

The book cover features a composite image where George Carlin is depicted as Jesus Christ, seated at the head of the table during the Last Supper. He is wearing a dark blue t-shirt and holding a knife and fork. The other apostles are shown in their traditional biblical attire. The background is a dark, wood-paneled room with a large window looking out onto a landscape. The title is written in a large, white, serif font with a drop shadow effect.

Rational Universalism, the Second Directive Barry Wachs, 2012-09-10 Where has science and faith gone wrong What has brought us to religious and scientific conflict Why has one faith or another taken on the role of fanatically converting the earth's population and at what expense When we die what can we expect from a scientific view as opposed to a faith based view of eternity Can the two be reconciled What are our spiritual responsibilities as we evolve individually and as a species These are humongous questions which are addressed in a very word economic way Cutting to the chase through eons we will explore man's growth from the cave to the Ritz Carlton Barry Wachs Ph D attempts to lay a sound foundation for an entirely new paradigm for life after death A paradigm that will not destroy or alter your faith or the way you worship or connect to God or a higher power but rather give you a sound science based theory that will support your doctrines and beliefs as long as they do no harm to others A paradigm that can guide you to a new understanding of eternity About the Author Over the years like any good psychologist Barry Wachs Ph D has explored many theories and approaches to the behaviors of man including the work of Jung Pearl's Parkinson and Neurolinguistic programming He is a certified Clinical hypnotherapist and attributes much of his insight to the work of David Quigley He was licensed in Arizona for over 20 years as a naturopathic physician His curiosity has taken him far beyond his birth into Judaism and he has studied numerous religions and beliefs and has delved into behavior of hundreds of patients over the years Barry's other work includes 14 years as a Vocational Rehabilitation Counselor and a therapist in a major acute mental psychiatric hospital He presently practices as a holistic alternative health practitioner in Citrus Heights California and is listed in Who's Who in California

[The Case for Rational Optimism](#) Frank Robinson, 2017-07-28 The Case for Rational Optimism tackles a host of challenging subjects in an engaging accessible down to earth style It is intellectually serious ceaselessly intriguing and devoid of banalities While other books in this genre tend to be oriented toward self help this volume brings evolutionary biology neuroscience psychology sociology economics and a keen sense of history to the topic Robinson begins with three goals making the case for feeling good about oneself about humanity in general and about the global situation He addresses such seemingly disparate subjects as selfishness versus altruism mind and free will human nature and issues relating to economics technology the environment and more Unifying these ideas into a coherent philosophical whole are central concepts evolution has endowed our species with more good qualities than bad and why those qualities and our use of reason are the foundations of civilization and how and consistent with our nature we make a better world by valuing human life therefore enabling others to flourish in ways they freely choose The Case for Rational Optimism argues that the highly challenging

conditions confronting early man created a Darwinian selective pressure for cooperation even altruism among members of a tribe The author finds evidence for this in the way our brains work and in observable human behavior He argues against existential despair over the human condition Even though there probably is no grand celestial design investing life with meaning he considers this liberating giving every person the freedom to craft their own meaning To Robinson whether sentient beings experience suffering or joy is the only thing that matters without emotive highs and lows the Universe would hardly matter
