence and its use amongst Kurds in Turkey this book will be a key resource for students and scholars of Middle Eastern Kurdish Studies and Conflict Studies and offers new understanding and approaches to the study of political violence *Political Violence in Turkey, 1975-1980* Benjamin Gourisse, 2023-03-23 This book examines the period of political violence in Turkey between 12 March 1971 and 12 September 1980 It sets out a close analysis of the tactics used by the various protagonists in the conflict showing how they took over public institutions the first of which was the police This book challenges the myth of a strong Turkish state viewed as authoritative and autonomous from society instead reflecting a state that was unable to contain the political mobilisation actually taking place In the book Benjamin Gourisse analyses the structure mobilisation and strategies of antagonistic radical political groups caught up in this dynamic of violence including the far left organisations and the Nationalist Movement comprising the Nationalist Movement Party and its satellite organisations Gourisse demonstrates that from 1975 to 1980 the state was never out of play Quite the contrary in fact for its institutions together with the practices beliefs and representations of their members and users were central to the processes constituting the crisis

Redefining the Political. Youth Experiences of Collective Action in Turkey Pinar Gümüş Mantu, 2023-08-01 This book offers an analysis of the complex and shifting conditions of being young as well as the new ways in which young people engage in politics in Turkey It is based on a closer examination of young people s participation in the Gezi protests in 2013 From the perspective of cultural sociology this work presents a nuanced discussion of the roots and dynamics of young people s unexpected engagement and spectacular appearance at the protests with a theoretical focus on the concepts of youth and the political by exploring questions such as How did young people experience the protests How did they reflect on being young How did they define the political Grounded in ethnographic field research conducted via in depth interviews this book demonstrates that what happened in the Gezi protests was not a sudden and miraculous transformation of apolitical youth into political subjects on the streets as has often been argued in public discourse Rather the protests brought into view the changes which had already been taking place in young people s lives in Turkey as a result of the effects of both local and global processes i e the influence of authoritarian politics and social change characterized by religion in everyday life as well as the implications of neoliberal policies in the restructuring of urban spaces

The Politics of the Female Body in Contemporary Turkey Hilal Alkan, Ayşe Dayı, Sezin Topçu, Betül Yazar, 2021-05-20 In Turkey the Justice and Development Party government has introduced new regulations about reproductive rights and shifted family and gender policies Women s central role in reproductive and domestic work was swiftly reaffirmed and abortion and

When Turkey was Turkey Mary A. Poynter, 1921 *A Sad Life Story* Kemal Sobe, 2024-04-10 Childhood even though it is difficult is actually the best period of a person A person realizes the value of his childhood in later years when he comes under the burden of life However I couldn't stay a child I had to face the pain and difficulties of life As I got older my fear of the future increased and the people around me decreased As I saw the bitter side of life and people's relationships based solely on materiality I began to deeply question why people live and what they aim for in life Did people live to love or to dominate each other When I saw that there was all kinds of material competition between people I began to think that people had put their love for humanity aside Like every child when I was young that is young enough to be considered a child I was not very emotional However as I got older as I took part in life as life took away more and more from me I became more emotional and the human factor began to become more important to me *Political Leadership and Erdoğan* Yalçın Akdoğan, 2019-01-15 Turkish President Recep Tayyip Erdoğan has dominated the country's politics for more than two decades To answer the question how one man was able to remain popular for such a long period of time it is necessary to understand his leadership secrets In *Political Leadership and Erdoğan* former cabinet minister and long time Erdoğan aide Yalın Akdoğan provides valuable insights into the Turkish president's leadership profile and explains how he relates to centuries old theories of leadership in Turkish and Islamic thought This book is appropriate for political scientists international relations experts practitioners and historians as well as scholars of Turkey the Middle East and Eastern Europe It is also intended to supplement courses in leadership development political communication and public relations theory **The Rise of Political Islam in Turkey** Kayhan Delibas, 2014-12-19 Turkey officially a secular state voted in an Islamist party in 2002 2007 and 2011 How far does this reflect the trend which has seen the rise of political Islam across the Middle East Does this indicate a growing tendency in the direction of Islamisation amongst the Turkish population If not what are the underlying reasons behind the electoral triumphs of the Islamist Justice and Development Party the AKP Kayhan Delibas seeks to answer these questions through an in depth examination of the appeal of this political party exploring its ideology the routes and motives which produce party activists and local party organisations Concluding that the AKP's success has been built on its criticism of growing inequalities widespread corruption unemployment poverty and lack of basic services Delibas draws a nuanced portrait of modern Turkish society and the relationship between religion and politics Delibas offers an explanation based on

research carried out amongst grassroots activists for the rise of Islamic fundamentalism in Turkey Islamic movements are often described as anti modernist thought to be supported by fundamentalist groups living in a bygone age isolated from the rest of the modern world In recent years particularly since the events of 9 11 such movements have also been seen as a threat to the Western way of life But Delibas argues that these movements and particularly those in Turkey did not arise out of religious fervour or hatred of Western civilisation as is often claimed Rather they were founded and have thrived as a response to socio economic and political conditions that have been aggravated by neoliberal economic policies rapid urbanisation and the globalization of culture By exploring the structural conditions in which an Islamic movement emerged and become popular in a seemingly secular state The Rise of Political Islam in Turkey offers vital analysis for all those researching modern Turkey and the growth of Islamist politics throughout the Middle East and North Africa
