Is Space Three-Dimensional?** P.

Janich, 1992-11-30 The three spatial characteristics of length height and depth are used in the same unreflective way by laymen technicians and scientists alike to describe the forms positions and measure of bodies and hollow bodies But how do we know that the space we live in has just these three dimensions The question has occupied philosophers and scientists since antiquity The answers proposed have become ever more presumptuous and have increasingly lost sight of everyday intuitions and have sacrificed explanatory power In Euclid's Heritage Janich shows that all explanations of three dimensionality hinge on an unreflective geometrical language which seems to accept the lack of an alternative for the three sorts of entities points lines and planes that bound the three extended entities lines planes and solids This is a Euclidean heritage in a dual sense Euclid himself adopted a geometrical language from the art of figure drawing and left a tradition of doing geometry as planimetry and of doing stereometry by rotating plane figures The systematic approach offered here starts

out from operational definitions of the spatial forms plane straight edge and perpendicularity and proofs that only three planes can intersect pairwise orthogonally This is the constructive solution in the frame theory of action providing an unequivocal characterisation of spatial relations in the physical world The traditional order of geometric concepts turns out to be the most important obstacle to the methodical ordering of everyday scientific concepts *What He Doesn't Know* Lisa Noeli, 2013-05-16 Her Secret Admirer Miss Josephine Shy is blessed with an exquisite soprano voice that no one outside her family circle will ever hear As the daughter of a thoroughly respectable vicar she cannot appear on stage But when her rascal brother bankrolls a new musical theatre production and the famous star loses her voice Josephine agrees to sing the part behind a screen of course Soon all of London is humming the score of *The Shepherdess* and its flock of live sheep are the sensation of the season All the more reason for the music loving Lord Daniel York to attend every performance He is enthralled by the star's exquisite voice if not her appearance But when a wayward lamb knocks over the screen and Josephine is revealed at last in all her blushing glory Lord York falls head over heels in love

**Everything Your GP Doesn't Have Time to Tell You About Arthritis** Matt Piccaver, 2017-10-19 A practising GP has ten brief minutes to tell you everything you need to know about the disease he or she has just diagnosed Sometimes it takes people half that time just to take their coat off Research has shown that most people remember only one or two things said to them in a consultation At a time of an ever aging population and an increasing burden of arthritis means an increasing need for reliable information This book by a GP covers all aspects of arthritis from common everyday aches and pains to rarer forms of the disease The book aims to help those with arthritis understand a little more about their disease how they can help themselves and what treatments are on offer It also looks at some future developments in the treatment of arthritis

**The Censor's Notebook** Liliana Corobca, 2022-11-08 A fascinating narrative of life in communist Romania and a thought provoking meditation on the nature of literature and censorship Winner of the 2023 Oxford Weidenfeld Translation Prize *A Censor's Notebook* is a window into the intimate workings of censorship under communism steeped in mystery and secrets and lies confirming the power of literature to capture personal and political truths The novel begins with a seemingly non fiction frame story an exchange of letters between the author and Emilia Codrescu the female chief of the Secret Documents Office in Romania's feared State Directorate of Media and Printing the government branch responsible for censorship Codrescu had been responsible for the burning and shredding of the censors notebooks and the state secrets in them but prior to fleeing the country in 1974 she had stolen one of these notebooks Now forty years later she makes the notebook available to Liliana the character of the author for the newly instituted Museum of Communism The work of a censor a job about which it is forbidden to talk is revealed in this notebook which discloses the structures of this mysterious institution and describes how these professional readers and ideological error hunters are burdened with hundreds of manuscripts strict deadlines and threatening penalties The censors lose their identity and are often frazzled by neuroses and other illnesses
