Maritime Spatial Planning Jacek Zaucha, Kira Gee, 2018-01-01 This book is open access under a CC BY 4.0 license Maritime or marine spatial planning has gained increasing prominence as an integrated common sense approach to promoting sustainable maritime development A growing number of countries are engaged in preparing and implementing maritime spatial plans however questions are emerging from the growing body of MSP experience How can maritime spatial planning deal with a complex and dynamic environment such as the sea How can MSP be embedded in multiple levels of governance across regional and national borders and how far does the environment benefit from this new approach This

open access book is the first comprehensive overview of maritime spatial planning Situated at the intersection between theory and practice the volume draws together several strands of interdisciplinary research reflecting on the history of MSP as well as examining current practice and looking towards the future The authors and contributors examine MSP from disciplines as diverse as geography urban planning political science natural science sociology and education reflecting the growing critical engagement with MSP in many academic fields This innovative and pioneering volume will be of interest and value to students and scholars of maritime spatial planning as well as planners and practitioners Jacek Zaucha is Professor of Economics at Gdansk University Poland He is long experienced in maritime spatial planning and is currently leading the team preparing the first plan for Polish waters Kira Gee is Research Associate at the Centre for Materials and Coastal Research Helmholtz Zentrum Geesthacht Germany She has been involved in MSP research and practice for over 20 years and has participated in numerous national and transnational European MSP projects

Sea Narratives: Cultural Responses to the Sea, 1600-Present Charlotte Mathieson, 2016-06-07 Sea Narratives Cultural Responses to the Sea 1600 Present explores the relationship between the sea and culture from the early modern period to the present The collection uses the concept of the sea narrative as a lens through which to consider the multiple ways in which the sea has shaped challenged and expanded modes of cultural representation to produce varied contested and provocative chronicles of the sea across a variety of cultural forms within diverse socio cultural moments Sea Narratives provides a unique perspective on the relationship between the sea and cultural production it reveals the sea to be more than simply a source of creative inspiration instead showing how the sea has had a demonstrable effect on new modes and forms of narration across the cultural sphere and in turn how these forms have been essential in shaping socio cultural understandings of the sea The result is an incisive exploration of the sea's force as a cultural presence

Transoceanic Perspectives in Amitav Ghosh's Ibis Trilogy Juan-José Martín-González, 2021-06-23 Transoceanic Perspectives in Amitav Ghosh's Ibis Trilogy studies Ghosh's Sea of Poppies 2008 River of Smoke 2011 and Flood of Fire 2015 in relation to maritime criticism Juan José Martín González draws upon the intersections between maritime criticism and postcolonial thought to provide via an analysis of the Ibis trilogy alternative insights into nationalism's cosmopolitanism and globalization He shows that the Victorian age in its transoceanic dimension can be read as an era of proto globalization that facilitates a materialist critique of the inequities of contemporary global neo liberalism The book argues that in order to maintain its critical sharpness postcolonialism must re-direct its focus towards today's most obvious legacy of nineteenth century imperialism capitalist globalization Tracing the migrating characters who engage in transoceanic crossings through Victorian sea lanes in the Ibis trilogy Martín González explores how these dispossessed collectives made sense of their identities in the Victorian waterworlds and illustrates the political possibilities provided by the sea crossing and its fluid boundaries
