Innovations in Research and Practice of Family Based Treatment for Eating Disorders James Lock, Daniel Le Grange, Jennifer Couturier, Dasha Elizabeth Nicholls, 2021-02-26 [Eating Disorders](#) Jessica R. Greene, 2014-08-14 It has been estimated that as many as 15 million people suffer or will suffer from anorexia and bulimia at some point in their lives. Additional statistics suggest that 25 million more suffer from binge eating and other related behaviors. The overwhelming majority of individuals who suffer from eating disorders are girls and young women between the ages of 12 and 25, but young males are not immune to these addictions and the statistics grow more alarming every year. Eating disorders affect not only those who suffer from them but family members and friends who feel powerless to help. In *Eating Disorders: The Ultimate Teen Guide*, Jessica R. Greene offers hope for the young women and men who have engaged in these self-destructive urges. In this book, Greene examines the causes and varieties of teen eating disorders and offers advice on how to overcome them. The author looks at how eating disorders are defined, how common they are, and how they are tied into behavioral addictions. In addition to explaining how and why certain people suffer from these compulsions, this book looks at Social and Cultural Pressures, High Risk Groups, Myths and Stereotypes, Health Repercussions, Methods of Prevention, Intervention Strategies, Treatment Options, and Recovery. Intended to serve as a comprehensive guide, this book also includes a list of resources for teens and their parents. Drawing on input from experts in the field as well as real life stories, *Eating Disorders: The Ultimate Teen Guide* will help young adults who are struggling with this devastating affliction. **Treating Bulimia in Adolescents** Daniel Le Grange, James Lock, 2007-01-16 Teenagers are twice as likely to have bulimia nervosa than anorexia nervosa and are often more motivated to seek help. Yet while well tested therapies exist for anorexia, until now there has been a total lack of evidence based treatment guidelines for bulimia. This state of the art manual is the first to focus specifically on this significant clinical population. The authors present a time limited bulimia treatment that is based on the proven Maudsley approach to treating anorexia and that has been demonstrated effective in a controlled clinical trial at the University of Chicago. *Help Your Teenager Beat an Eating Disorder, Second Edition* James Lock, Daniel Le Grange, 2015-01-21 Presents evidence that parents who have often been told to take a back seat in eating disorder treatment can and must play a key role in recovery. Whether pursuing family based treatment or other options, parents learn specific doable steps for monitoring their teen's eating and exercise habits, managing mealtimes, ending weight related power struggles, and collaborating successfully with health care providers. *Eating Disorders in Children and Adolescents* Daniel Le Grange, James Lock, 2011-09-20 Bringing together leading authorities, this comprehensive volume integrates the best current knowledge and treatment approaches for eating disorders in children and adolescents. The book reveals how anorexia nervosa, bulimia nervosa, and other disorders present differently developmentally and explains their potentially far reaching impact on psychological, physical, and neurobiological development. It provides guidelines for developmentally sound assessment and

diagnosis with attention to assessment challenges unique to this population Detailed descriptions of evidence based therapies are illustrated with vivid case examples Promising directions in prevention are also addressed A special chapter offers a parent s perspective on family treatment Evidence-Based Treatment for Adolescents with Anorexia and Bulimia Daniel Le

Unpack Your Eating Disorder Linsey Atkins,Maria Ganci,2019-07-17 An invaluable resource for adolescents suffering from anorexia nervosa There are few things more difficult for an adolescent than battling Anorexia Nervosa AN While family caregivers and friends can support them to eat and recover psychological recovery is a solitary journey clouded by fear and uncertainty where they are overwhelmed by feelings of guilt shame and disgust about who they are and how they look This book has been written specifically for the adolescents who are on this terrible journey The authors promote the view that adolescents deserve to be fully involved in their treatment to be heard and to be given a voice to tell their story It is through

being understood by others that they can then understand themselves and make progress on their journey to recovery This book emphasizes the crucial need for adolescents to develop a deep sense of who they are and an awareness of the many valuable resources which they can draw upon despite their internal conviction that they have none Every aspect of AN is addressed with a focus on helping adolescents understand that they do not need the illness to function It helps them explore ways to stand up to AN instead of being captive to the illness and provides multiple methods for overcoming significant obstacles that AN puts in their way Most importantly it outlines a framework of psychological support for adolescents during the recovery process The information in the book is based on the latest evidence and the authors combined clinical expertise over many years of working with adolescents and listening to their needs This book is also a valuable resource for parents to help them understand and support their child as well as an indispensable guide for clinicians working in the field as it provides several effective treatment strategies focusing on adolescents About the Authors Maria Ganci is a Registered Clinical Mental Health Social Worker and Child and Adolescent Psychoanalytical Psychotherapist Maria has over 30 years experience working with families children and adolescents in Mental Health Services She has devoted the past 15 years to treating children and adolescents with Eating Disorders Maria is the Co Director of APT Therapeutic Solutions Pty Ltd and runs a successful private practice providing training supervision and consultation both nationally and internationally in the treatment of eating disorders Maria is the author of Survive FBT Skills Manual for Parents Undertaking Family Based Treatment FBT for Child and Adolescent Anorexia Nervosa Dr Linsey Atkins is a Registered Clinical Psychologist with 15 years experience providing child adolescent parent and family therapy for eating disorders Praise for Unpack Your Eating Disorder Unpack Your Eating Disorder is a brilliant resource for parents caregivers clinicians and most importantly the adolescents themselves who are experiencing the anorexia It is the missing link in anorexia treatment today It gives the adolescent a voice understanding and validation while providing critical and practical information about what is going on in the brain and why reactions and perceptions are not always as they seem Reading this book in conjunction with the journal will no doubt help guide many struggling teenagers to have a better understanding of what is going on and help teach them to develop a healthier view of self as they work toward their recovery Highly recommended Christine Naismith Parent Eating Disorders Families Australia EDFA edfa org au
